<b>Determination of final cash settlement value</b>	<p>The final settlement price for <b>cash settlement</b> of the contract will require two components, a CME Group settlement value and a Rand Dollar exchange rate.</p> <p>The CME Group settlement value will refer to an average of <b>30 iterations</b> referencing trades in the underlying derivative contract, taken every 1 minute for a period of 30 minutes ending 10h00 New York time (SA Summer: 16h31 – 17h00 and SA Winter: 15h31 – 16h00) on the business day aligned to the currency futures expiry date. An exception is Crude Oil where 15 iterations will be taken every 1 minute for a period of 15 minutes ending 10h00 New York time (SA Summer: 16h46 – 17h00 and SA Winter: 15h46 – 16h00)</p> <p>The Rand Dollar exchange rate required to determine the settlement price in South African Rands will be the same used to settle the currency futures contract, namely: 30 iterations, arithmetic average of the underlying spot taken every 1 minute for a period of 30 minutes, ending at 10h00 New York time (SA Summer: 16h31 – 17h00 and SA Winter: 15h31 – 16h00). The expiry day will be two business days prior to the 3rd Wednesday of the expiry month (or the previous business day if that day is a public holiday)</p> <p>The two variables are calculated to 4 decimals and rounded off to 2 decimals for the final Rand settlement value.</p> <p>The final calculated Rand settlement value will be published via the trading system (NUTRON) and included in the end of day settlement prices on expiry day.</p>																																																						

FUTURES CONTRACT	CRUDE OIL	COPPER	GOLD	PLATINUM	SILVER
<b>Settlement method</b>	Cash settled in South African Rands (ZAR).
