Dear Client

Please feel free to distribute to any interested parties.

The forthcoming marketing season for sunflower seeds commences on 1 March 2025. Please keep in mind that the JSE will continue to employ fuel price adjustments and CPI-related increases to adjust previous season location differentials. However, we would like to urge all parties involved in the transport of sunflower seeds to submit their own road rates so that the stated location differentials appropriately reflect the cost of transportation from the registered delivery location to Randfontein.

We have attached a separate spreadsheet with all registered delivery points and a special column for you to enter your Randfontein Road rates.

All contributions should reach the JSE no later than Tuesday, 21 January 2025.
