SUBJECT: CONFIRMATION OF SUPPORTING DOCUMENTATION REQUIRED FOR PHYSICAL DELIVERY OF FOREIGN GRAINS

Name and Surname: Chris Sturgess

Designation: Director – Commodities & Key Client Management

Dear Commodity Members and JSE Approved Storage Operators,

Further to JSE market notices 615/2016 and 672/2016, the JSE would like to clarify the supporting documents that both the Approved Storage Operator and JSE will require from the importer or client before any JSE silo receipts will be issued for imported product.

Please ensure the following documentation is made available:

- Permit for the importation of control goods as issued by DAFF
- Phytosanitary report as issued by country of origin
- Origin Certificate as issued by country of origin authorities
- Port Health Release Note as issued by Port Health Services (applicable to imports from October 2016)

As per JSE market notice 672/2016, clients requesting receipts can expect up to a 3 day delay in the issuing of JSE silo receipts for foreign product to assist parties concerned with the validation process. Should the buyer taking physical delivery be interested in receiving a copy of the above documentation for their own record purposes, they can email commodities@jse.co.za who will supply a copy no later than delivery date. Please take note it remains the responsibility of the buyer to request the supporting documents, the JSE will not automatically include this with the assignment notice when issued.

The JSE is considering publishing on a weekly basis via its website, foreign stock held on JSE silo receipts by indicating the **tonnages, location stored and origin of the product**, we would like to hear if there is support from market participants for such detail. Please do email us your comments to commodities@jse.co.za.

An example of the detail we would like to make available:

21, 000 tons Kameel silo Mexican White Maize

Thank you.

Should you have any queries regarding this notice, please contact commodities@jse.co.za.
