PROVISION OF ADDITIONAL SENS ANNOUNCEMENTS FOR 13 MARCH 2023

Kindly note that a SENS issue was experienced yesterday with a very large financial results announcement from one of our Issuers. The announcement was linked to multiple Issuer roles and had an unusually large number of instruments attached to it (618 in total). The number of instruments attached breached the max allowed and therefore required some manual intervention to complete the processing and distribution to all platforms.

Due to the above-mentioned issue, 3 announcements were unfortunately not included in the SENS EOD product. To ensure that you have the complete data, we are providing you with context and make the missing information available.

There are three options available:

1. Download the following replacement files via IDP
 - DDAP.SPRD.SENS.EEPI.ZIP
 - DDAP.SPRD.SENS.ETPI.ZIP
2. Use the attached ZIP file (2MB) just for the missing announcements – But note that some clients may have issues receiving a ZIP file via e-mail.

The ZIP file via email includes the following:

1. S472640 - Original short form announcement – including its NewsML and PDF
 2. S472643 - Cancellation announcement – including its NewsML and PDF
 3. S472644 - Correction announcement – including its NewsML and PDF
 4. BANK-FYE22.pdf - is the FULL Financials which is usually available in the Cloud (i.e., the financials link embedded within the short form announcement)
3. Download the PDFs via the JSE SENS page
