

Market Notice

Number: A1282
Date 14 September 2010

Amendments to the Derivatives directives

Members are advised that the amendments to the directives, attached as Annexure A, were adopted by the Executive Committee on 13 September 2010.

The primary purpose of these amendments is to change the trading periods and times to accommodate the trading of selected international derivatives in both the Equity Derivatives Market ("EDM") and Commodity Derivatives Market ("CDM").

The JSE is continuing to expand the available product range accessible via the Global Market functionality and intends, by the end of this year, to provide –

- Yield-X members (authorised to trade currency derivatives) with the functionality to trade international derivatives and foreign commodity derivatives; and
- Members of the EDM and CDM with the functionality to trade currency derivatives.

Consequently, it is necessary to add the qualifications to be registered as a dealer in Yield-X in the Derivatives directives. In addition, "cut and paste" and omission errors have been identified and corrected and it is proposed that the references to the specific trading systems be deleted, as these references are superfluous.

Unless objections are lodged in terms of rule 1.80.3 within 10 days of this Notice, the proposed amendments to the directives will take effect.

Should you have any queries in respect of the above, please do not hesitate to contact the undersigned.
