STT TECHNICAL UPGRADE INTERNAL TESTING – STRATE CONNECTION

As previously communicated the JSE is in the process of upgrading the trading and clearing system for the Commodity Derivatives, Interest Rate Derivatives and Cash Bonds Markets.

The JSE is currently busy with internal testing for the STT Technical Upgrade project.

To conclude internal testing, the teams require a connection to Strate to perform end to end testing. Due to this end to end testing the current connection will be disconnected from the current Customer Test Environment. Any testing done by members during the below period will remain in the unconfirmed state.

This will be effective from 28 November 2022 till 9 December 2022.

Please refer all queries to CustomerSupport@jse.co.za
