Dear Client

The JSE is proud to introduce a new Numoro Aqua Global Multi-Asset Prescient Actively Managed ETF (AQUA)

The Numoro Aqua Global Multi-Asset Prescient Actively Managed ETF (AQUA) offers exposure to international equity, bond, money or property markets. The fund has flexibility in its asset allocation between asset classes, countries and regions through its investment process which is driven by advanced algorithms that monitor and optimise the allocation.

Through integrating machine learning, the ETF can make data-driven investment decisions in real-time, while also optimising portfolio diversification, reducing risk, and enhancing potential returns for investors.
