Dear Client

### The JSE is proud to introduce two new UBS Actively Managed Certificates

1. The UBS AMC linked to the **Global Opportunities Portfolio (GLOBOP)** designed to achieve substantial long-term capital growth, with a target return of G7 CPI + 5% over any rolling 10-year period. It aims to achieve this by maintaining a minimum exposure to growth assets of 85%. These include property, equity, infrastructure, private market fund managers and commodities through listed ETFs and ETCs.
2. The UBS AMC linked to the **Adwiceworx SA Opportunities Portfolio (ADXOPP)** seeks to invest in a select group of quality South African and international companies with the potential to generate earnings and profit growth above the market. The investment strategy employs a Quality-Growth at a reasonable price philosophy which means investing in companies with consistent, above average earnings growth, reasonable valuation and strong financial strength. The strategy may hold very concentrated positions from time to time.
