

Market Notice

Number: Y537
Date: 14 September 2010

PROPOSED AMENDMENTS TO THE YIELD-X DIRECTIVES

Members are advised that the amendments to the yield-x directives, attached as Annexure A, were adopted by the Executive Committee on 13 September 2010.

The JSE is continuing to expand the available product range accessible via the Global Market functionality. The JSE intends, by the end of this year, to provide –

- Yield-X members (authorised to trade currency derivatives) with the functionality to trade international derivatives and foreign commodity derivatives; and
- Members of the Equity Derivatives Market (EDM) and the Commodity Derivatives Market (CDM) with the functionality to trade currency derivatives.

Consequently, it is necessary to add the qualifications to be registered as a dealer in the EDM and CDM to the Yield-X directives. In addition, "cut and paste" and omission errors have been identified and corrected and it is proposed that the references to the specific trading systems be deleted, as these references are superfluous.

Unless objections are lodged in terms of rule 1.80.5 within 10 days of this Notice, the amendments will take effect.

Should you have any queries in respect of the above, please do not hesitate to contact the undersigned.

Anne Clayton
Senior Manager
