GO-LIVE CONFIRMATION OF NEW MARKET DATA CONNECT PORTAL – 3 MAY 2021

We can confirm that the first part of the new Market Data Connect Portal, which is the key outcome of the Market Data Digital transformational project, will be going live on Monday 3 May 2021.

This first phase replaces the current Market Data Portal (MDP) with the new enhanced Market Data Connect portal so this first rollout **only affects clients that currently use MDP to report data usage and indices tracking numbers as well as to view and maintain their Indices VCT end user numbers.**

Clients that use the MDP solution to view and maintain VCT end user numbers must note that the new solution will only, for phase 1, present the VCT end user numbers for viewing with changes being done by the market data team. The capability to update the numbers directly in a self-service manner will be introduced in phase 2.

From Monday 3 May, all MDP users must switch over to the new portal as the current MDP solution will be not be available from that date.

If you are a current user of MDP for reporting/VTC end user numbers, please ensure that your designated reporting person(s) are aware of this change and that they register and logon on to the new production solution via the below web address to do their reporting for May and onwards:

<https://marketdataconnect.jse.co.za/reporting>

If you have any queries about the above change or have problems accessing the new portal or need help in using the new solution, send an email to mdsupport@jse.co.za or via your JSE Market Data Account Manager and we will provide assistance.
