## SERVICE HOTLINE

**REFERENCE NUMBER: 227/2021**

15 November 2021

### DIESEL CONTRACT PROJECT UPDATE – REVISED GO LIVE DATE

This hotline serves to provide an update on the Cash Settled Diesel contract, which includes the option to physically settle for qualifying participants.

Input from participants during testing, including the market-facing dress rehearsal, the JSE has decided to change the Go-Live date of the Diesel Release allowing all participants more time to complete testing.

**The confirmed go-live date is now scheduled for 24 January 2022, with the deployment being completed on 22 January 2022.**

Clients are reminded that the External Test Environment for the JSE Commodities is still available for testing. The connectivity details are as follows

IP Address: 196.216.153.101

Port number: 2210

All customers are requested to conclude their regression testing efforts on all applications including those facilitating connectivity to other asset classes to ensure their readiness for the new go-live date.

Clients may download the latest NUTRON front end version from the JSE website from the link below:
