Q2 TRADING AND INFORMATION SYSTEMS RELEASES

Please note the upcoming trading and information release in the Equity, Equity Derivative and Currency Derivative Markets which **reference mandatory API changes scheduled for May 2022 (release 7.4)**. Release 7.5 will follow the successful release of 7.4 and we will share the dates accordingly.

JSE Release 7.4 will include:

- Internal JSE changes to the Regulatory NEWS Gateway;
- Data field enhancements on Enhanced Statistics message;
- Transact Time alignment on Post Trade Gateway;
- Suspension across Order Books enhancement;
- **Native Trading Gateway Protocol versioning change:**
 - Two versions on the Equity Market or Basic Native Trading Gateway to allow early adopters to code the functionality faster and for other users not be negatively affected.

Please ensure the use of **Protocol version 2 from 1 July 2022**, only, as default versioning to ensure further market facing functionality in H2 2022.

Kindly refer API Specification, connectivity and testing related queries to our Client Service Centre (CSC) via e-mail: CustomerSupport@jse.co.za
