Dear JSE Stakeholder

**Introduction of an inward listed Quanto Soybean contract referencing CME Group**

Following a request by two market participants and referencing an existing licensing agreement with CME Group, the JSE will introduce an October 14 Quanto Soybean future contract for trading from the 18th September 2014. Since the participants agreed a non standard expiry date and only wish for a single expiry, the inward listed contract will be listed in the Can-do window visible on Nutron.

The Clearing Member involved has approved the contract. Should any other clients be interested in trading this please consult with your clearing member before proceeding to transact.

Insofar as any contractual provision set out below is inconsistent with the rules and regulations ("Rules") of the JSE Limited ("JSE"), the Rules will prevail unless the JSE expressly permits the Parties to give effect to their contractual provision.

Find below the contract specifications for the contract:
