Dear Client

### The JSE is proud to introduce three new UBS Actively Managed Certificates

1. The UBS AMC linked to the **Ordian Global Multi-Asset Portfolio (ORDGMU)** aims to deliver a systematic, data-driven investment strategy that combines fundamental analysis with value investing principles. This methodology aims to identify undervalued stocks with strong financial performance and meaningful potential for future growth.
2. The UBS AMC linked to the **Excelsia Emerging Market Equity Portfolio (EXEMEQ)** whose investment strategy seeks to provide medium to long-term capital growth through investment in listed equity and equity-related securities. The actively managed strategy will endeavour to deliver solid performance and average or lower volatility over time.
3. The UBS AMC linked to the **AnBro TITANS Portfolio (TITANS)** focuses on investing in the largest and most successful companies in each industry within the US market. The objective is to invest in leading companies that dominate their respective industries and thereby provide benefits to shareholders such as capital returns, dividends, extremely high quality and lower overall volatility than the S&P 500.
