### INTRODUCTION OF THE FTSE/JSE GLOBAL INVESTOR INDEX - EFFECTIVE 11 OCTOBER 2023

We wish to inform you that the JSE in partnership with FTSE Russell will be adding the Global Investor Index to the FTSE/JSE Indices products suite.

FTSE/JSE Global Investor Index is based on the principle that all dual listed shares are fungible. The approach makes no adjustment for the Strate register and weights all companies, including dual listed companies on their global free float. This index consists of the top 50 companies from the FTSE/JSE All Share Index when ranked by investable market capitalisation. Constituent weights will be capped at 10% on a quarterly basis after the application of corporate actions.

The new Index will be included in the real time Indices feed from Wednesday, 11 October 2023:

Index Code	PDG Value	Base Date	Base Value	Frequency
J501	PDG2	16/12/2022	70,000	Streamed
