Dear Client

The new maize marketing season commences 1 May 2024. We would like to invite all stakeholders to assist in providing the JSE with input of transportation costs for maize from the registered delivery points to the reference point in Randfontein.

Attached to this notice is a spreadsheet with a column provided for the rates in question. Please also provide an indication of the total tonnages of maize moved by the logistics company so that the contributions to their market activity can be weighted. Alternatively, since the JSE will be considering diesel price adjustments and a CPI related increase to adjust on last year's differentials, participants can forward their indication of the expected percentage increase together with supporting information to motivate their proposed increase.

We will maintain the 34-ton aggregate payload for maize that was agreed upon with transporters.

All contributions should reach the JSE no later than Monday, 25 March 2024 to be included in the calculation process.
