The changes are necessary to address challenges experienced recently, as well as to continually provide value to you

Introduction of new Tracker files

Two new tracker files for the J303 (Capped All Share) and J300 (Capped TOP 40) Indices have been created and will be placed in the common IDP folders from **Monday, 21 November 2022**. Below table provide details of the new files:

File Name	File Description	IDP Folder Path

Decommission of the jstc file
