JSE Managed Network Fee

Last year the JSE introduced its Shared Infrastructure Provider Policy where any network provider has the choice to provide network connectivity services to JSE trading participants provided they become accredited SIPs (Shared Infrastructure Providers). This principle is also embellished in the Client Connectivity requirements.

There are now several accredited SIPs and as there is no longer the concept of a preferred network provider, the JSE will no longer charge clients the Managed Network Fee which is currently being levied to clients using the MTN Managed Network. Any service is managed directly between the client and MTN. Therefore this charge will no longer appear on your JSE invoice effective 1 September 2011.

The list of JSE accredited SIP's may be referenced through the following URL:
