**Date:** 25 January 2022**SUBJECT:** APPROVAL TO ADD ADDITIONAL FOREIGN ORIGIN WHEAT FOR DELIVERY ON THE JSE**Name and Surname:** Chris Sturgess**Designation:** Acting Head - Commodities

Dear Client,

The market is reminded of [Market Notice 599/2021](#), please note no objections or reservations were received by the JSE and therefore we confirm that wheat delivered from **Lithuania, Latvia and Poland** will be deliverable on the exchange in the completion of a futures contract as of 1 October 2022 - the start of the new wheat marketing season.

During this review period there was a suggestion that the JSE should consider identifying deliverable origins across all the grain contracts where foreign origin products are accepted for delivery in completion of a futures contract. This would therefore suggest that origins be identified for white and yellow maize as well as soya beans. This is something that will be consulted further on.
