### REISSUE OF THE ED.ZIP AND CD.ZIP MARKET DATA PRODUCT FOR 24 FEBRUARY 2022

The JSE experienced a technical problem on the evening of Thursday, 24 February 2022 that impacted the Equity Derivatives (ED.Zip) and Currency Derivatives (CD.Zip) Non-Live Market Data Products and resulting in the unfortunate reissue of these products.

The technical problem identified was due to the Risk Parameters (ADD 01 and ACD 01) data record being published with Risk Scenarios being inflated by a factor of 1 million.

The inflated risk scenarios data have been rectified and the republished Equity Derivatives (ED.Zip) and Currency Derivatives (CD.Zip) data products for 24 February 2022 have been placed in your IDP folder(s) for re-download.

We apologise for the impact to your operations and resultant inconvenience to your data clients.
