## SERVICE HOTLINE

**REFERENCE NUMBER: 065/2022**

11 May 2022

### UPDATE - VERSION 7.4 AND MATCHED PRINCIPAL TRADE TYPE AVAILABLE IN CTS RELEASE (2A)

With reference to [JSE Service Hotline 052/2022](#) Market Participants are hereby informed that the test environment has been updated and will have the MP trade type available from 11 May 2022.

The Go-Live of the MP trade type is earmarked for go live on 28 May 2022 on the PTW and effective **30 May 2022** in the Production System.

The release of version 7.4 has been moved to the contingency date of 18 June 2022 and will be effective **20 June 2022** in the Production System.

Updated versions of the Trading API specifications are also available under this "Next Functional Release" section. As the current production version of Volume 03 – Post Trade Gateway is 4.04 the revised version of the future document will remain as 4.05.

For more details pertaining to the release, please refer to the JSE Trading Release Document available on the JSE website under "Next Functional Release" using the following link:
