EQUITY MARKET SEPTEMBER 2023 QUARTERLY REVIEW

The JSE reviews the Trading liquidity rating, EMS, sector, and segment allocation of each security on a quarterly basis.

The liquidity review is based on the Average Value of trades calculated over a 3-month period. Ratings are assigned to each security which would determine whether the instrument is Liquid or Less Liquid for trading. Liquidity ratings are assigned as follows:

- 1 – Highly Liquid for Trading
- 2 – Normal Liquid for Trading
- 3 – Less Liquid for Trading

Changes to the liquidity rating, EMS, sector and segment allocations will be affected as part of the Quarterly JSE/FTSE Index Review. The attached changes will therefore be effective from start of business on Monday, 18 September 2023.

If there are any additional queries or concerns related to clearing member regression testing, please contact the ClearOps team at ClearOps@jse.co.za
