Date: 24 February 2025

SUBJECT: FINAL SOYA BEAN LOCATION DIFFERENTIALS AND FINAL STORAGE RATE FOR 2025/26 MARKETING SEASON

Name and Surname: Anelisa Matutu

Designation: Head - Commodities

Dear Client,

Following Market Notice [031A/2025](#) and [031B/2025](#) of 28 January 2025, the JSE is pleased to publish the final differentials for the 2025-26 marketing season for Soya bean.

Maximum Standard Daily Outstanding Storage Rate for Soya Bean

The maximum standard daily outstanding storage rate for marketing season 1 March 2025 – 28 February 2026 will be adjusted based on the annual percentage change in the PPI for final manufactured goods of -0.1%, published in December 2024. As a result, the maximum standard outstanding daily storage rate applied to outstanding storage in completion of a futures contract will **remain R1.18** per ton per day due to the negligible change in PPI. Please ensure that all storage is paid up to and including 28 February 2025 when making delivery of JSE silo receipts issued in the previous marketing season.

The market is hereby reminded that the following foreign origins will be accepted for delivery in fulfillment of futures contracts without any origin discount.

- Argentina
- Brazil
- Malawi
- United States of America
- Zambia
