18 May 2022

### REAL-TIME CLEARING (RTC) 1.36.1 UPGRADE - TESTING, MANDATORY MARKET DRESS REHEARSAL AND SIGN OFF

Further to [Market Notice 169/2022](#) issued on 1 April 2022, clients are reminded that testing in the ETE (staging) environment will begin on 1 June 2022 to 30 June 2022.

Clients are strongly encouraged to test their current business-as-usual activities in the ETE (staging) environment to ensure business continuity when RTC version 1.36.1 is deployed into production.

Clearing Members will be required to perform end of day balancing with JSEC and will be engaged directly regarding this testing.

A mandatory market dress rehearsal is scheduled for 16 July 2022. Clients are required to connect to the JSE production environment to test business-as-usual activities and provide sign-off.

Recommended Testing for 16 July 2022 Market Dress Rehearsal	<b>Trading Members</b> Connectivity, reference data downloads, deal and position management functions and commissions
	<b>Clearing Members</b> Connectivity, reference data downloads, on-behalf of deal management functions and commissions. <b>Please note: there will be no end of day run on the day of the market dress rehearsal</b>

The targeted production deployment date is Saturday, 23 July 2022. JSE will deploy version 1.36.1 of the Real Time Clearing system into the Production environment. The deployment is subject to resolution of any issues that may arise.

Further details in respect of the mandatory market dress rehearsal and deployment activities will be communicated closer to the time.

Thanking you in advance for your participation in ensuring a successful implementation.
