Members notice is drawn to section 13 of the contract specifications of Individual Equity Futures and options, which states:

### “13. Corporate Events

The JSE reserves the right to adopt any procedure or to adjust any single stock future or option on a single stock future, in a manner it deems fit, to deal with any extraordinary corporate events that may occur from time to time in relation to a share that is the underlying instrument of the equity option and to notify position holders, derivatives members and any other interested parties, of such event and the procedure or adjustment adopted. Such events include, for example, mergers, take-overs, unbundlings, capitalisation issues and rights issues.

The implication of this is that anybody trading in Single Stock futures or options on Single Stock futures in which the underlying stock is the subject of an extraordinary corporate event should be aware that the JSE may make adjustments to the Single Stock futures and options.

## Special Dividend and Cash Dividend

**Admiral Group Plc (ADMII)** has declared a special dividend of **19.7** GBP per share and cash dividend of **51.3** GBP per share. The special and cash dividend will be converted to ZAR using the JSE determined 6pm GBP/ZAR closing spot price based on WMR fixing rate at EOD on LDT. With regards to this corporate action, the following adjustments will be made to **ADMII** positions on 05 September 2024 (**Ex-date**). The adjustments will be made to positions held as at close of business on 04 September 2024 (**LDT**).

### **IMPORTANT NOTE for position holders:**

**Certain types of corporate actions require futures and options positions to be adjusted. This is done by applying the relevant position factor (determined as per published methodologies). The application of the position factor often results in decimal values, as a result rounding is a key part of the corporate action processing.**

**Therefore, current positions multiplied with the factor are rounded up or down to the nearest whole contract which determines the adjusted position. Smaller positions (depending on the factor) may as a result not receive additional contracts.**

**Please refer to the published guidance note for details:**

<https://www.jse.co.za/content/Guidance%20Notes/ITaC%20Guidance%20Note%20on%20Corporate%20Actions.pdf>

Adjusted positions will be created at an initial value of zero.

### **Please note:**

Position adjustments will be made to all contracts where **ADMII** is the underlying share. These contracts include:

<b>Contract</b>	<b>Contract Code</b>
16SEP24 ADMII CSH	16SEP24 ADMII CSH
16SEP24 ADMII CSH DN	16SEP24 ADMII CSH DN
13DEC24 ADMII CSH	13DEC24 ADMII CSH

15SEP25 ADMII CSH	15SEP25 ADMII CSH

### **1. POSITION FACTOR**

The positions will be adjusted by the following factor:

Calculation of position factor:

**Spot price / adjusted price**

Where:

**Spot price** = the official closing price of the underlying share on **04 September 2024 (LDT)**

**Adjusted price = Spot price – 4.545560 (Special Dividend Rate Converted to ZAR).**

Example: If the official closing price of the underlying shares on 04 September 2024 (LDT) is 683.92, the following would apply:

Spot price = 683.92 – 11.836910  
= 672.08

Adjusted price = 672.08 – 4.545560  
= 667.53

Position factor = 672.08 / 667.53  
= 1.006816

I.e. Current positions\*factor (rounded to nearest whole contract) = the number of total contracts. Additional contracts will be created at an initial value of zero.

#### **TREATMENT FOR ALLOCATION ON ADDITIONAL CONTRACTS**

With the implementation of ITaC, the JSE has enhanced the position adjustment process.

Please see link below to the Guidance Note issued on treatment of corporate actions as distributed in October 2018 and specifically refer to Section 8 for details of the position adjustment process:
