SERVICE HOTLINE

REFERENCE NUMBER: 159/2022

15 November 2022

REMINDER - ENHANCED TLS ENCRYPTION ON JSE FTP SERVERS - EFFECTIVE 28 NOVEMBER 2022

We notified you via [Service Hotline 115/2022](#) that the JSE will be enhancing the current versions of the Transport Layer Security (TLS) protocol on the two JSE FTP servers – IDP and Bond FTP.

This service hotline serves as a reminder that the TLS protocol change will be implemented on **Sunday, 27 November 2022** and the change will become effective from **Monday, 28 November 2022**. It is imperative that you cater for this security upgrade to ensure that your access and use is not disrupted from the implementation date.

As a value-add, to assist your development and testing activities of this change, we introduced a new separate test IDP server on from Monday, 29 August 2022.

The following detail has been provided for you to make the necessary changes to any services that automatically or manually utilise these servers/sites for data.

Public Domain Name	Type	Public IP	Disabling	Available
Bondftp.jse.co.za	FTP	196.216.154.144	TLS1.0	TLS1.2
			TLS1.1	
Idp.jse.co.za	FTP	196.216.154.143	TLS1.0	TLS1.2
			TLS1.1	

Kindly forward any queries about this change to our Client Service Centre using the contact details in this hotline.
