

PRICING SUPPLEMENT

PROHIBITION OF SALES TO EEA RETAIL INVESTORS: The South African Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as may be amended or replaced from time to time, "**MiFID II**"); (ii) a customer within the meaning of Directive 2002/92/EC ("**IMD**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Directive (as defined below). Consequently, no key information document required by Regulation (EU) No 1286/2014 (as may be amended or replaced from time to time, the "**PRIIPs Regulation**") for offering or selling the South African Securities or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the South African Securities or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation. Notwithstanding the above, if the Issuer subsequently prepares and publishes a key information document under the PRIIPs Regulation in respect of the South African Securities, then the prohibition on the offering, sale or otherwise making available the South African Securities to a retail investor as described above shall no longer apply.

ZAR 50,000,000 Credit Linked Notes Linked to the credit of the reference entities comprising the Markit iTraxx Europe Crossover Series 29 (Version 1) due July 2023

(the "**Notes**" or the "**South African Securities**")

The offering circular dated 25 April 2018 and the Supplements to the offering circular listed in Annex C hereto (as so supplemented, the "**Offering Circular**") (and supplemented, amended and/or replaced by the JSE Placement Document for the issuance of South African Securities dated 8 February 2018 and supplemented on 25 May 2018 (the "**JSE Placement Document**") (as may be further supplemented up to and including the Issue Date) together with this Pricing Supplement has been prepared on the basis that any offer of South African Securities in any Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "**Relevant Member State**") will be made pursuant to an exemption under the Prospectus Directive, as implemented in that Relevant Member State, from the requirement to publish a prospectus for offers of the South African Securities. The expression "**Prospectus Directive**" means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member State), and includes any relevant implementing measure in the Relevant Member State and the expression "**2010 PD Amending Directive**" means Directive 2010/73/EU. Accordingly any person making or intending to make an offer in that Relevant Member State of the South African Securities may only do so in circumstances in which no obligation arises for the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer. Neither the Issuer nor any Dealer has authorised, nor do they authorise, the making of any offer of South African Securities in any other circumstances.

The South African Securities will not be offered, sold or otherwise distributed in or from Switzerland and neither this Pricing Supplement nor any other document relating to the South African Securities may be distributed in or from Switzerland in connection with any such offering or distribution, except to individually selected qualified investors within the meaning of, and in accordance with, the Swiss Federal Act on Collective Investment Schemes.

If you purchase the South African Securities described in this Pricing Supplement after the date hereof, you should review the most recent restatement (if any) of the Offering Circular and each supplement thereafter up to (and including) the date of purchase to ensure that you have the most up to date

information on the Issuer and (if applicable) the Guarantor on which to base your investment decision (note that the terms and conditions of the South African Securities will remain as described in this Pricing Supplement and the version of the Offering Circular described above, subject to any amendments notified to Holders). Each supplement and restatement (if any) to the Offering Circular can be found on (www.bourse.lu) and (www.ise.ie).

Application will be made to list the South African Securities and to admit the South African Securities to trading on the Interest Rate Market of the JSE Limited ("JSE"). No assurance is given that such application for listing and admission to trading will be granted (or, if granted, will be granted by the Issue Date) and the issue of South African Securities and the Holder's purchase of the South African Securities are not conditional upon such listing and admission to trading of the South African Securities.

RISK FACTORS

Purchase of these South African Securities involves substantial risks

Investors should ensure that they understand the nature of the risks posed by, and the extent of their exposure under, the South African Securities. Investors should make all pertinent inquiries they deem necessary without relying on the Issuer (as defined in paragraph 1 of Part A below), the Guarantor, or the Dealer. Investors should consider the suitability of the South African Securities as an investment in light of their own circumstances, investment objectives, tax position and financial condition. Investors should consider carefully all the information set forth in this Pricing Supplement along with all the information set forth in the Offering Circular. Investors should pay particular attention to the section entitled "Risk Factors" in the Offering Circular (pages 30 to 110 inclusive).

The Issuer may redeem the South African Securities prior to the Maturity Date where, due to a change in law, a court ruling or some other administrative, regulatory or legal action which occurs on or after the Issue Date, the Issuer (or the relevant affiliate which has entered into hedging arrangements in respect of the Issuer's obligations under the South African Securities) has incurred (or there is a substantial likelihood that it will incur) a materially increased tax burden in relation to its hedging arrangements in respect of the South African Securities. In such case, the Issuer may (subject to certain conditions), on giving (generally) not less than 30 and not more than 60 days' notice, redeem the South African Securities at their Early Payment Amount (as described below). J.P. Morgan anticipates that the risk of such event occurring is remote, and further anticipates that in such unlikely event, it would not exercise its right to redeem the South African Securities unless the additional tax payable by it is or would be a substantially material amount. A pre-condition to the exercise of such right is the delivery by the Issuer to the Relevant Programme Agent of an opinion of independent legal advisers of recognised standing confirming that the terms described in the first sentence of this paragraph are met. If the South African Securities are redeemed in these circumstances, the Early Payment Amount you receive may be less than the original purchase price of the South African Securities, and could be as low as zero. You may not be able to reinvest the early redemption proceeds in an investment having a similar rate of return.

The Issuer may redeem the South African Securities in certain other extraordinary circumstances prior to the Maturity Date including: (i) certain circumstances where it has or will (or there is a substantial likelihood that it will) become obliged to pay withholding tax or additional amounts due to withholding tax, or to receive payments net of withholding, on any Underlying Hedge Transaction; and (ii) the occurrence of an Extraordinary Hedge Disruption Event (as described in the terms and conditions of the South African Securities). As described above, in such case, the Issuer may (subject to certain conditions), redeem the South African Securities at their Early Payment Amount. The Early Payment Amount may be less than the original purchase price of the South African Securities, and could be as low as zero per Security. You may not be able to reinvest the early redemption proceeds in an investment having a similar rate of return.

Unregulated Securities: The South African Securities do not constitute a participation in a collective investment scheme within the meaning of the Swiss Federal Act on Collective Investment Schemes and are not subject to supervision by the Swiss Financial Market Supervisory Authority FINMA

None of the South African Securities constitutes a participation in a collective investment scheme within the meaning of the Swiss Federal Act on Collective Investment Schemes and none of the South African Securities is subject to approval, registration or supervision by the Swiss Financial Market Supervisory Authority FINMA or any other regulatory authority in Switzerland. Accordingly, investors do not have the benefit of the specific investor protection provided under the Swiss Federal Act on Collective Investment Schemes and are exposed to the credit risk of the Issuer and Guarantor.

1. **General**

1.1 **Investors in South African Securities may receive back less than the original invested amount**

Investors in South African Securities may lose up to the entire value of their investment in the South African Securities as a result of the occurrence of any one or more of the following events:

- (i) the Issuer and Guarantor of the South African Securities are subject to insolvency proceedings or some other event impairing the ability of each to meet its obligations under the South African Securities;
- (ii) the investor seeks to sell the South African Securities prior to the maturity of the South African Securities, and the sale price of the South African Securities in the secondary market is less than the investor's initial investment; and
- (iii) an Event Determination Date occurs in respect of any Reference Entity (see below).

The obligations of the Issuer and Guarantor of the South African Securities are not secured. Notwithstanding that the South African Securities are linked to the performance of the Reference Entities, investors in such South African Securities do not have and shall not receive any rights in respect of any obligation of any Reference Entity and shall have no right to call for any obligation of any Reference Entity to be delivered to them. Neither the Issuer nor the Guarantor of the South African Securities shall be required to hold any obligation of any Reference Entity.

1.2 The South African Securities may not be a suitable investment for all investors

Each investor in the South African Securities must determine the suitability of such investment in light of the investor's own circumstances. In particular, each investor should:

- (i) have sufficient knowledge and experience (if necessary, in consultation with the investor's own legal, tax, accountancy, regulatory, investment or other professional advisers) to evaluate the South African Securities, the merits and risks of investing in the South African Securities, all information contained or incorporated by reference into this document;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of the investor's particular financial situation, an investment in the South African Securities and the impact the South African Securities will have on the investor's overall investment portfolio and financial position;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the South African Securities, including where the settlement currency is different from the currency in which such investor's principal financial activities are principally denominated;
- (iv) understand thoroughly (if necessary, in consultation with the investor's own legal, tax, accountancy, regulatory, investment or other professional advisers) the terms of the South African Securities, including certain agreements and representations that any person who purchases South African Securities at any time is required to make, or is deemed to have made, as a condition to purchasing such Security or any legal or beneficial interest therein, and be familiar with any relevant financial markets;
- (v) understand thoroughly (if necessary, in consultation with the investor's own legal, tax, accountancy, regulatory, investment or other professional advisers) the nature of the Reference Obligation and how the respective performance or value thereof may affect the pay-out and value of the South African Securities; and
- (vi) be able to evaluate (either alone or with the help of a financial adviser and/or other professional adviser) possible scenarios for economic, interest rate and other factors that may affect the return on the South African Securities and the investor's ability to bear the applicable risks.

The South African Securities are complex financial instruments and may include embedded derivatives. An investor should not invest in South African Securities unless it has the expertise (either alone or with a financial adviser) to evaluate how such South African Securities will perform under changing

conditions, the resulting effects on the value of those South African Securities and the impact that such South African Securities will have on the investor's overall investment portfolio.

None of the Issuer, Guarantor, Dealer or any J.P. Morgan affiliate has given, and they will not give, to any investor in the South African Securities (either directly or indirectly) any assurance or guarantee as to the merits, performance or suitability of such South African Securities, and the investor should be aware that the Issuer is acting as an arm's-length contractual counterparty and not as an advisor or fiduciary.

2. Risk factors that are generic to structured South African Securities

2.1 The Issue Price of the South African Securities may be more than the market value of such South African Securities as at the Issue Date and the price of the South African Securities in secondary market transactions

The Issue Price in respect of the South African Securities may be more than the market value of the South African Securities as at the Issue Date, and more than the price, if any, at which the Dealer or any other person is willing to purchase such South African Securities in secondary market transactions. In particular, where permitted by applicable law, the Issue Price in respect of the South African Securities may take into account amounts with respect to commissions relating to the issue and sale of such South African Securities and amounts relating to the hedging of the Issuer's obligations under such South African Securities.

2.2 The market value and the amount payable on early termination of the South African Securities may be adversely affected by a number of factors, and the price if any at which a Holder of those South African Securities may be able to sell such South African Securities may be at a substantial discount to the market value of such South African Securities on the Issue Date, and a Holder may suffer a loss of some or up to all of the entire invested amount of the South African Securities

(i) *The South African Securities are subject to the credit risk of the Issuer and Guarantor*

The South African Securities are subject to the credit risk of the Issuer and Guarantor and changes in their respective credit spreads and, in the case of the Guarantor, its credit ratings may adversely affect the market value of the South African Securities. Investors are dependent on the Issuer's and Guarantor's ability to pay all amounts due on the South African Securities, and therefore investors are subject to the credit risk of such JPMorgan Chase entities and to changes in the market's view of the creditworthiness of such JPMorgan Chase entities. If the Issuer and Guarantor were to default on its payment or other obligations, an investor may not receive any amounts owed to it under the South African Securities and could lose its entire investment.

(ii) *The credit rating of JPMorgan Chase Bank, N.A. and JPMorgan Chase & Co. may move independently of each other*

JPMorgan Chase & Co. is the holding company of JPMorgan Chase. As such, JPMorgan Chase & Co. and its subsidiaries (other than JPMorgan Chase Bank, N.A.) are generally permitted to undertake a wider range of activities than JPMorgan Chase Bank, N.A. and its subsidiaries. As a result, while the credit rating of JPMorgan Chase & Co. and JPMorgan Chase Bank, N.A. are closely related, those credit ratings are usually different and, in the event of any change in those credit ratings, those ratings may move independently of each other. JPMorgan Chase Bank, N.A. is typically rated more highly than JPMorgan Chase & Co. but there is no assurance that this will always be the case and investors should check the relevant rating at the time of considering any investment in South African Securities.

The creditworthiness of JPMorgan Chase Bank, N.A. is more likely to affect the trading value of South African Securities issued by JPMSP, which are guaranteed by JPMorgan Chase Bank, N.A.

(iii) *The market value of the South African Securities at any time is dependent on the non occurrence of certain events with respect to the Reference Entities and may be less than the original amount invested*

The South African Securities will represent an investment linked to the non occurrence of certain events in respect of the Reference Entities. The investor may lose some or all of the amount invested in the South African Securities. Investors should not invest in any South African Securities if they do not fully understand how the terms of the South African Securities will operate in all circumstances (if necessary, in consultation with the investor's own legal, tax, accountancy, regulatory, investment or other professional advisers), including the potential to lose all their investment.

Investors in South African Securities must be aware that the historical performance of a Reference Entity should not be taken as an indication of future performance of such Reference Entity during the term of such Security. Actual results will be different, and such differences may be material.

In contrast to a direct investment in the obligations of each Reference Entity, the South African Securities represent the right to receive payment of amounts which will be determined by reference to the performance of such obligations. Investors should also note that whilst the market value of South African Securities linked to the Reference Entities will be influenced (positively or negatively) by changes in the perceived creditworthiness of any Reference Entity, any change may not be comparable or directly proportionate to the change in value of any particular obligation of a Reference Entity. The price at which an investor will be able to sell South African Securities to the Issuer or its affiliates prior to the Settlement Date if at all, may be at a substantial discount from the invested amount to purchase the South African Securities, even in cases where the value of the obligations of a Reference Entity has appreciated since the Issue Date.

INVESTORS MUST REVIEW THIS DOCUMENT TO ASCERTAIN HOW THE PERFORMANCE OF EACH REFERENCE ENTITY WILL AFFECT THE AMOUNT PAYABLE ON THE SOUTH AFRICAN SECURITIES.

- (iv) ***The market value of the South African Securities at any time is dependent on other matters in addition to the credit risk of the Issuer and the Guarantor, and the performance of each Reference Entity***

The market value of the South African Securities at any time will be affected by a number of factors independent of the creditworthiness of the Issuer and the Guarantor, including:

- (a) market interest and yield rates;
- (b) the time remaining to the maturity; and
- (c) numerous other economic, political and other factors.

- (v) ***The market value of South African Securities may be highly volatile***

The price, performance or investment return of the South African Securities may be subject to sudden, large and unpredictable changes over time and this degree of change is known as "volatility". The volatility of the South African Securities may be affected by national and international financial, political, military or economic events, including governmental actions, or by the activities of participants in the relevant markets. Any of these events or activities could adversely affect the value of the South African Securities.

- (vi) ***The South African Securities are not "principal protected" and may redeem at an amount less than an investor's initial investment, including at zero***

The terms of the South African Securities do not provide for any "principal protection". Investors in the South African Securities may risk losing all or a substantial amount of their investment if an Event Determination Date occurs (see below).

2.3 An active trading market for the South African Securities is not likely to develop

Unless otherwise communicated by the Issuer or any J.P. Morgan affiliate to the investor in the South African Securities, or to the extent that the rules of any stock exchange on which the South African

Securities are listed and admitted to trading require the Issuer or any J.P. Morgan affiliate to provide liquidity in respect of such South African Securities, the South African Securities may have no liquidity or the market for such South African Securities may be limited and this may adversely impact their value or the ability of the investor to dispose of them. Subject to the rules of any relevant stock exchange, the Issuer or Guarantor may seek the delisting of any South African Securities without notice to the Holders of such South African Securities.

A secondary market for any series of South African Securities is unlikely to develop and, even if a secondary market does develop, it is not possible to predict the price at which South African Securities will trade in such secondary market. Neither the Issuer, Guarantor or any J.P. Morgan affiliate is under any obligation, and neither the Issuer nor any other J.P. Morgan affiliate makes any commitment, to make a market in or to repurchase the South African Securities. If the Issuer, Guarantor or any J.P. Morgan affiliate does make a market for the South African Securities, it may cease to do so at any time without notice.

2.4 There may be price discrepancies with respect to the South African Securities as between various dealers or other purchasers in the secondary market

If at any time a third party dealer quotes a price to purchase South African Securities or otherwise values South African Securities, that price may be significantly different (higher or lower) from any price quoted by any J.P. Morgan affiliate. Furthermore, if any Holder sells its South African Securities, the Holder will likely be charged a commission for secondary market transactions, or the price may reflect a dealer discount.

2.5 The South African Securities may be redeemed prior to their maturity

The South African Securities may be redeemed prior to their maturity for any of the following reasons:

- (i) the Issuer determines that its performance under any Security has become unlawful in whole or in part for any reason (see General Condition 16 (Early Redemption or Termination for Illegality));
- (ii) in certain circumstances where the Issuer determines that it will become subject to withholding tax on payments made to it as a result of Holders failing to provide information required by FATCA, there is a substantial likelihood that it will violate any requirement of, or an agreement entered into with a taxing authority with respect to, FATCA or there is a substantial likelihood that a series of South African Securities will be treated, for U.S. federal income tax purposes, as being in bearer form (see General Condition 18.3 (Early Redemption or Termination for Taxation – FATCA));
- (iii) the occurrence of certain taxation events with respect to the South African Securities; or
- (iv) following an Event of Default (see General Condition 15 (Events of Default)).

On early termination due to any of the circumstances described in (i) to (iv) above, the Holder will receive (subject in the case of (iv) to claims of other creditors) the "Early Payment Amount" in full and final settlement of the South African Securities. The "Early Payment Amount" is the fair market value of the South African Securities, determined using its internal models and methodologies and taking into account all relevant factors (but ignoring the event which resulted in such redemption), less all costs incurred by or on behalf of the Issuer in connection with such early termination, including costs of unwinding any related funding and/or hedging arrangements of the Issuer, and all other expenses, all as determined by the Calculation Agent. The Early Payment Amount may be less than the original purchase price of the South African Securities and could be as low as zero. See Risk Factor 1.1 (Investors in South African Securities may receive back less than the original invested amount).

Following early termination of South African Securities, a Holder may not be able to reinvest the proceeds at an effective interest rate as high as the interest rate or yield on the South African Securities being redeemed and may only be able to do so at a significantly lower rate. Investors in South African Securities should consider such reinvestment risk in light of other investments available at that time.

2.6 JPMorgan Chase is subject to various potential conflicts of interest in respect of the South African Securities, which could have an adverse effect on the South African Securities

- (i) ***JPMorgan Chase & Co. or any of its consolidated subsidiaries (each a "J.P. Morgan affiliate") may take positions in or deal with the obligations of any Reference Entity***

The Issuer, the Guarantor and/or other J.P. Morgan affiliates may:

- (a) in the ordinary course of business, effect transactions for their own account or for the account of their customers and hold long or short positions in obligations of any Reference Entity or related derivatives;
- (b) in connection with an offering of South African Securities, enter into one or more hedging transactions with respect to obligations of any Reference Entity or related derivatives; and/or
- (c) in connection with such hedging or market-making activities or with respect to proprietary or other trading activities, enter into transactions in obligations of any Reference Entity or related derivatives which may adversely (or positively) affect the price, liquidity or value of the South African Securities and which could therefore be adverse to the interests of the Holders.

- (ii) ***The Calculation Agent of the South African Securities, which is a JPMorgan Chase affiliate, has broad discretionary powers which may not take into account the interests of the Holders***

As the Calculation Agent is a JPMorgan Chase affiliate, potential conflicts of interest may exist between the Calculation Agent and the Holders, including with respect to the exercise of the discretionary powers of the Calculation Agent. For example, the Calculation Agent has the authority (i) to determine whether certain specified events and/or matters so specified in the conditions relating to a Series of South African Securities have occurred and (ii) to determine any resulting adjustments and calculations or substitutions as described in such conditions. Investors should be aware that any determination made by the Calculation Agent may have an impact on the value and financial return of the South African Securities. Any such discretion exercised by, or any calculation made by, the Calculation Agent (in the absence of manifest or proven error) shall be binding on the Issuer and all Holders.

- (iii) ***JPMorgan Chase and its affiliates may have confidential information relating to any Reference Entity or its obligations***

Certain JPMorgan Chase affiliates may from time to time, by virtue of their status as underwriter, advisor or otherwise, possess or have access to information relating to the South African Securities, any Reference Entity, the obligations of any Reference Entity and any derivative securities referencing them. Such JPMorgan Chase affiliates will not be obliged to disclose any such information to a purchaser of the South African Securities.

- (iv) ***A JPMorgan Chase affiliate may act as a hedge counterparty to the Issuer's obligations under the South African Securities***

Certain JPMorgan Chase affiliates may be the counterparty to the hedge of the Issuer's obligations under an issue of South African Securities. Accordingly, certain conflicts of interest may arise both among such affiliates and between the interests of such affiliates and the interests of purchasers of South African Securities.

2.7 There may be regulatory consequences to the Holder of holding South African Securities

There may be regulatory and other consequences associated with the ownership by certain investors in certain South African Securities. Each investor in such South African Securities must conduct its own investigation into its regulatory position with respect to the potential investment in South African Securities, and none of the Issuer, the Guarantor, the Dealer or the Arranger assumes any obligation or liability whatsoever to such investor in such regard.

2.8 South African Securities may be amended without the consent of the Holders or with the consent of only some of the Holders binding all of the Holders of South African Securities

Subject as provided below, the terms and conditions of the South African Securities may be amended by the Issuer without the consent of the Holders if the amendment:

- (i) is of a technical nature; or
- (ii) is made to correct a manifest or proven error; or
- (iii) is to comply with mandatory provisions of any applicable laws.

In addition, other changes may be made to the terms and conditions with the consent of the Holders. In order to make such changes, the Issuer requires the consent of at least 75 per cent. of the Holders. If the amendment is approved, any dissenting Holders will be bound by such changes. For more information, please see condition 11.1 (*Modifications*) in the JSE Placement Document.

2.9 The Issuer or the Guarantor of South African Securities may be substituted without the consent of the Holders

The Issuer of South African Securities may be substituted as the Issuer of South African Securities in favour of JPMorgan Chase & Co. or any of its subsidiaries, without the consent of the Holders or any right of the Holders to object to such substitution. The right of substitution is conditional on certain terms. See General Condition 28 (*Substitution*).

2.10 Payments to Holders in respect of the South African Securities and payments received by the Issuer may be subject to withholding taxes, which may give rise to a right for the Issuer to terminate the South African Securities early

Under any of (a) U.S. tax legislation commonly known as the Foreign Account Tax Compliance Act, (b) analogous provisions of non-U.S. laws, (c) an intergovernmental agreement in furtherance of such legislation or laws, or (d) an individual agreement entered into with a taxing authority pursuant to such legislation or laws (collectively, "**FATCA**"), the Issuer or an intermediary may be required to withhold a U.S. withholding tax of 30 per cent. on payments, including principal and gross proceeds, made to certain Holders in respect of the relevant South African Securities. Withholding generally applies to payments of U.S. source interest, dividends (including payments treated as "dividend equivalents" under section 871(m) of the Code) and other passive income and will apply to payments of gross proceeds (including principal) from the sale or other disposition after 31 December 2018 of any property that can produce certain U.S. source income. Withholding on "foreign passthru payments" will apply no earlier than 1 January 2019. Withholding tax may apply to payments in respect of South African Securities made to (i) (unless exempt or otherwise deemed to be compliant) a non-U.S. Holder or beneficial owner that is a foreign financial institution (an "**FFI**") that does not have in place an effective reporting and withholding agreement with the U.S. Internal Revenue Service (the "**IRS**") (such an FFI, a "**non-compliant FFI**") and (ii) other Holders or beneficial owners that do not comply with the Issuer's or any intermediary's requests for ownership certifications and identifying information or, if applicable, for waivers of any law prohibiting the disclosure of such information to a taxing authority (such Holders and beneficial owners, "**Recalcitrant Holders**"). In the event that the Issuer or an intermediary is required to deduct a withholding tax under FATCA, no additional amounts will be paid to the Holder or beneficial owner of the Security.

Under FATCA, JPMSP. may also be subject to a withholding tax of 30 per cent. on certain payments made to it if it does not comply with the relevant requirements under FATCA. In the event JPMSP determines that there is a substantial likelihood that payments made to it would be subject to withholding tax under FATCA or if JPMSP. otherwise determines in good faith that there is a substantial likelihood that it will violate any requirement of, or an agreement entered into with a taxing authority with respect to, FATCA, **it is possible that a portion or all South African Securities of a series issued by JPMSP. will be redeemed or terminated at the Early Payment Amount (which amount may be less than the purchase price paid by the Holder, depending on the fair market value of the South African Securities at the relevant time and associated costs of the Issuer to be deducted).**

It is anticipated that the Issuer will comply with any due diligence, reporting and withholding requirements under FATCA. Accordingly, the Issuer may be required, among other things, to withhold 30 per cent. on payments made to Holders that are non-compliant FFIs or to Recalcitrant Holders. Should the Issuer or intermediary withhold on payments pursuant to FATCA, there will be no "gross

up" (or any other additional amount) payable by way of compensation to such Holders or beneficial owners for the amounts deducted.

2.11 **Representation**

No person has been authorised to give any information or make any representation not contained in or not consistent with this document, or any other information supplied in connection with the South African Securities and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer, J.P. Morgan, the Calculation Agent or any of their affiliates. The Issuer, the Dealer and their affiliates will not provide any information and make no representation regarding each Reference Entity. Each investor must make an independent investigation of each Reference Entity and shall not rely on J.P. Morgan or its affiliates when making an investment decision.

3. **Risk factors that are specific to credit linked South African Securities**

3.1 **Credit risk of the Reference Entities**

The South African Securities explicitly bear the credit risk of the Reference Entities and any Successor(s) thereto identified by the Calculation Agent or the Credit Derivatives Determinations Committee, in accordance with "Provisions for determining a Successor" in the Credit Annex. If an Event Determination Date occurs, the South African Securities will be subject to redemption at or following their scheduled maturity at an amount (after deduction of the Triggered Reference Entity Losses of each Reference Entity affected by an Event Determination Date (which may be as high as the Aggregate Nominal Amount multiplied by the Credit Position of such Reference Entity) and deduction of Costs) which may be significantly less than the outstanding Aggregate Nominal Amount and may be as low as zero and Interest (if any) on the South African Securities will stop accruing in respect of the Credit Positions of the affected Reference Entities on the Interest Payment Date immediately preceding the Event Determination Date in respect of the Affected Reference Entities. If a Potential Failure to Pay or Potential Repudiation/Moratorium occurs, interest (if any) will be suspended and if an Event Determination Date subsequently occurs, no interest will be payable following the Interest Payment Date immediately preceding the date on which such Potential Failure to Pay or Potential Repudiation/Moratorium occurs.

Holders should review which Credit Events apply to each Reference Entity and the circumstances in which such Credit Events may apply and the category and characteristics of the Obligations and/or Deliverable Obligations and/or Valuation Obligations which may affect the value of the Final Price and/or the Final Redemption Amount and/or the South African Securities. The Issuer, the Dealer and their affiliates will not provide any information and make no representation regarding the Reference Entities. Each investor must make an independent investigation of the Reference Entities and shall not rely on J.P. Morgan or its affiliates when making an investment decision.

3.2 **Successors with respect to a Reference Entity**

The determination of a Successor Reference Entity or Entities may expose you to new credit risks. The Calculation Agent may rely on any determinations of any Credit Derivatives Determinations Committee in determining any Successors.

Changes in a Reference Entity may change the probability of a Credit Event occurring and consequently may adversely affect the South African Securities. You should read the section called "Provisions for Determining a Successor" in the Credit Annex for more information on the effect of the determination of a Successor on the South African Securities.

3.3 **Holders (in their capacity as holders of the South African Securities) will not be able to refer questions to the Credit Derivatives Determinations Committees**

The Holders, in their capacity as holders of the South African Securities, will not have the ability to refer questions to a Credit Derivatives Determinations Committee since the South African Securities are not a credit default swap transaction. As a result, Holders will be dependent on other market participants to refer specific questions to the Credit Derivatives Determinations Committees that may be relevant to the Holders. The Calculation Agent has no duty to the Holders to refer specific questions to the Credit Derivatives Determinations Committees.

3.4 Holders will have no role in the composition of the Credit Derivatives Determinations Committees

Separate criteria apply with respect to the selection of dealer and non-dealer institutions to serve on the Credit Derivatives Determinations Committees and the Holders will have no role in establishing such criteria. In addition, the composition of the Credit Derivatives Determinations Committees will change from time to time in accordance with the Credit Derivatives Determinations Committees Rules, as published by ISDA on its website at www.isda.org (or any successor website thereto) from time to time and as amended from time to time in accordance with the terms thereof (the "**Rules**"), as the term of a member institution may expire or a member institution may be required to be replaced. The Holders will have no control over the process for selecting institutions to participate on the Credit Derivatives Determinations Committees and, to the extent provided for in the South African Securities, will be subject to the determinations made by such selected institutions in accordance with the Rules.

3.5 Potential conflicts of interest due to the involvement of the Calculation Agent with the Credit Derivatives Determinations Committees

Since, as of the Issue Date, the Calculation Agent (or one of its affiliates) is a voting member on each of the Credit Derivatives Determinations Committees and is a party to transactions which incorporate, or are deemed to incorporate, the 2014 ISDA Credit Derivatives Definitions, it may take certain actions which may influence the process and outcome of decisions of the Credit Derivatives Determinations Committees. See "Ability of the Calculation Agent or its Affiliates to influence the Credit Derivatives Determinations Committees" in Annex B. Such action may be adverse to the interests of the Holders and may result in an economic benefit accruing to the Calculation Agent. In taking any action relating to the Credit Derivatives Determinations Committees or performing any duty under the Rules, the Calculation Agent shall have no obligation to consider the interests of the Holders and may ignore any conflict of interest arising due to its responsibilities under the South African Securities.

3.6 Holders will have no recourse against either the institutions serving on the Credit Derivatives Determinations Committees or the external reviewers

Institutions serving on the Credit Derivatives Determinations Committees and the external reviewers, among others, disclaim any duty of care or liability arising in connection with the performance of duties or the provision of advice under the Rules, except in the case of gross negligence, fraud or wilful misconduct. Furthermore, the member institutions of the Credit Derivatives Determinations Committees from time to time will not owe any duty to the Holders and the Holders will be prevented from pursuing legal claims with respect to actions taken by such member institutions under the Rules.

Holders should also be aware that member institutions of the Credit Derivatives Determinations Committees have no duty to research or verify the veracity of information on which a specific determination is based. In addition, the Credit Derivatives Determinations Committees are not obligated to follow previous determinations and, therefore, could reach a conflicting determination for a similar set of facts.

3.7 Holders shall be responsible for obtaining information relating to deliberations of the Credit Derivatives Determinations Committees

Notices of questions referred to the Credit Derivatives Determinations Committees, meetings convened to deliberate such questions and the results of binding votes of the Credit Derivatives Determinations Committees will be published on the ISDA website (www.isda.org) and neither the Issuer, the Calculation Agent nor any of their respective affiliates shall be obliged to inform the Holders of such information (other than as expressly provided in the terms of the South African Securities). Failure by the Holders to be aware of information relating to determinations of a Credit Derivatives Determinations Committee will have no effect under the South African Securities and Holders are solely responsible for obtaining any such information.

3.8 No rights of ownership in any Reference Obligation

Investors in South African Securities should be aware that no Reference Obligation will be held by the Issuer for the benefit of the investors in such South African Securities, and as such, investors will not obtain any rights of ownership, including, without limitation, any voting rights, any rights to receive dividends or other distributions or any other rights with respect to a Reference Obligation referenced by

such South African Securities. No J.P. Morgan affiliate is under any obligation whatsoever to acquire and hold any Reference Obligation.

3.9 The past performance of a Reference Entity is not indicative of future performance

Any information about the past performance of a Reference Entity at the time of the issuance of the Security should not be regarded as indicative of the range of, or trends in, fluctuations in the Reference Obligation that may occur in the future. Actual results will be different, and such differences may be material.

3.10 The Calculation Agent has broad discretion to make certain determinations and adjustments, and/or to cause early termination of the South African Securities, any of which may be adverse to Holders

The Calculation Agent may in certain circumstances adjust the terms and conditions of the South African Securities (without the consent of the Holders) or may procure the early termination of such South African Securities prior to their scheduled settlement date where particular adjustment events specified to be applicable to such South African Securities occur, in each case, in accordance with such terms and conditions. In the event of such early termination the Issuer will repay such South African Securities at the Early Payment Amount, which will be determined on the basis of an amount determined by the Calculation Agent as representing the fair market value of such South African Securities immediately prior to such early termination, less any cost to the Issuer, or any affiliate of the Issuer which is hedging the South African Securities on the Issuer's behalf, of unwinding such hedging transactions. Investors in the South African Securities should be aware that it is likely that such Early Payment Amount will be less than the investor's initial investment. See Risk Factor 1.1 (*Investors in South African Securities may receive back less than the original invested amount*). Following any such early termination of the South African Securities, the investors in such South African Securities may not be able to reinvest the termination proceeds at an effective interest rate as high as the yield on the South African Securities being terminated and may only be able to do so at a significantly lower rate. Investors in the South African Securities should consider such reinvestment risk in light of other investments available at that time.

3.11 No Holder Rights with respect to a Reference Entity

Neither the Issuer nor the Guarantor has any ability to control or predict the actions of a Reference Entity, including actions that could affect the value of the South African Securities. None of the proceeds of issue of the South African Securities will go to any Reference Entity, each Reference Entity will not be involved in the offering of the South African Securities in any way, and each Reference Entity will have no obligation to consider the interests of Holders in taking any actions that might affect the value of the South African Securities. Holders will not have any voting rights, rights to receive distributions or any other rights with respect to the obligations of a Reference Entity.

3.12 No Replacement of a Reference Entity

Following the Trade Date, neither the Issuer nor the Guarantor will be able to replace a Reference Entity to avoid Credit Events or the determination of a Successor. Consequently, the occurrence of an Event Determination Date may result in a reduction in the value of the South African Securities and a reduction, potentially to zero, in the outstanding principal amount of the South African Securities. Similarly, any determination of a Successor with respect to a Reference Entity or its Successor on or after the Successor Backstop Date (which may be prior to the Trade Date) may change the probability of the occurrence of a Credit Event and the risk associated with an investment in the South African Securities. Therefore, investors should not invest in the South African Securities unless they are comfortable with the creditworthiness of each Reference Entity and the likelihood of the occurrence of a Credit Event and/or the determination of a Successor.

3.13 Limited Provision of Information about each Reference Entity

As the occurrence of an Event Determination Date will result in the redemption of the South African Securities at or following their Scheduled Maturity Date at an amount (after deduction of the Triggered Reference Entity Losses of each Reference Entity affected by an Event Determination Date and deduction of Costs) which may be significantly less than the outstanding Aggregate Nominal Amount and may be as low as zero and a cessation of the accrual of Interest (if any) in respect of the Credit

Positions of the affected Reference Entities, in each case, on the Interest Payment Date immediately preceding the relevant Event Determination Date or, if a Potential Failure to Pay or Potential Repudiation/Moratorium results in an Event Determination Date, cessation of the accrual of Interest (if any) on the Interest Payment Date immediately preceding the date on which the Potential Failure to Pay or Potential Repudiation/Moratorium occurs, investors should conduct their own investigation and analysis with respect to the creditworthiness of each Reference Entity and the likelihood of the determination of a Successor or the occurrence of a Credit Event.

An Event Determination Date may result from a Credit Event occurring at any time from and including the Credit Event Backstop Date to and including the Credit Observation End Date (or the Extension Date, if a Potential Failure to Pay or Potential Repudiation/Moratorium occurs). Any Credit Event Notice will be delivered from the Calculation Agent to the Issuer but not the Holders. The Issuer and its affiliates will have no obligation to keep Holders informed as to any matters with respect to a Reference Entity or any of its obligations, including the occurrence of a Credit Event or Event Determination Date and whether or not circumstances exist that give rise to the possibility of the occurrence of a Credit Event or the determination of a Successor with respect to a Reference Entity.

3.14 No right to inspect the records of the Issuer

Holders will not have the right to inspect any of the Issuer's or the Guarantor's records or any records of their respective affiliates. Except for the information contained herein, neither the Issuer nor the Guarantor nor any of their respective affiliates will have any obligation to disclose any information or evidence regarding the existence or terms of any obligation of any Reference Entity or otherwise regarding any Reference Entity or any other person.

4. Repurchase by Dealer and Sale of South African Securities Prior to the Maturity Date and liquidity risk

The South African Securities are not liquid instruments. J.P. Morgan may but shall have no obligation to make a secondary market for the sale and purchase of the South African Securities. Although the Dealer will try to provide pricing or offer unwind facilities, there may exist a time when there is a lack of liquidity or low trading volume in the market for the South African Securities, which could result in a decrease of the market value of the South African Securities. If the South African Securities are early redeemed prior to the Maturity Date or Early Redemption Date (if applicable), the holder of a South African Securities may suffer a higher loss or significantly smaller gain on the principal invested, and may also suffer significant unwind costs and wide bid offer spreads. The South African Securities should be considered a "hold until maturity" product.

5. Limitations of the JPMorgan Chase Bank, N.A. Guarantee

The guarantee of JPMorgan Chase Bank, N.A. under the JPMorgan Chase Bank, N.A. Guarantee is limited in scope to the payment and delivery and other obligations of the Issuer in respect of the relevant South African Securities, and allow the Guarantor to avail itself of all exclusions, exceptions and defences available to the Issuer under the terms and conditions of the South African Securities and at law. Further, in certain circumstances, the Guarantor will not be obliged under the terms of its Guarantee to satisfy the payment or delivery or other obligations of the Issuer, even where such Issuer has failed to perform such obligations. For example, if the Issuer is prohibited, unable, or otherwise fails to make any payment, or any portion thereof or to perform any other obligation, because or arising out of an act of war, insurrection or civil strife; an action by the government or any governmental authority or instrumentality thereof (whether de jure or de facto); legal constraint; terrorism; riots; or catastrophe, and the Issuer is thereby in default of its payment or delivery or other obligations in respect of a Series of South African Securities, the Guarantor will be under no obligation under the terms of its Guarantee to satisfy the Issuer's defaulted obligations.

6. Emerging Markets Risk

Emerging markets carry higher risks for investors who should therefore ensure that, before investing, they understand the risks involved and are satisfied that such investment is suitable. The investor understands that transactions involving emerging markets currencies bear substantial risks of loss.

PART A - CONTRACTUAL TERMS

"Affected Reference Entity" means, in respect of a Specified Payment Date, that the Reference Entity was a Non-Determined Reference Entity as of the Cut-off Date relating to that Specified Payment Date or that a Deferral Notice has been given to the Issuer after the Cut-off Date relating to that Specified Payment Date but on or prior to that Specified Payment Date (in each case determined by reference to Greenwich Mean Time or, if the relevant Standard is Japan or Japan Sovereign, Tokyo time).

"Applicable Event Determination Date" means, in respect of a Specified Payment Date, an Event Determination Date that occurs on or before the latest Potential Event Determination Date with respect to the Reference Entity and for which the related Credit Event occurred on or after the Credit Event Backstop Date (determined by reference to Greenwich Mean Time or, if the relevant Standard is Japan or Japan Sovereign, Tokyo time) and on or prior to the Specified Payment Extension Date relating to that Specified Payment Date (determined by reference to Greenwich Mean Time or, if the relevant Standard is Japan or Japan Sovereign, Tokyo time).

"Credit Observation End Date" means 20 June 2023.

"Credit Position" means in respect of each Reference Entity, the weighting for such Reference Entity (expressed as a percentage), as set out in the column headed "Weighting" in the Index.

"Cut-off Date" means the third Business Day prior to each Interest Payment Date (including the Scheduled Maturity Date).

"Deferred Interest Payment Date" means with respect to the relevant Interest Payment Date, the next following Interest Payment Date, or if none, the day falling five Business Days following the Determination Date determined pursuant to paragraphs (i) or (ii)(b) of the definition of Determination Date.

"Determination Date" means, in respect of a Reference Entity that was an Affected Reference Entity in respect of a Specified Payment Date (the **"Relevant Specified Payment Date"**):

- (i) where no Applicable Event Determination Date has occurred with respect to the Reference Entity and the Relevant Specified Payment Date, the date (the **"Latest EDD Trigger Date"**) on which the Calculation Agent determines that no Event Determination Date could subsequently occur, provided that at any time prior to the occurrence of an Applicable Event Determination Date the Calculation Agent may designate a day falling prior to the Latest EDD Trigger Date as the Determination Date for purposes of this sub-paragraph (i); and
- (ii) where an Applicable Event Determination Date has occurred with respect to the Reference Entity and the Relevant Specified Payment Date, the earliest of:
 - (a) the date on which the Final Price is determined, provided that such date is not also a date on which ISDA makes a public announcement as described in sub-paragraph (b) below; and
 - (b) the date (if any) on which ISDA following the relevant Cut-off Date makes a public announcement that either (X) a DC Resolution has resolved that the Credit Event to which such Event Determination Date relates has not occurred with respect to the Reference Entity or (Y) a DC Resolution has resolved that a Credit Event has occurred with respect to the Reference Entity but that the date of occurrence of such event was after the Specified Payment Extension Date relating to the Relevant Specified Payment Date.

"Non-Determined Reference Entity" means, in respect of any day, the Reference Entity is a Reference Entity in respect of which:

- (i) an Event Determination Date has occurred and been determined on or prior to that day (and such Event Determination Date has not, in accordance with the Credit Annex, been reversed or otherwise determined not to have occurred, on or prior to such day) and no Final Price has been determined with respect to the relevant Credit Event;
- (ii) an Uncured Default in respect of a Potential Failure to Pay or Potential Repudiation/Moratorium applicable to that Reference Entity exists on that day where such Potential Failure to Pay or Potential Repudiation/Moratorium has occurred on or before the Credit Observation End Date (determined by reference to Greenwich Mean Time or, if the relevant Standard is Japan or Japan Sovereign, Tokyo time); or
- (iii) there is a DC Credit Event Question for which there has not been a DC Resolution and, in each case, no

Determination Date has occurred in respect thereof.

Any Credit Event Notice that describes a Credit Event with respect to a Reference Entity that occurred after the Credit Observation End Date must relate to the relevant Potential Failure to Pay, in the case of a Grace Period Extension Date, or the relevant Potential Repudiation/Moratorium, in the case of a Repudiation/Moratorium Evaluation Date.

A Credit Event Notice that describes a Credit Event other than an M(M)R Restructuring must be in respect of the full Credit Position.

A Credit Event Notice must contain a description in reasonable detail of the facts relevant to the determination that a Credit Event with respect to a Reference Entity has occurred. Other than where a DC Credit Event Announcement has been made with respect to the relevant Credit Event, the Calculation Agent shall only deliver a Credit Event Notice where it determines in its sole and absolute discretion that Publicly Available Information exists confirming the existence or occurrence of the relevant Credit Event and, in that case, such Credit Event Notice shall contain a copy, or a description in reasonable detail, of the relevant Publicly Available Information. The Credit Event that is the subject of the Credit Event Notice need not be continuing on the date the Credit Event Notice is effective.

The Calculation Agent is under no obligation to issue a Credit Event Notice and may send any Credit Event Notice at any time after the occurrence of the Credit Event. In determining whether or not to deliver a Credit Event Notice, or the timing of such delivery, the Calculation Agent is not required to take into account the interests of any person (including any Holder) but can take into account the interests of the Issuer.

Section 1.33. Credit Event Notice after M(M)R Restructuring. Upon the occurrence of an M(M)R Restructuring with respect to a Reference Entity (other than where, following the associated Event Determination Date, the Remaining Credit Position of such Reference Entity is greater than zero) and subject as provided in Section 4.1, no further Event Determination Date, Potential Failure to Pay or Potential Repudiation/Moratorium may occur with respect to such Reference Entity.

The following provisions shall apply to Reference Entities in respect of which an Event Determination Date relating only to an M(M)R Restructuring has occurred:

The Calculation Agent may deliver multiple Credit Event Notices with respect to a Reference Entity that has been subject to an Event Determination Date relating only to an M(M)R Restructuring, each such Credit Event Notice that relates only to an M(M)R Restructuring specifying the relevant portion of the Credit Position of the Reference Entity to which such Credit Event Notice applies (the "**Exercise Amount**"). Where the Credit Event Notice does not specify an Exercise Amount, the entire Credit Position (or, as the case may be, Remaining Credit Position (as defined below)) will be deemed to have been specified as the Exercise Amount. Such Reference Entity shall be treated as a separate Defaulted Credit in respect of each relevant Exercise Amount and all provisions related to the calculation of principal and interest payable under the Securities shall be construed accordingly.

Notwithstanding the provisions of the Conditions:

- (i) where the Securities provide that following the occurrence of an Event Determination Date (and satisfaction of any conditions related thereto) the Final Redemption Amount shall become due, the Final Redemption Amount shall not become due following the occurrence of an Event Determination Date relating only to an M(M)R Restructuring except for in respect of any Exercise Amount(s) specified; and
- (ii) once a Credit Event Notice relating only to an M(M)R Restructuring has been given, any determination relating to any change or potential change in the amount(s) or timing(s) of interest and/or principal payable in respect of the Securities, in relation to any Credit Event for which any Exercise Amount has been specified, shall only be in respect of any relevant Exercise Amount(s) specified as of the relevant date of determination, and otherwise shall be in respect of the entire Remaining Credit Position. For any Defaulted Credit in respect of which an Exercise Amount was not specified as of the relevant date of determination of such Defaulted Credit, after any relevant Exercise Amount is specified, the Remaining Credit Position shall be reduced accordingly and the provisions otherwise applicable in respect of such

Defaulted Credit shall continue to apply to the extent of any Remaining Credit Position following such reduction.

Save as provided above, all references in the Conditions to the "Credit Position", insofar as it relates to a Reference Entity in respect of which an Event Determination Date relating only to an M(M)R Restructuring has occurred, shall be deemed to be references to the Remaining Credit Position of such Reference Entity except for calculation of the Final Price attributable to the relevant Exercise Amount where references to "Credit Position" shall be to such Exercise Amount. As used herein, "**Remaining Credit Position**" means, in respect of each Reference Entity in respect of which M(M)R Restructuring is specified as being applicable, at any time, the initial Credit Position of such Reference Entity, less the aggregate of all Exercise Amounts (if any) in respect of such Reference Entity. For all the purposes hereof, insofar as the Remaining Credit Position of any Reference Entity in respect of which M(M)R Restructuring is specified as being applicable is, at any time, greater than zero, such Reference Entity shall be treated as a non-Defaulted Credit.

- (a) "**Publicly Available Information**" means information that in the sole and absolute discretion of the Calculation Agent reasonably confirms any of the facts relevant to the determination that the Credit Event or Potential Repudiation/Moratorium, as applicable, described in a Credit Event Notice or Repudiation/Moratorium Extension Notice have occurred and which:

- (b) In relation to any information of the type described in Sections 1.35(a)(ii) or (iii), the party receiving such information may assume that such information has been disclosed to it without violating any law, agreement, understanding or other restriction regarding the confidentiality of such information and that the party delivering such information has not taken any action or entered into any agreement or understanding with the Reference Entity or any Affiliate of the Reference Entity that would be breached by, or would prevent, the disclosure of such information to the party receiving such information.
- (c) Without limitation, Publicly Available Information need not state (i) in relation to Section 3.28 (*Downstream Affiliate*), the percentage of Voting Shares owned by the Reference Entity and (ii) that the relevant occurrence (A) has met the Payment Requirement or Default Requirement, (B) is the result of exceeding any applicable Grace Period, or (C) has met the subjective criteria specified in certain Credit Events.

If the notice is delivered by telephone, a written confirmation of such notice will be executed and delivered confirming the substance of such notice within one Calculation Agent City Business Day of such notice. Failure to provide that written confirmation shall not affect the effectiveness of a notice given by telephone.

- (c) if, as of the date as of which an Obligation is issued or incurred, no grace period with respect to payments or a grace period with respect to payments of less than three Grace Period Business Days is applicable under the terms of such Obligation, a Grace Period of three Grace Period Business Days shall be deemed to apply to such Obligation; provided that, unless the Reference Entity is one in respect of which "Grace Period Extension" is specified as applicable in the Standard and Potential Failure to Pay applies, such deemed Grace Period shall expire no later than the Credit Observation End Date; and
- (d) if the terms of the relevant Obligation are not publicly available such that the length of any grace period, conditions precedent to the commencement of any such grace period or whether any such conditions are satisfied cannot be established, it shall be deemed that the Grace Period is a period of thirty calendar days from the due date for payment and all conditions precedent to the commencement thereof were satisfied on such due date.

Section 1.49. Provisions Relating to Timing. Subject to Sections 1.38 (Requirements Regarding Notices) and 1.50 (Payment Timing), in order to determine the day on which an event occurs for purposes of this Credit Annex, the demarcation of days shall be made by reference to Greenwich Mean Time (or, if the Transaction Type of the Reference Entity relates to Japan, Tokyo time), irrespective of the time zone in which such event occurred. Any event occurring at midnight shall be deemed to have occurred immediately prior to midnight.

Section 1.50. Payment Timing. Notwithstanding Sections 1.32 (*Credit Event Notice*) and 1.49 (*Provisions Relating to Timing*), if a payment is not made by the Reference Entity on its due date or, as the case may be, on the final day of the relevant Grace Period, then such failure to make a payment shall be deemed to have occurred on such day prior to midnight Greenwich Mean Time (or, if the Transaction Type of the Reference Entity relates to Japan, Tokyo time), irrespective of the time zone of its place of payment.

ARTICLE II

TERMS RELATING TO THE REFERENCE ENTITY AND THE REFERENCE OBLIGATION

Section 2.1. Reference Entity. "Reference Entity" means each of the entities specified in or determined in accordance with the Pricing Supplement and any Successors.

Section 2.2. Provisions for Determining a Successor.

- (a) "Successor" means, subject to Section 2.2(c), the entity or entities, if any, determined as follows:
- (i) subject to Section 2.2(a)(vii), if one entity succeeds, either directly or as a provider of a Relevant Guarantee, to seventy-five per cent or more of the Relevant Obligations of the Reference Entity, that entity will be the sole Successor;
 - (ii) if only one entity succeeds, either directly or as a provider of a Relevant Guarantee, to more than twenty-five per cent (but less than seventy-five per cent) of the Relevant Obligations of the Reference Entity, and not more than twenty-five per cent of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entity that succeeds to more than twenty-five per cent of the Relevant Obligations will be the sole Successor;
 - (iii) if more than one entity each succeeds, either directly or as a provider of a Relevant Guarantee, to more than twenty-five per cent of the Relevant Obligations of the Reference Entity, and not more than twenty-five per cent of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entities that succeed to more than twenty-five per cent of the Relevant Obligations will each be a Successor and the Credit Position will be divided and the terms of the Securities will be amended in accordance with Section 2.2(n);
 - (iv) if one or more entities each succeeds, either directly or as a provider of a Relevant Guarantee, to more than twenty-five per cent of the Relevant Obligations of the Reference Entity, and more than twenty-five per cent of the Relevant Obligations of the Reference Entity remain with the Reference Entity, each such entity and the Reference Entity will each be a Successor and the Credit Position will be divided and the terms of the Securities will be amended in accordance with Section 2.2(n);
 - (v) if one or more entities succeed, either directly or as a provider of a Relevant Guarantee, to a portion of the Relevant Obligations of the Reference Entity, but no entity succeeds to more than twenty-five per cent of the Relevant Obligations of the Reference Entity and the Reference Entity continues to exist, there will be no Successor and the Reference Entity and the Credit Position will not be changed in any way as a result of such succession;
 - (vi) (vi) if one or more entities succeed, either directly or as a provider of a Relevant Guarantee, to a portion of the Relevant Obligations of the Reference Entity, but no entity succeeds to more than twenty-five per cent of the Relevant Obligations of the Reference Entity and the Reference Entity ceases to exist, the entity which succeeds to the greatest percentage of Relevant Obligations will be the Successor (provided that if two or more entities succeed to an equal percentage of Relevant Obligations, each such entity will be a Successor and the Credit Position will be divided and the terms of the Securities will be amended in accordance with Section 2.2(n)); and
 - (vii) in respect of a Reference Entity which is not a Sovereign, if one entity assumes all of the obligations (including at least one Relevant Obligation) of the Reference Entity, and at the time of the determination either (A) the Reference Entity has ceased to exist, or (B) the Reference Entity is in the process of being dissolved (howsoever described) and the Reference Entity has not issued or incurred any Borrowed Money obligation at any time since the legally effective date of the assumption, such entity (the "Universal Successor") will be the sole Successor.
- (b) The Calculation Agent will be responsible for determining, as soon as reasonably practicable after delivery of a Successor Notice and with effect from the Succession Date, any Successor or Successors under Section 2.2(a); provided that the Calculation Agent will not make such determination if, at the time of determination, the DC Secretary has publicly announced that the relevant Credit Derivatives

Determinations Committee has Resolved that there is no Successor based on the relevant succession to Relevant Obligations.

If the DC Secretary publicly announces, on or following the Trade Date, that the relevant Credit Derivatives Determinations Committee has Resolved that one or more Successors exist with respect to a Reference Entity, each such successor entity will be treated as a Successor for purposes of Section 2.2(n).

The Calculation Agent will make all calculations and determinations required to be made under Section 2.2 on the basis of Eligible Information.

In calculating the percentages used to determine whether an entity qualifies as a Successor under Section 2.2(a), if there is a Steps Plan, the Calculation Agent shall consider all related successions in respect of such Steps Plan in aggregate as if forming part of a single succession.

- (c) An entity may only be a Successor if:
- (i) either (A) the related Succession Date occurs on or after the Successor Backstop Date, or (B) such entity is a Universal Successor in respect of which the Succession Date occurred on or after January 1, 2014;
 - (ii) the Reference Entity had at least one Relevant Obligation outstanding immediately prior to the Succession Date and such entity succeeds to all or part of at least one Relevant Obligation of the Reference Entity; and
 - (iii) where the Reference Entity is a Sovereign, such entity succeeded to the Relevant Obligations by way of a Sovereign Succession Event.
- (d) For purposes of Section 2.2, "**succeed**" means, with respect to the Reference Entity and its Relevant Obligations, that an entity other than the Reference Entity (i) assumes or becomes liable for such Relevant Obligations whether by operation of law or pursuant to any agreement (including, with respect to a Reference Entity that is a Sovereign, any protocol, treaty, convention, accord, concord, entente, pact or other agreement), or (ii) issues Bonds or incurs Loans (the "**Exchange Bonds or Loans**") that are exchanged for Relevant Obligations, and in either case the Reference Entity is not thereafter a direct obligor or a provider of a Relevant Guarantee with respect to such Relevant Obligations or such Exchange Bonds or Loans, as applicable. For purposes of Section 2.2, "**succeeded**" and "**succession**" shall be construed accordingly.
- (e) "**Sovereign Succession Event**" means, with respect to a Reference Entity that is a Sovereign, an annexation, unification, secession, partition, dissolution, consolidation, reconstitution or other similar event.
- (f) "**Relevant Obligations**" means the Obligations of the Reference Entity which fall within the Obligation Category "**Bond or Loan**" and which are outstanding immediately prior to the Succession Date (or, if there is a Steps Plan, immediately prior to the legally effective date of the first succession), provided that:
- (i) any Bonds or Loans outstanding between the Reference Entity and any of its Affiliates, or held by the Reference Entity, shall be excluded;
 - (ii) if there is a Steps Plan, the Calculation Agent shall, for purposes of the determination required to be made under Section 2.2(a), make the appropriate adjustments required to take account of any Obligations of the Reference Entity which fall within the Obligation Category "**Bond or Loan**" that are issued, incurred, redeemed, repurchased or cancelled from and including the legally effective date of the first succession to and including the Succession Date;
 - (iii) if "**Financial Reference Entity Terms**" is specified as applicable with respect to the relevant Reference Entity in the Standard, and the associated Credit Position is a Senior Credit Position, then the Relevant Obligations shall only include the Senior Obligations of the Reference Entity which fall within the Obligation Category "**Bond or Loan**"; and

- (iv) if "**Financial Reference Entity Terms**" is specified as applicable with respect to the relevant Reference Entity in the Standard, and the associated Credit Position is a Subordinated Credit Position, then the Relevant Obligations shall exclude Senior Obligations and any Further Subordinated Obligations of the Reference Entity which fall within the Obligation Category "**Bond or Loan**", provided that if no such Relevant Obligations exist, "**Relevant Obligations**" shall have the same meaning as it would if the Credit Position were a Senior Credit Position.
- (g) In the case of an exchange offer, the determination required pursuant to Section 2.2(a) shall be made on the basis of the outstanding principal balance of Relevant Obligations exchanged and not on the basis of the outstanding principal balance of the Exchange Bonds or Loans.
- (h) If two or more entities (each, a "**Joint Potential Successor**") jointly succeed to a Relevant Obligation (the "**Joint Relevant Obligation**") either directly or as a provider of a Relevant Guarantee, then (i) if the Joint Relevant Obligation was a direct obligation of the Reference Entity, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as direct obligor or obligors, or (ii) if the Joint Relevant Obligation was a Relevant Guarantee, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as guarantor or guarantors, if any, or otherwise by each Joint Potential Successor in equal parts.
- (i) "**Steps Plan**" means a plan evidenced by Eligible Information contemplating that there will be a series of successions to some or all of the Relevant Obligations of the Reference Entity, by one or more entities.
- (j) "**Succession Date**" means the legally effective date of an event in which one or more entities succeed to some or all of the Relevant Obligations of the Reference Entity; provided that if at such time, there is a Steps Plan, the Succession Date will be the legally effective date of the final succession in respect of such Steps Plan, or if earlier (i) the date on which a determination pursuant to Section 2.2(a) would not be affected by any further related successions in respect of such Steps Plan, or (ii) the occurrence of an Event Determination Date in respect of the Reference Entity or any entity which would constitute a Successor.
- (k) "**Successor Backstop Date**" means for purposes of any Successor determination determined by DC Resolution, the date that is ninety calendar days prior to the Successor Resolution Request Date otherwise, the date that is ninety calendar days prior to the earlier of (i) the date on which the Successor Notice is effective and (ii) in circumstances where (A) a Successor Resolution Request Date has occurred, (B) the relevant Credit Derivatives Determinations Committee has Resolved not to make a Successor determination and (C) the Successor Notice is delivered by the Calculation Agent to the Issuer not more than fourteen calendar days after the day on which the DC Secretary publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved not to make a Successor determination, the Successor Resolution Request Date. The Successor Backstop Date shall not be subject to adjustment in accordance with any Business Day Convention.
- (l) "**Successor Resolution Request Date**" means, with respect to a notice to the DC Secretary requesting that a Credit Derivatives Determinations Committee be convened to Resolve one or more Successors to the Reference Entity, the date, as publicly announced by the DC Secretary, that the relevant Credit Derivatives Determinations Committee Resolves to be the date on which such notice is effective.
- (m) "**Successor Notice**" means an irrevocable notice from the Calculation Agent to the Issuer that describes a succession (or, in relation to a Reference Entity that is a Sovereign, a Sovereign Succession Event) in respect of which a Succession Date has occurred and pursuant to which one or more Successors to the Reference Entity can be determined.
- (n) Where, pursuant to Section 2.2(a)(iii), (iv) or (vi), more than one Successor has been identified, the following terms will apply from the Succession Date in respect of the Securities:
- (i) each Successor will be the Reference Entity for the purposes of the Conditions;
- (ii) the Credit Position of each such Successor shall be equal to the Credit Position of the Reference Entity to which that Successor relates, divided by the number of Successors (including that Original Reference Entity if applicable) to that Reference Entity, provided that if any Successor

was a Reference Entity immediately prior to the relevant succession, the Credit Position determined in accordance with the previous sentence shall be added to the existing Credit Position of that Reference Entity; and

- (iii) if the Securities are linked to a single Reference Entity and there is more than one Successor to that Reference Entity:
 - (A) The Securities will not redeem in whole following the occurrence of an Event Determination Date in respect of a Successor but an Instalment Amount shall be payable following each occurrence of an Event Determination Date in respect of any such Successor which shall be calculated in the same way as the Final Redemption Amount payable following the occurrence of an Event Determination Date in respect of the Original Reference Entity except that the Credit Position shall be the Credit Position of the relevant Successor. The Instalment Date for any such Instalment Amount shall be determined in accordance with the provisions for determining the Maturity Date following an Event Determination Date. In addition, if no Event Determination Date occurs with respect to one or more Successors, unless otherwise specified in the Pricing Supplement, an Instalment Amount will be due in respect of each such Successor on the Scheduled Maturity Date or, if the Maturity Date is postponed beyond the Scheduled Maturity Date (assuming for this purpose that the provisions in the definition of "Maturity Date" referring to the Reference Entity instead refer to the Successor), the Maturity Date, equivalent to the Credit Position of the relevant Successor. More than one Instalment Amount may be payable on the same day in respect of different Successors.
 - (B) The amount of interest accruing and payable in respect of the Securities will be reduced with effect from the date on which it would have been reduced upon the occurrence of an Event Determination Date in respect of the Original Reference Entity but the balance on which interest is calculated shall only be reduced by the Credit Position of the Successor in respect of which the relevant Event Determination Date occurred.
 - (C) Subject as provided in Section 4.1, more than one Event Determination Date may occur but not more than one Event Determination Date may occur with respect to a single Successor.
- (iv) Upon the identification of more than one Successor, the Calculation Agent may, where it determines it necessary, revise the Conditions to reflect the above provisions and preserve as far as possible the economic effects of the original Securities and the Issuer will cause such revised Conditions to be substituted for the original Conditions and such revised Conditions shall, in the absence of manifest error, be binding on the Issuer, the Holders and the Agents.
- (o) **Merger between Reference Entity and Issuer or Guarantor.** If the Calculation Agent determines that at any time during the period from (and including) the Trade Date to (but excluding) the Credit Observation End Date:
 - (i) the Issuer or a Reference Entity consolidates or amalgamates with, or merges into, or transfers all or substantially all of its assets to, a Reference Entity or the Issuer or the Guarantor, as applicable; or
 - (ii) the Issuer or the Guarantor (as applicable) and the Reference Entity become affiliates,

then, in each case, the Calculation Agent may (in its sole and absolute discretion but shall not be obliged to) notify the Holders in accordance with Condition 25 that each Security (of the Specified Denomination) shall be redeemed by the Issuer at the Early Payment Amount on the third Business Day following the date of such notice.

- (a) "Standard Reference Obligation" is specified as not applicable in the Pricing Supplement, in respect of the relevant Reference Entity in which case the Reference Obligation will be the Non-Standard Reference Obligation, if any; or
- (b) (i) "Standard Reference Obligation" is specified as applicable in the Pricing Supplement (or no election is specified), (ii) there is no Standard Reference Obligation, and (iii) a Non-Standard Reference Obligation is specified in the Pricing Supplement, in which case the Reference Obligation will be (A) the Non-Standard Reference Obligation to but excluding the first date of publication of the Standard Reference Obligation and (B) the Standard Reference Obligation from such date onwards, provided that the Standard Reference Obligation that is published would have been eligible to be selected as a Substitute Reference Obligation.

Section 2.7. Non-Standard Reference Obligation. "Non-Standard Reference Obligation" means the Original Non-Standard Reference Obligation or if a Substitute Reference Obligation has been determined, the Substitute Reference Obligation.

Section 2.8. Original Non-Standard Reference Obligation. "Original Non-Standard Reference Obligation" means the obligation of the Reference Entity (either directly or as provider of a guarantee) which is specified as the Reference Obligation in the Pricing Supplement (if any is so specified) provided that if an obligation is not an obligation of the Reference Entity, such obligation will not constitute a valid Original Non-Standard Reference Obligation (other than for the purposes of determining the Seniority Level and for the "Not Subordinated" Obligation Characteristic or "Not Subordinated" Valuation Obligation Characteristic) unless the intention to amend or override this provision is expressed, in writing, in the relevant Pricing Supplement by referring directly to Section 2.8.

Section 2.9. No Standard Reference Obligation. If the Standard Reference Obligation is removed from the SRO List, such obligation shall cease to be the Reference Obligation (other than for purposes of the "Not Subordinated" Obligation Characteristic or "Not Subordinated" Valuation Obligation Characteristic) and there shall be no Reference Obligation unless and until such obligation is subsequently replaced on the SRO List, in which case, the new Standard Reference Obligation in respect of the Reference Entity shall constitute the Reference Obligation.

Section 2.10. Substitute Reference Obligation. "Substitute Reference Obligation" means, with respect to a Non-Standard Reference Obligation to which a Substitution Event has occurred, the obligation that will replace the Non-Standard Reference Obligation, determined by the Calculation Agent as follows:

- (a) The Calculation Agent shall (in its sole and absolute discretion) identify the Substitute Reference Obligation in accordance with Sections 2.10(c), (d) and (e) to replace the Non-Standard Reference Obligation; provided that the Calculation Agent will not identify an obligation as the Substitute Reference Obligation if, at the time of the determination, such obligation has already been rejected as the Substitute Reference Obligation by the relevant Credit Derivatives Determinations Committee and such obligation has not changed materially since the date of the relevant DC Resolution.
- (b) If any of the events set forth under Sections 2.11(a)(i) or (iii) (*Substitution Event*) have occurred with respect to the Non-Standard Reference Obligation, the Non-Standard Reference Obligation will cease to be the Reference Obligation (other than for purposes of the "Not Subordinated" Obligation Characteristic or "Not Subordinated" Valuation Obligation Characteristic and Section 2.10(c)(ii)). If the event set forth in Section 2.11(a)(ii) (*Substitution Event*) has occurred with respect to the Non-Standard Reference Obligation and no Substitute Reference Obligation is available, the Non-Standard Reference Obligation will continue to be the Reference Obligation until the Substitute Reference Obligation is identified or, if earlier, until any of the events set forth under Sections 2.11(a)(i) or (a)(iii) (*Substitution Event*) occur with respect to such Non-Standard Reference Obligation.
- (c) The Substitute Reference Obligation shall be an obligation that on the Substitution Date:

- (i) is a Borrowed Money obligation of the Reference Entity (either directly or as provider of a guarantee);
- (ii) satisfies the "Not Subordinated" Valuation Obligation Characteristic as of the date it was issued or incurred (without reflecting any change to the priority of payment after such date) and on the Substitution Date; and
- (iii)
 - (A) if the Non-Standard Reference Obligation was a Conforming Reference Obligation when issued or incurred and immediately prior to the Substitution Event Date:
 - (I) is a Valuation Obligation (other than a Loan) determined in accordance with Section 3.2(a) (*Valuation Obligation*); or if no such obligation is available,
 - (II) is a Loan (other than a Private-side Loan) which constitutes a Valuation Obligation determined in accordance with Section 3.2(a) (*Valuation Obligation*);
 - (B) if the Non-Standard Reference Obligation was a Bond (or any other Borrowed Money obligation other than a Loan) which was a Non-Conforming Reference Obligation when issued or incurred and/or immediately prior to the Substitution Event Date:
 - (I) is a Non-Conforming Substitute Reference Obligation (other than a Loan); or if no such obligation is available,
 - (II) is a Valuation Obligation (other than a Loan) determined in accordance with Section 3.2(a) (*Valuation Obligation*); or if no such obligation is available,
 - (III) is a Non-Conforming Substitute Reference Obligation which is a Loan (other than a Private-side Loan); or if no such obligation is available,
 - (IV) is a Loan (other than a Private-side Loan) which constitutes a Valuation Obligation determined in accordance with Section 3.2(a) (*Valuation Obligation*); or
 - (C) if the Non-Standard Reference Obligation was a Loan which was a Non-Conforming Reference Obligation when incurred and/or immediately prior to the Substitution Event Date:
 - (I) is a Non-Conforming Substitute Reference Obligation which is a Loan (other than a Private-side Loan); or if no such obligation is available,
 - (II) is a Non-Conforming Substitute Reference Obligation (other than a Loan); or if no such obligation is available,
 - (III) is a Valuation Obligation (other than a Loan) determined in accordance with Section 3.2(a) (*Valuation Obligation*); or if no such obligation is available,
 - (IV) is a Loan (other than a Private-side Loan) which constitutes a Valuation Obligation determined in accordance with Section 3.2(a) (*Valuation Obligation*).
- (d) If more than one potential Substitute Reference Obligation is identified pursuant to the process described in Section 2.10(c), the Substitute Reference Obligation will be the potential Substitute Reference Obligation that most closely preserves the economic equivalent of the delivery and payment obligations under the Securities, as determined by the Calculation Agent (in its sole and absolute discretion).
- (e) If a Substitution Event has occurred with respect to the Non-Standard Reference Obligation and the Calculation Agent determines (in its sole and absolute discretion) that no Substitute Reference Obligation is available for the Non-Standard Reference Obligation, then, subject to Section 2.10(a) and notwithstanding the fact that the Non-Standard Reference Obligation may have ceased to be the Reference Obligation in accordance with Section 2.10(b), the Calculation Agent shall continue to attempt to identify the Substitute Reference Obligation.

Section 2.11. Substitution Event.

- (a) "Substitution Event" means, with respect to the Non-Standard Reference Obligation:
- (i) the Non-Standard Reference Obligation is redeemed in whole;
 - (ii) the aggregate amounts due under the Non-Standard Reference Obligation have been reduced by redemption or otherwise below USD 10,000,000 (or its equivalent in the relevant Obligation Currency, as determined by the Calculation Agent); or
 - (iii) for any reason, other than due to the existence or occurrence of a Credit Event, the Non-Standard Reference Obligation is no longer an obligation of the Reference Entity (either directly or as provider of a guarantee).
- (b) For purposes of identification of the Non-Standard Reference Obligation, any change in the Non-Standard Reference Obligation's CUSIP or ISIN number or other similar identifier will not, in and of itself, constitute a Substitution Event.
- (c) If an event described in Sections 2.11(a)(i) or (ii) has occurred on or prior to the Trade Date, then a Substitution Event shall be deemed to have occurred pursuant to Sections 2.11(a)(i) or (ii), as the case may be, on the Trade Date.

"Package Observable Bond" means, in respect of a Reference Entity which is a Sovereign, any obligation (a) which is identified as such and published by ISDA on its website at www.isda.org from time to time (or any successor website thereto) or by a third party designated by ISDA on its website from time to time and (b) which fell within the definition of Valuation Obligation set out in Section 3.2(a) or (b) (*Valuation Obligation*), in each case, immediately preceding the date on which the relevant Asset Package Credit Event was legally effective.

Section 3.5. Sovereign Restructured Valuation Obligation. "Sovereign Restructured Valuation Obligation" means an Obligation of a Reference Entity which is a Sovereign (either directly or as provider of a Relevant Guarantee) (a) in respect of which a Restructuring that is the subject of the Credit Event Notice or DC Credit Event Announcement has occurred and (b) which fell within the definition of a Valuation Obligation set

out in Section 3.2(a) (*Valuation Obligation*) immediately preceding the date on which such Restructuring is legally effective in accordance with the terms of the documentation governing such Restructuring.

Section 3.6. Excluded Obligation. "Excluded Obligation" means, with respect to a Reference Entity:

- (a) any obligation of the Reference Entity specified as such or of a type described in the Pricing Supplement;
- (b) if "**Financial Reference Entity Terms**" is specified as applicable with respect to the relevant Reference Entity in the Standard and the associated Credit Position is a Senior Credit Position, then for purposes of determining whether a Governmental Intervention or Restructuring has occurred, any Subordinated Obligation; and

- (a) The "**Outstanding Principal Balance**" of an obligation will be calculated as follows:
 - (i) first, by determining, in respect of the obligation, the amount of the Reference Entity's principal payment obligations and, where applicable in accordance with Section 3.12 (*Accrued Interest*), the Reference Entity's accrued but unpaid interest payment obligations (which, in the case of a Guarantee will be the lower of (A) the Outstanding Principal Balance (including accrued but unpaid interest, where applicable) of the Underlying Obligation (determined as if references to the Reference Entity were references to the Underlying Obligor) and (B) the amount of the Fixed Cap, if any);
 - (ii) second, by subtracting all or any portion of such amount which, pursuant to the terms of the obligation, (A) is subject to any Prohibited Action, or (B) may otherwise be reduced as a result of the effluxion of time or the occurrence or non-occurrence of an event or circumstance (other than by way of (I) payment or (II) a Permitted Contingency) (the amount determined in Section 3.8(a)(i) less any amounts subtracted in accordance with Section 3.8(a)(ii), the "**Non-Contingent Amount**"); and
 - (iii) third, by determining the Quantum of the Claim, which shall then constitute the Outstanding Principal Balance, in each case, determined:
 - (A) unless otherwise specified, in accordance with the terms of the obligation in effect on the Valuation Date; and
 - (B) with respect to the Quantum of the Claim only, in accordance with any applicable laws (insofar as such laws reduce or discount the size of the claim to reflect the original issue price or accrued value of the obligation).
- (b) "**Quantum of the Claim**" means the lowest amount of the claim which could be validly asserted against the Reference Entity in respect of the Non-Contingent Amount if the obligation had become redeemable, been accelerated, terminated or had otherwise become due and payable at the time of the

relevant determination, provided that the Quantum of the Claim cannot exceed the Non-Contingent Amount.

Section 3.9. Due and Payable Amount. "**Due and Payable Amount**" means the amount that is due and payable by the Reference Entity under the obligation whether by reason of maturity, acceleration, termination or otherwise (excluding sums in respect of default interest, indemnities, tax gross-ups and other similar amounts) less all or any portion of such amount which, pursuant to the terms of the obligation (a) is subject to any Prohibited Action, or (b) may otherwise be reduced as a result of the effluxion of time or the occurrence or non-occurrence of an event or circumstance (other than by way of (i) payment or (ii) a Permitted Contingency), in each case, determined in accordance with the terms of the obligation in effect on the Valuation Date.

Section 3.10. Prohibited Action. "**Prohibited Action**" means any counterclaim, defense (other than a counterclaim or defense based on the factors set forth in Section 4.1(a) to (d) (*Credit Event*)) or right of set-off by or of the Reference Entity or any applicable Underlying Obligor.

 - (ii) provisions implementing the Subordination of the obligation;
 - (iii) provisions allowing for a Permitted Transfer in the case of a Qualifying Guarantee (or provisions allowing for the release of the Reference Entity from its payment obligations in the case of any other Guarantee);
 - (iv) any Solvency Capital Provisions, if "**Subordinated European Insurance Terms**" is specified as applicable in the Standard; or
 - (v) provisions which permit the Reference Entity's obligations to be altered, discharged, released or suspended in circumstances which would constitute a Governmental Intervention, if "**Financial Reference Entity Terms**" is specified as applicable in the Standard; or
- (b) which is within the control of the holders of the obligation or a third party acting on their behalf (such as an agent or trustee) in exercising their rights under or in respect of such obligation.

Section 3.12. Accrued Interest. Where "Cash Settlement" is specified to be the Settlement Method (or if Cash Settlement is applicable as the Fallback Settlement Method in accordance with Section 6.1 (*Auction Settlement*)), Exclude Accrued Interest shall, unless otherwise specified in the Pricing Supplement, be applicable.

"**Exclude Accrued Interest**" means that the Outstanding Principal Balance of the Valuation Obligation shall not include accrued but unpaid interest.

Section 3.13. Method for Determining Obligations. For purposes of Section 3.1(a) (*Obligation*), the term "Obligation" may be defined as each obligation of the Reference Entity described by the Obligation Category specified as being applicable in the Standard and having each of the Obligation Characteristics, if any, specified in the Standard, in each case, immediately prior to the Credit Event which is the subject of either the Credit Event Notice or the DC Credit Event Question resulting in the occurrence of the Credit Event Resolution Request Date, as applicable. The following terms shall have the following meanings:

- (a) "**Obligation Category**" means Payment, Borrowed Money, Bond, Loan, or Bond or Loan, only one of which shall be specified in the Standard, and:

 - (iv) "**Bond**" means any obligation of a type included in the "Borrowed Money" Obligation Category that is in the form of, or represented by, a bond, note (other than notes delivered pursuant to Loans), certificated debt security or other debt security and shall not include any other type of Borrowed Money;

- (i) (A) "**Not Subordinated**" means an obligation that is not Subordinated to (I) the Reference Obligation or (II) the Prior Reference Obligation, if applicable;
 - (B) "**Subordination**" means, with respect to an obligation (the "**Second Obligation**") and another obligation of the Reference Entity to which such obligation is being compared (the "**First Obligation**"), a contractual, trust or similar arrangement providing that (I) upon the liquidation, dissolution, reorganization or winding-up of the Reference Entity, claims of the holders of the First Obligation are required to be satisfied prior to the claims of the holders of the Second Obligation, or (II) the holders of the Second Obligation will not be entitled to receive or retain principal payments in respect of their claims against the Reference Entity at any time that the Reference Entity is in payment arrears or is otherwise in default under the First Obligation. "**Subordinated**" will be construed accordingly. For purposes of determining whether Subordination exists or whether an obligation is Subordinated with respect to another obligation to which it is being compared, (x) the existence of preferred creditors arising by operation of law or of collateral, credit support or other credit enhancement or security arrangements shall not be taken into account, except that, notwithstanding the foregoing, priorities arising by operation of law shall be taken into account where the Reference Entity is a Sovereign and (y) in the case of the Reference Obligation or the Prior Reference Obligation, as applicable, the ranking in priority of payment shall be determined as of the date as of which it was issued or incurred (or in circumstances where the Reference Obligation or a Prior Reference Obligation is the Standard Reference Obligation and "Standard Reference Obligation" is applicable, then the priority of payment of the Reference Obligation or the Prior Reference Obligation, as applicable, shall be determined as of the date of selection) and, in each case, shall not reflect any change to such ranking in priority of payment after such date; and
 - (C) "**Prior Reference Obligation**" means, in circumstances where no Reference Obligation is applicable to a Reference Entity, (I) the Reference Obligation most recently applicable thereto, if any, and otherwise, (II) the obligation specified in the Pricing Supplement as the Reference Obligation, if any, if such Reference Obligation was redeemed on or prior to the Trade Date and otherwise, (III) any unsubordinated Borrowed Money obligation of the Reference Entity;
- (ii) "**Specified Currency**" means an obligation that is payable in the currency or currencies specified as such in the Pricing Supplement (or if no currency is specified as a "Specified Currency" in the Pricing Supplement, any Standard Specified Currency), provided that if the euro is a Specified Currency, "Specified Currency" shall also include an obligation that was previously payable in the euro, regardless of any redenomination thereafter if such redenomination occurred as a result of action taken by a Governmental Authority of a Member

State of the European Union which is of general application in the jurisdiction of such Governmental Authority;

- (iii) "**Not Sovereign Lender**" means any obligation that is not primarily owed to (A) a Sovereign or (B) any entity or organization established by treaty or other arrangement between two or more Sovereigns including, without limiting the foregoing, the International Monetary Fund, European Central Bank, International Bank for Reconstruction and Development and European Bank for Reconstruction and Development, which shall include, without limitation, obligations generally referred to as "Paris Club debt";
- (iv) "**Not Domestic Currency**" means any obligation that is payable in any currency other than the applicable Domestic Currency, provided that a Standard Specified Currency shall not constitute a Domestic Currency;
- (v) "**Not Domestic Law**" means any obligation that is not governed by the applicable Domestic Law, provided that the laws of England and the laws of the State of New York shall not constitute a Domestic Law;
- (vi) "**Listed**" means an obligation that is quoted, listed or ordinarily purchased and sold on an exchange; and
- (vii) "**Not Domestic Issuance**" means any obligation other than an obligation that was issued (or reissued, as the case may be), or intended to be offered for sale primarily in the domestic market of the Reference Entity. Any obligation that is registered or, as a result of some other action having been taken for such purpose, is qualified for sale outside the domestic market of the Reference Entity (regardless of whether such obligation is also registered or qualified for sale within the domestic market of the Reference Entity) shall be deemed not to be issued (or reissued, as the case may be), or intended to be offered for sale primarily in the domestic market of the Reference Entity.

Section 3.14. Method for Determining Valuation Obligations. For purposes of Section 3.2(a) (*Valuation Obligation*), the term "**Valuation Obligation**" may be defined as each obligation of the Reference Entity described by the Valuation Obligation Category specified as being applicable in the Standard, and, subject to Section 3.15 (*Interpretation of Provisions*), having each of the Valuation Obligation Characteristics, if any, specified as being applicable in the Standard, in each case, as of the Valuation Date (unless otherwise specified). The following terms shall have the following meanings:

 - (ii) "**Consent Required Loan**" means a Loan that is capable of being assigned or novated with the consent of the Reference Entity or the guarantor, if any, of such Loan (or the consent of the relevant borrower if the Reference Entity is guaranteeing such Loan) or any agent;
 - (iii) "**Direct Loan Participation**" means a Loan in respect of which, pursuant to a participation agreement, the Issuer is capable of creating, or procuring the creation of, a contractual right in favour of a notional protection seller that provides such notional seller with recourse to the participation seller for a specified share in any payments due under the relevant Loan which are received by such participation seller, any such agreement to be entered into between (i) such notional seller and (ii) either (A) the Issuer (to the extent the Issuer was then a lender or a member of the relevant lending syndicate), or (B) a Qualifying Participation Seller (if any) (to

the extent such Qualifying Participation Seller is then a lender or a member of the relevant lending syndicate);

- (iv) "**Transferable**" means an obligation that is transferable to institutional investors without any contractual, statutory or regulatory restriction, provided that none of the following shall be considered contractual, statutory or regulatory restrictions:
 - (A) contractual, statutory or regulatory restrictions that provide for eligibility for resale pursuant to Rule 144A or Regulation S promulgated under the United States Securities Act of 1933, as amended (and any contractual, statutory or regulatory restrictions promulgated under the laws of any jurisdiction having a similar effect in relation to the eligibility for resale of an obligation);
 - (B) restrictions on permitted investments such as statutory or regulatory investment restrictions on insurance companies and pension funds; or

- (vii) "**Not Bearer**" means any obligation that is not a bearer instrument unless interests with respect to such bearer instrument are cleared via the Euroclear system, Clearstream International or any other internationally recognized clearing system.

Section 3.15. Interpretation of Provisions.

- (a) If either of the Obligation Characteristics "Listed" or "Not Domestic Issuance" is specified as being applicable in the Standard or the Pricing Supplement, the Securities shall be construed as though the relevant Obligation Characteristic had been specified as an Obligation Characteristic only with respect to Bonds.
- (b) If (i) any of the Valuation Obligation Characteristics "Listed", "Not Domestic Issuance" or "Not Bearer" is specified as being applicable in the Standard or the Pricing Supplement, the Securities shall be construed as though such Valuation Obligation Characteristic had been specified as a Valuation Obligation Characteristic only with respect to Bonds, (ii) the Valuation Obligation Characteristic "Transferable" is specified as being applicable in the Standard or the Pricing Supplement shall be construed as though such Valuation Obligation Characteristic had been specified as a Valuation Obligation Characteristic only with respect to Valuation Obligations that are not Loans, or (iii) any of the Valuation Obligation Characteristics "Assignable Loan", "Consent Required Loan" or "Direct Loan Participation" is specified as being applicable in the Standard or the Pricing Supplement, the Securities shall be construed as though such Valuation Obligation Characteristic had been specified as a Valuation Obligation Characteristic only with respect to Loans.
- (c) If more than one of "Assignable Loan", "Consent Required Loan" and "Direct Loan Participation" are specified as Valuation Obligation Characteristics in the Standard, the Valuation Obligations may include any Loan that satisfies any one of such Valuation Obligation Characteristics specified and need not satisfy all such Valuation Obligation Characteristics.
- (d) If an Obligation or a Valuation Obligation is a Relevant Guarantee, the following will apply:
 - (i) For purposes of the application of the "Obligation Category" or the "Valuation Obligation Category", the Relevant Guarantee shall be deemed to satisfy the same category or categories as those that describe the Underlying Obligation;
 - (ii) For purposes of the application of the Obligation Characteristics or the Valuation Obligation Characteristics, both the Relevant Guarantee and the Underlying Obligation must satisfy on the

relevant date or dates each of the applicable Obligation Characteristics or Valuation Obligation Characteristics, if any, specified in the Standard from the following list: "Not Subordinated", "Specified Currency", "Not Sovereign Lender", "Not Domestic Currency" and "Not Domestic Law";

- (iii) For purposes of the application of the Obligation Characteristics or the Valuation Obligation Characteristics, only the Underlying Obligation must satisfy on the relevant date or dates each of the applicable Obligation Characteristics or Valuation Obligation Characteristics, if any, specified in the Standard from the following list: "Listed", "Not Domestic Issuance", "Assignable Loan", "Consent Required Loan", "Direct Loan Participation", "Transferable", "Maximum Maturity", "Accelerated" or "Matured", and "Not Bearer"; and
- (iv) For purposes of the application of the Obligation Characteristics or the Valuation Obligation Characteristics to an Underlying Obligation, references to the Reference Entity shall be deemed to refer to the Underlying Obligor.
- (e) For purposes of the application of the Valuation Obligation Characteristic "Maximum Maturity", remaining maturity shall be determined on the basis of the terms of the Valuation Obligation in effect at the time of making such determination and, in the case of a Valuation Obligation that is due and payable, the remaining maturity shall be zero.
- (f) If "Financial Reference Entity Terms" and "Governmental Intervention" are specified as being applicable in the Standard, if an obligation would otherwise satisfy a particular Obligation Characteristic or Valuation Obligation Characteristic, the existence of any terms in the relevant obligation in effect at the time of making the determination which permit the Reference Entity's obligations to be altered, discharged, released or suspended in circumstances which would constitute a Governmental Intervention, shall not cause such obligation to fail to satisfy such Obligation Characteristic or Valuation Obligation Characteristic.
- (g) For purposes of determining the applicability of Valuation Obligation Characteristics and the requirements specified in Sections 3.31(a) (*Mod R*) and 3.32(a) (*Mod Mod R*) to a Prior Valuation Obligation or a Package Observable Bond, any such determination shall be made by reference to the terms of the relevant obligation in effect immediately prior to the Asset Package Credit Event.
- (h) If "Subordinated European Insurance Terms" is specified as being applicable in the Standard, if an obligation would otherwise satisfy the "Maximum Maturity" Valuation Obligation Characteristic, the existence of any Solvency Capital Provisions in such obligation shall not cause it to fail to satisfy such Valuation Obligation Characteristic.

"Domestic Currency" means the currency specified as such in the Standard and any successor currency thereto (or if no such currency is specified, the lawful currency and any successor currency of (a) the Reference Entity, if the Reference Entity is a Sovereign, or (b) the jurisdiction in which the Reference Entity is organized, if the Reference Entity is not a Sovereign).

Section 3.18. Domestic Law. "Domestic Law" means each of the laws of (a) the Reference Entity, if such Reference Entity is a Sovereign, or (b) the jurisdiction in which the Reference Entity is organized, if such Reference Entity is not a Sovereign.

Section 3.19. Solvency Capital Provisions. "Solvency Capital Provisions" means any terms in an obligation which permit the Reference Entity's payment obligations thereunder to be deferred, suspended, cancelled, converted, reduced or otherwise varied and which are necessary in order for the obligation to constitute capital resources of a particular tier.

Section 3.20. Qualifying Participation Seller. "Qualifying Participation Seller" means any participation seller that meets the requirements specified in the Standard. If no such requirements are specified, there shall be no Qualifying Participation Seller.

Section 3.21. Qualifying Guarantee. "Qualifying Guarantee" means a guarantee evidenced by a written instrument (which may include a statute or regulation), pursuant to which the Reference Entity irrevocably agrees, undertakes, or is otherwise obliged to pay all amounts of principal and interest (except for amounts which are not covered due to the existence of a Fixed Cap) due under an Underlying Obligation for which the Underlying Obligor is the obligor, by guarantee of payment and not by guarantee of collection (or, in either case, any legal arrangement which is equivalent thereto in form under the relevant governing law).

A Qualifying Guarantee shall not include any guarantee:

- (a) which is structured as a surety bond, financial guarantee insurance policy or letter of credit (or any legal arrangement which is equivalent thereto in form); or
- (b) pursuant to the terms applicable thereto, the principal payment obligations of the Reference Entity can be discharged, released, reduced, assigned or otherwise altered as a result of the occurrence or non-occurrence of an event or circumstance, in each case, other than:
 - (i) by payment;
 - (ii) by way of Permitted Transfer;
 - (iii) by operation of law;
 - (iv) due to the existence of a Fixed Cap; or
 - (v) due to:
 - (A) provisions permitting or anticipating a Governmental Intervention, if "Financial Reference Entity Terms" is specified as applicable in the Standard; or
 - (B) any Solvency Capital Provisions, if "Subordinated European Insurance Terms" is specified as applicable in the Standard.

If the guarantee or Underlying Obligation contains provisions relating to the discharge, release, reduction, assignment or other alteration of the principal payment obligations of the Reference Entity and such provisions have ceased to apply or are suspended at the time of the relevant determination, in accordance with the terms of such guarantee or Underlying Obligation, due to or following the occurrence of (I) a non-payment in respect of the guarantee or the Underlying Obligation, or (II) an event of the type described in Section 4.2 (*Bankruptcy*) in respect of the Reference Entity or the Underlying Obligor, then it shall be deemed for these purposes that such cessation or suspension is permanent, notwithstanding the terms of the guarantee or Underlying Obligation.

In order for a guarantee to constitute a Qualifying Guarantee:

- (c) the benefit of such guarantee must be capable of being delivered together with the delivery of the Underlying Obligation; and
- (d) if a guarantee contains a Fixed Cap, all claims to any amounts which are subject to such Fixed Cap must be capable of being delivered together with the delivery of such guarantee.

Section 3.25. Permitted Transfer. "Permitted Transfer" means, with respect to a Qualifying Guarantee, a transfer to and the assumption by any single transferee of such Qualifying Guarantee (including by way of cancellation and execution of a new guarantee) on the same or substantially the same terms, in circumstances

where there is also a transfer of all (or substantially all) of the assets of the Reference Entity to the same single transferee.

Section 3.26. Fixed Cap. "**Fixed Cap**" means, with respect to a Guarantee, a specified numerical limit or cap on the liability of the Reference Entity in respect of some or all payments due under the Underlying Obligation, provided that a Fixed Cap shall exclude a limit or cap determined by reference to a formula with one or more variable inputs (and for these purposes, the outstanding principal or other amounts payable pursuant to the Underlying Obligation shall not be considered to be variable inputs).

Section 3.28. Downstream Affiliate. "**Downstream Affiliate**" means an entity whose outstanding Voting Shares were, at the date of issuance of the Qualifying Guarantee, more than fifty per cent. owned, directly or indirectly, by the Reference Entity.

- (b) "**Fully Transferable Obligation**" means a Valuation Obligation that is either Transferable, in the case of Bonds, or capable of being assigned or novated to all Eligible Transferees without the consent of any person being required, in the case of any Valuation Obligation other than Bonds, in each case, as of the Valuation Date. Any requirement that notification of novation, assignment or transfer of a Valuation Obligation be provided to a trustee, fiscal agent, administrative agent, clearing agent or paying agent for a Valuation Obligation shall not be considered to be a requirement for consent for purposes of Section 3.31.
- (c) "**Restructuring Maturity Limitation Date**" means, with respect to a Valuation Obligation, the Limitation Date occurring on or immediately following the Credit Observation End Date. Notwithstanding the foregoing, if the final maturity date of the Restructured Bond or Loan with the latest final maturity date of any Restructured Bond or Loan occurs prior to the 2.5-year Limitation Date (such Restructured Bond or Loan, a "**Latest Maturity Restructured Bond or Loan**") and the Credit Observation End Date occurs prior to the final maturity date of such Latest Maturity Restructured Bond or Loan, then the Restructuring Maturity Limitation Date will be the final maturity date of such Latest Maturity Restructured Bond or Loan.

Notwithstanding the foregoing, for purposes of Section 3.32(a), in the case of a Restructured Bond or Loan with a final maturity date on or prior to the 10-year Limitation Date, the final maturity date of such Bond or Loan shall be deemed to be the earlier of such final maturity date or the final maturity date of such Bond or Loan immediately prior to the relevant Restructuring.
- (b) "**Conditionally Transferable Obligation**" means a Valuation Obligation that is either Transferable, in the case of Bonds, or capable of being assigned or novated to all Modified Eligible Transferees without the consent of any person being required, in the case of any Valuation Obligation other than Bonds, in each case, as of the Valuation Date, provided, however, that a Valuation Obligation other than Bonds will be a Conditionally Transferable Obligation notwithstanding that consent of the Reference Entity or the guarantor, if any, of a Valuation Obligation other than Bonds (or the consent of the relevant obligor if the Reference Entity is guaranteeing such Valuation Obligation) or any agent is required for such novation, assignment or transfer so long as the terms of such Valuation Obligation provide that such consent may not be unreasonably withheld or delayed. Any requirement that notification of novation, assignment or transfer of a Valuation Obligation be provided to a trustee, fiscal agent, administrative agent, clearing agent or paying agent for a Valuation Obligation shall not be considered to be a requirement for consent for purposes of Section 3.32(b).
- (c) N/A

Section 4.3. Obligation Acceleration. "Obligation Acceleration" means one or more Obligations in an aggregate amount of not less than the Default Requirement have become due and payable before they would otherwise have been due and payable as a result of, or on the basis of, the occurrence of a default, event of default or other similar condition or event (however described), other than a failure to make any required payment, in respect of the Reference Entity under one or more Obligations.

In all cases, the Repudiation/Moratorium Extension Condition will be deemed not to have been satisfied, or not capable of being satisfied, if, or to the extent that, the DC Secretary publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved that either (A) an event does not constitute a Potential Repudiation/Moratorium with respect to an Obligation of the Reference Entity, or (B) an event that constitutes a Potential Repudiation/Moratorium has occurred with respect to an Obligation of the Reference Entity but that such event occurred after the Credit Observation End Date.
- (e) **"Repudiation/Moratorium Extension Notice"** means an irrevocable notice from the Calculation Agent to the Issuer that describes a Potential Repudiation/Moratorium that occurred on or prior to the Credit Observation End Date. The Calculation Agent shall only deliver a Repudiation/Moratorium Extension Notice where it determines that Publicly Available Information exists confirming the existence or occurrence of the relevant Potential Repudiation/Moratorium. The Potential Repudiation/Moratorium that is the subject of the Repudiation/Moratorium Extension Notice need not be continuing on the date the Repudiation/Moratorium Extension Notice is effective. The Calculation Agent may deliver multiple Repudiation/Moratorium Extension Notices in respect of a Reference Entity. In particular, the Calculation Agent may deliver a Repudiation/Moratorium Extension Notice such that there is an Uncured Default in respect of one or more Specified Payment Dates.

Section 4.7. Restructuring.

- (a) **"Restructuring"** means that, with respect to one or more Obligations and in relation to an aggregate amount of not less than the Default Requirement, any one or more of the following events occurs in a form that binds all holders of such Obligation, is agreed between the Reference Entity or a Governmental Authority and a sufficient number of holders of such Obligation to bind all holders of the Obligation or is announced (or otherwise decreed) by the Reference Entity or a Governmental Authority in a form that binds all holders of such Obligation (including, in each case, in respect of Bonds only, by way of an exchange), and such event is not expressly provided for under the terms of such Obligation in effect as of the later of the Credit Event Backstop Date and the date as of which such Obligation is issued or incurred:

 - (ii) a reduction in the amount of principal or premium payable at redemption (including by way of redenomination);
 - (iii) a postponement or other deferral of a date or dates for either (A) the payment or accrual of interest, or (B) the payment of principal or premium;

 - (iii) the occurrence of, agreement to or announcement of any of the events described in Section 4.7(a)(i) to (v) due to an administrative adjustment, accounting adjustment or tax adjustment or other technical adjustment occurring in the ordinary course of business; and
 - (iv) the occurrence of, agreement to or announcement of any of the events described in Sections 4.7(a)(i) to (v) in circumstances where such event does not directly or indirectly result from a deterioration in the creditworthiness or financial condition of the Reference Entity, provided that, in respect of Section 4.7(a)(v) only, no such deterioration in the creditworthiness or financial condition of the Reference Entity is required where the redenomination is from euros into another currency and occurs as a result of action taken by a Governmental Authority of a Member State of the European Union which is of general application in the jurisdiction of such Governmental Authority.
- (c) For purposes of Sections 4.7(a), 4.7(b) and 4.10 (Multiple Holder Obligation), the term Obligation shall be deemed to include Underlying Obligations for which the Reference Entity is acting as provider of a Guarantee. In the case of a Guarantee and an Underlying Obligation, references to the Reference Entity

in Section 4.7(a) shall be deemed to refer to the Underlying Obligor and the reference to the Reference Entity in Section 4.7(b) shall continue to refer to the Reference Entity.

- (d) If an exchange has occurred, the determination as to whether one of the events described under Sections 4.7(a)(i) to (v) has occurred will be based on a comparison of the terms of the Bond immediately prior to such exchange and the terms of the resulting obligations immediately following such exchange.

Section 4.8. Governmental Intervention.

- (a) **"Governmental Intervention"** means that, with respect to one or more Obligations and in relation to an aggregate amount of not less than the Default Requirement, any one or more of the following events occurs as a result of action taken or an announcement made by a Governmental Authority pursuant to, or by means of, a restructuring and resolution law or regulation (or any other similar law or regulation), in each case, applicable to the Reference Entity in a form which is binding, irrespective of whether such event is expressly provided for under the terms of such Obligation:
 - (i) any event which would affect creditors' rights so as to cause:
 - (A) a reduction in the rate or amount of interest payable or the amount of scheduled interest accruals (including by way of redenomination);
 - (B) a reduction in the amount of principal or premium payable at redemption (including by way of redenomination);
 - (C) a postponement or other deferral of a date or dates for either (I) the payment or accrual of interest, or (II) the payment of principal or premium; or

 - (iv) any event which has an analogous effect to any of the events specified in Sections 4.8(a)(i) to (iii).

Section 4.9. Certain Definitions Relating to Credit Events.

- (a) **"Default Requirement"** means the amount specified as being applicable to the Reference Entity in the Standard, or its equivalent in the relevant Obligation Currency (or, if no such amount is specified, USD 10,000,000 or its equivalent in the relevant Obligation Currency) in either case, as of the occurrence of the relevant Credit Event.

Section 4.10. Multiple Holder Obligation.

- (b) "**Multiple Holder Obligation**" means an Obligation that (i) at the time of the event which constitutes a Restructuring Credit Event is held by more than three holders that are not Affiliates of each other and (ii) with respect to which a percentage of holders (determined pursuant to the terms of the Obligation as in effect on the date of such event) at least equal to sixty-six-and-two-thirds is required to consent to the event which constitutes a Restructuring Credit Event provided that any Obligation that is a Bond shall be deemed to satisfy the requirement in Section 4.10(b)(ii).

Section 4.11. Redenomination. If an occurrence that would constitute a Failure to Pay (a) is a result of a redenomination that occurs as a result of action taken by a Governmental Authority which is of general application in the jurisdiction of such Governmental Authority and (b) a freely available market rate of conversion existed at the time of the redenomination, then such occurrence will be deemed not to constitute a Failure to Pay unless the redenomination itself constituted a reduction in the rate or amount of interest, principal or premium payable (as determined by reference to such freely available market rate of conversion) at the time of such redenomination.

EFFECT OF DC RESOLUTIONS

Section 10.1. Settlement Suspension. If, following the occurrence of an Event Determination Date but prior to a Valuation Date, there is a DC Credit Event Meeting Announcement, the timing requirements of Section 7.8 (*Valuation Date*), or any other Section of this Credit Annex that pertains to settlement, shall toll and remain suspended until the date of the relevant DC Credit Event Announcement or DC Credit Event Question Dismissal. During such suspension period, the Calculation Agent is not obliged to, nor is it entitled to, take any action in connection with the settlement of any Defaulted Credit. Once the relevant DC Credit Event Announcement or DC Credit Event Question Dismissal, as applicable, has occurred, the relevant timing requirements of Section 7.8 (*Valuation Date*), or any other Section of this Credit Annex that pertains to settlement that have previously tolled or been suspended shall resume on the Business Day following such public announcement by the DC Secretary with the Calculation Agent having the benefit of the full day notwithstanding when the tolling or suspension began in accordance with Section 10.1.

Section 10.2. Effect of DC Resolutions. Any DC Resolution of the relevant Credit Derivatives Determinations Committee that is applicable to such Defaulted Credit, including a DC Resolution that reverses a previous DC Resolution, shall be binding on the Issuer and the Calculation Agent:

- (a) provided that:
 - (i) if the effect of a DC Resolution would be to reverse (A) a prior DC Resolution of the relevant Credit Derivatives Determinations Committee, (B) any determination made by the Calculation Agent that is effectively notified to the Issuer prior to the fifth Business Day which immediately precedes the Successor Resolution Request Date or a Substitute Reference Obligation Resolution Request Date, as applicable, or (C) the occurrence of an Event Determination Date, that, in any case, has resulted in:
 - (I) the identification of one or more Successors;
 - (II) the identification of a Substitute Reference Obligation; or
 - (III) the occurrence of an Auction Final Price Determination Date, a Valuation Date or the Maturity Date, in each case, on or prior to the date that the DC Secretary publicly announces such DC Resolution of the relevant Credit Derivatives Determinations Committee, then such DC Resolution shall not be effective, or, in the case of a Valuation Date only, shall not be effective to the extent that a Valuation Date has occurred; and
- (a) notwithstanding:
 - (i) that the terms of this Credit Annex, as supplemented, or any provisions incorporated in the related Conditions, as applicable, may require such determination to be made by the Calculation Agent;
 - (ii) that in order to reach such DC Resolution, the relevant Credit Derivatives Determinations Committee may be required to Resolve one or more factual matters before being able to reach such DC Resolution; and
 - (iii) any actual or perceived conflict of interest on the part of a DC Party, legal counsel or other third-party professional hired by such DC Party in connection with such DC Party's performance of its duties under the DC Rules.

ARTICLE XI

ADDITIONAL REPRESENTATIONS AND AGREEMENTS OF THE PARTIES

Section 11.1. Additional Representations and Agreements of the Parties.

- (a) The Issuer and each Holder shall each be deemed to represent to the other on each Trade Date that, in connection with a Reference Entity, neither the other person nor any of the other person's Affiliates have made any representation whatsoever with respect to the Reference Entity, the Reference Obligation, any Obligation, any Valuation Obligation, any Underlying Obligor or any Underlying Obligation on which it is relying or is entitled to rely.
- (b) On each Trade Date, the Issuer and each Holder (each a "relevant person") shall each be deemed to agree with the other that, so long as the Securities remain outstanding:
 - (i) the relevant persons will be obligated to perform their respective obligations, irrespective of the existence or amount of the persons' credit exposure to the Reference Entity, and no person need suffer any loss nor provide evidence of any loss as a result of the occurrence of a Credit Event;
 - (ii) the Securities do not create any rights or impose any obligations in respect of any entity that is not the Issuer or a Holder;
 - (iii) each relevant person and its Affiliates and the Calculation Agent may deal in the Reference Obligation, each Obligation, each Valuation Obligation and each Underlying Obligation and may, where permitted, accept deposits from, make loans or otherwise extend credit to, and generally engage in any kind of commercial or investment banking or other business with, the Reference Entity, any Underlying Obligor, any Affiliate of the Reference Entity or of the Underlying Obligor, or any other person or entity having obligations relating to the Reference Entity, any Underlying Obligor, or any Affiliate of the Reference Entity or of the Underlying Obligor, and may act (but is not obliged to act) with respect to such business in the same manner as each of them would if the Securities did not exist, regardless of whether any such action might have an adverse effect on the Reference Entity, any Underlying Obligor, any Affiliate of the Reference Entity or of the Underlying Obligor, or the position of the Holder(s) or otherwise (including, without limitation, any action which might constitute or give rise to a Credit Event);
 - (iv) each relevant person and its Affiliates and the Calculation Agent may, whether by virtue of the types of relationships described herein or otherwise, on any Trade Date or at any time thereafter, be in possession of information in relation to the Reference Entity, any Underlying Obligor or any Affiliate of the Reference Entity or of the Underlying Obligor, that is or may be material in the context of the Securities and that may or may not be publicly available or known to the other person, and the Securities do not create any obligation on the part of such person, its Affiliates or the Calculation Agent to disclose to the other person any such relationship or information (whether or not confidential);

in connection with the Securities; provided, however, that such information does not and shall not affect the truth or accuracy of any representation made or deemed to be made by such person herein or in the Securities.

- (c) On each Trade Date, the Issuer and each Holder shall each be deemed to agree with the other:
- (i) that no DC Party and no legal counsel or other third-party professional hired by a DC Party in connection with such DC Party's performance of its respective duties under the DC Rules and/or any Credit Derivatives Auction Settlement Terms, as applicable, shall be liable, whether for negligence or otherwise, to the Issuer or any Holder for any form of damages, whether direct, indirect, special, consequential or otherwise, that might arise in connection with such DC Party's performance of its duties, or any advice given by legal counsel or any other third party professional hired by such DC Party in connection with such DC Party's performance of its respective duties, under the DC Rules and/or any Credit Derivatives Auction Settlement Terms, as applicable, except in the case of fraud or willful misconduct on the part of such DC Party, legal counsel or other third-party professional, as applicable; provided that, notwithstanding the foregoing, legal counsel or any other third-party professional hired by a DC Party in connection with such DC Party's performance of its duties under the DC Rules and/or any Credit Derivatives Auction Settlement Terms, as applicable, may still be liable to such DC Party;
 - (ii) to waive any claim, whether for negligence or otherwise, that may arise against a DC Party and any legal counsel or other third-party professional hired by such DC Party in connection with such DC Party's performance of its duties under the DC Rules, except in the case of fraud or wilful misconduct on the part of such DC Party, legal counsel or other third-party professional, as applicable; provided that, notwithstanding the foregoing, legal counsel or any other third-party professional hired by a DC Party in connection with such DC Party's performance of its duties under the DC Rules and/or any Credit Derivatives Auction Settlement Terms, as applicable, may still be liable to such DC Party;
 - (iii) that no DC Party is (A) under any obligation to research, investigate, supplement, or verify the veracity of, any information on which the relevant Credit Derivatives Determinations Committee bases its decision and (B) acting as a fiduciary for, or as an advisor to, the Issuer or any Holder in connection with the Securities;
 - (iv) that, in reaching any DC Resolution that is applicable to the Securities, the relevant Credit Derivatives Determinations Committee shall be under no requirement to consult with, or individually notify, the Issuer or any Holder, notwithstanding any provision of this Credit Annex, the Credit Derivatives Definitions, as supplemented, or of any relevant additional provisions published by ISDA and that are applicable to the Securities to the contrary; and
 - (v) that, with respect to any DC Resolution of the relevant Credit Derivatives Determinations Committee, if there is any inconsistency between (A) any provision of either (I) this Credit Annex, the Credit Derivatives Definitions, as supplemented, or (II) any provisions incorporated in the related Securities and (B) the DC Rules, the DC Rules will govern.

"Uncured Default" means, with respect to a Reference Entity and any day falling on or prior to the Credit Observation End Date:

- (a) in respect of a Reference Entity for which Failure to Pay is applicable, (i) the DC Secretary has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that an event that constitutes a Potential Failure to Pay has occurred with respect to an Obligation of the relevant Reference Entity on or prior to such day or (ii) the Calculation Agent determines that an event that constitutes a Potential Failure to Pay has occurred on or prior to such day, provided that such determination is not contrary to any determination of a Credit Derivatives Determinations Committee; or
- (b) (i) the DC Secretary has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that an event that constitutes a Potential Repudiation/Moratorium has occurred with respect to an Obligation of the relevant Reference Entity on or prior to such day or (ii) the Calculation Agent has delivered a Repudiation/Moratorium Extension Notice in respect of a Potential Repudiation/Moratorium which occurred on or prior to such day, provided that such notice is not contrary to any determination of a Credit Derivatives Determinations Committee,

and (x) no Event Determination Date as a result of a related Failure to Pay (in the case of a Potential Failure to Pay) or a related Repudiation/Moratorium (in the case of a Potential Repudiation/Moratorium) has occurred as at the time the relevant determination of whether an Uncured Default exists is being made and (y) the Calculation Agent determines that a related Failure to Pay (in the case of a Potential Failure to Pay) or a related Repudiation/Moratorium (in the case of a Potential Repudiation/Moratorium) might occur. Notwithstanding the above, where the above conditions are satisfied on any date and the relevant Reference Entity is, as a result, treated as being subject to an Uncured Default under the terms of the Securities and this leads to a reduction in payments due on a particular date, any subsequent announcement of the DC Secretary, that would cause such conditions to be deemed not satisfied, shall not invalidate the determination of there being an Uncured Default in respect of the relevant Specified Payment Date and such reduction.

Section 15.2. General.

Certain determinations made by the Calculation Agent hereunder relate to the applicability of certain ISDA or ISDA committee determinations, announcements, resolutions or other actions (each an **"ISDA Determination"**) to the Securities. Unless otherwise expressly stated herein, any dates and timings hereunder that are determined on the basis of the relevant dates and timings of any applicable ISDA Determination shall not be affected by any delay in the determination by the Calculation Agent that such ISDA Determination is applicable, but shall be determined on the basis of the relevant dates and timings of such applicable ISDA Determination without regard to any such delay. Unless the context otherwise requires, any capitalised term that is used and defined herein that is also defined for purposes of an applicable ISDA Determination shall, where used in connection with such ISDA Determination, have the meaning given to such term for purposes of such ISDA Determination but shall also relate to the corresponding term as defined herein.

All calculations and determinations made by the Calculation Agent in relation to the Securities shall (save in the case of manifest error at the time the relevant determination is made) be final and binding on the Issuer, the Agents and the Holders.

In selecting any Valuation Obligations hereunder, the Calculation Agent is under no obligation to the Holders or any other person and, provided that the obligation selected meets the criteria in the definition of "Valuation Obligation", is entitled, and indeed will endeavour, to select obligations with the lowest price of any obligations which meet such criteria, but will not be liable to any person if a lower price is obtained as a result of that

selection than would have been obtained if a different selection had been made, or for any other consequence of the relevant selection. In making any selection, the Calculation Agent will not be liable to account to the Holders or any other person for any profit or other benefit to it or any of its Affiliates which may result directly or indirectly from any such selection.

The Calculation Agent shall not be liable to any person for any delay in or failure to deliver any notices hereunder (including, without limitation, any Credit Event Notice) or for any differences in the timing of any notices delivered hereunder from that under any other transactions in respect of which the Calculation Agent or its Affiliates perform a similar role or are counterparties thereto. It is explicitly acknowledged (and shall be taken into account in any determination of whether it has been grossly negligent) that the Calculation Agent will also be performing calculations and other functions with respect to transactions other than the Securities and that it may make the calculations required hereunder and other calculations and other functions required by such other transactions in such order as seems appropriate to it and shall not be liable for the order in which it elects to perform calculations or other functions or for any delay caused by electing to perform calculations and other functions for such other transactions prior to those required hereunder.

The rights and obligations of the Issuer and the Holders under the Securities are irrespective of the existence or amount of the Issuer's or the Holders' credit exposure to a Reference Entity and no party need suffer any loss or provide evidence of any loss as a result of the occurrence of a Credit Event.

When determining the existence or occurrence of any Potential Failure to Pay, Potential Repudiation/Moratorium or any Credit Event, the Calculation Agent shall make such determination based on the occurrence of an event whether or not the occurrence of the relevant event arises directly or indirectly from or is subject to a defence based upon (a) any lack or alleged lack of authority or capacity of the relevant Reference Entity to enter into any Obligation or, as applicable, an Underlying Obligor to enter into any Underlying Obligation, (b) any actual or alleged unenforceability, illegality, impossibility or invalidity with respect to any Obligation or, as applicable, any Underlying Obligation, however described, (c) any applicable law, order, regulation, decree or notice, however described, or the promulgation of, or any change in, the interpretation by any court, tribunal, regulatory authority or similar administrative or judicial body with competent or apparent jurisdiction of any applicable law, order, regulation, decree or notice, however described, or (d) the imposition of or any change in any exchange controls, capital restrictions or any other similar restrictions imposed by any monetary or other authority.

No person shall have any right to enforce any term or condition of the Securities under the Contracts (Rights of Third Parties) Act 1999.

ANNEX B**CREDIT DERIVATIVES DETERMINATIONS COMMITTEES**

In making certain determinations with respect to the Securities, the Calculation Agent shall be obliged to follow the DC Resolutions of the Credit Derivatives Determinations Committees. This Annex sets forth a summary of the Credit Derivatives Determinations Committees Rules, as published by ISDA on its website at www.isda.org (or any successor website thereto) as of 20 January 2016 (the "**Rules**") and is subject to the rules as published by ISDA from time to time and as amended from time to time in accordance with the terms thereof. This summary is not intended to be exhaustive and prospective investors should also read the Credit Derivatives Determinations Committees Rules, as published by ISDA as of the Issue Date, and reach their own views prior to making any investment decisions. A copy of the Rules published by ISDA as of 20 January 2016 may be inspected at the offices of the Issuer and is available at: www.isda.org (or any successor website)

Capitalized terms used but not defined in this summary have the meaning specified in this Pricing Supplement or the Rules, as applicable.

Establishment of the Credit Derivatives Determinations Committees

In accordance with the Rules, a Credit Derivatives Determinations Committee has been formed for each of the regions of (a) the Americas, (b) Asia Ex-Japan, (c) Australia-New Zealand, (d) Europe, Middle East and Africa and (e) Japan. As of the Issue Date, the Calculation Agent (or one of its Affiliates) is a voting member on each of the Credit Derivatives Determinations Committees. See "Risk Factors - Potential conflicts of interest due to the involvement of the Calculation Agent with the Credit Derivatives Determinations Committees" for additional information regarding conflicts of interest. The Credit Derivatives Determinations Committees will act in accordance with the Rules and will make determinations that are relevant for Credit Derivative Transactions that incorporate, or are deemed to incorporate, the 2014 ISDA Credit Derivatives Definitions (the "**2014 Definitions**") or the 2003 ISDA Credit Derivatives Definitions, as supplemented by the 2009 ISDA Credit Derivatives Determinations Committees and Auction Settlement Supplement to the 2003 ISDA Credit Derivatives Definitions (published on March 12, 2009) or the 2003 ISDA Credit Derivatives Definitions, as supplemented by the 2009 ISDA Credit Derivatives Determinations Committees, Auction Settlement and Restructuring Supplement to the 2003 ISDA Credit Derivatives Definitions, as published by ISDA on 14 July 2009 (the "**Updated 2003 Definitions**"). ISDA will serve as the secretary of each Credit Derivatives Determinations Committee and will perform administrative duties and make certain determinations as provided for under the Rules.

Decision-making Process of the Credit Derivatives Determinations Committees

Each DC Resolution by a Credit Derivatives Determinations Committee will apply to Credit Derivative Transactions that incorporate, or are deemed to incorporate, the 2014 Definitions or the Updated 2003 Definitions (depending on the applicable "Coverage Election" and subsequent determinations of the Credit Derivatives Determinations Committee) and for which the relevant provisions are not materially inconsistent with the provisions with respect to which the Credit Derivatives Determinations Committee bases its determination. As a result, determinations by the Credit Derivatives Determinations Committees are not otherwise applicable to the Holders. Furthermore, the institutions on the Credit Derivatives Determinations Committees owe no duty to the Holders. Under the terms of the Securities, certain determinations by the Credit Derivatives Determinations Committees will be binding on the Holders. The Credit Derivatives Determinations Committees shall have no ability to amend the terms of the Securities. The Credit Derivatives Determinations Committees will be able to make determinations without action or knowledge by the Holders.

A Credit Derivatives Determinations Committee will be convened upon referral of (i) a question to ISDA by an identified eligible market participant and the agreement of at least one of the voting members of the relevant Credit Derivatives Determinations Committee to deliberate the question, or (ii) a question to ISDA by an unidentified eligible market participant and the agreement of at least two of the voting members of the relevant Credit Derivatives Determinations Committee to deliberate the question, or (iii) a question to ISDA by an eligible market participant which is an Eligible CCP (being an eligible clearing entity) and such question is not designated as a "General Interest Question" and relates to an eligible cleared Reference Entity with respect to such Eligible CCP and to certain specified matters such as a Credit Event, Potential Repudiation/Moratorium and/or Successor. ISDA will convene the Credit Derivatives Determinations Committee for the region to which the referred question relates, as determined in accordance with the Rules. Any party to a transaction that incorporates, or is deemed to incorporate, the 2014 Definitions or the Updated 2003 Definitions may refer a

question to ISDA for a Credit Derivatives Determinations Committee to consider. Therefore, a binding determination may be made with respect to the Securities without any action by the Holders. See "Risk Factors – Holders (in their capacity as holders of the Securities) will not be able to refer questions to the Credit Derivatives Determinations Committees" for additional information regarding the lack of Holder involvement in determinations made by the Credit Derivatives Determinations Committees.

Once a question is referred to a Credit Derivatives Determinations Committee, a DC Resolution may result quickly, as a binding vote usually must occur within two business days of the first meeting held with respect to such question unless the timeframe is extended by agreement of at least 80% of the voting members participating in a vote held in accordance with the Rules. In addition, voting members of the Credit Derivatives Determinations Committees are required to participate in each binding vote, subject only to limited abstention rights. Notices of questions referred to the Credit Derivatives Determinations Committees, meetings held to deliberate such questions, meeting statements and the results of binding votes will be published on the ISDA website and neither the Issuer, the Calculation Agent nor any of their respective Affiliates shall be obliged to inform the Holders of such information (other than as expressly provided in this Pricing Supplement). Holders shall therefore be responsible for obtaining such information. See "Risk Factors - Holders shall be responsible for obtaining information relating to deliberations of the Credit Derivatives Determinations Committees" for additional information.

The Credit Derivatives Determinations Committees have the ability to make determinations that may materially affect the Holders. The Credit Derivatives Determinations Committees will be able to make a broad range of determinations in accordance with the Rules that may be relevant to the Securities and materially affect the Holders. For each of the general types of questions discussed below, the Credit Derivatives Determinations Committees may determine component questions that arise under the 2014 Definitions or the Updated 2003 Definitions, or the Rules and that are related to the initial question referred. Since the terms governing the credit-linked elements of the Securities are substantially similar to the 2014 Definitions or, as the case may be, the Updated 2003 Definitions, such determinations may affect the Holders, as further described below.

Credit Events

The Credit Derivatives Determinations Committees will be able to determine whether a Credit Event has occurred and the date of such Credit Event. Related questions that are also within the scope of the Credit Derivatives Determinations Committees are whether the Repudiation/Moratorium Extension Condition is satisfied or whether a Potential Failure to Pay or a Potential Repudiation/Moratorium has occurred. In addition, the Credit Derivatives Determinations Committees will also determine, where necessary, whether the required Publicly Available Information has been provided. Each of these determinations, other than whether the required Publicly Available Information has been provided, requires the agreement of at least 80% of the voting members participating in a binding vote held in accordance with the Rules in order to avoid the referral of the question to the external review process, as described further below. The determination of whether the required Publicly Available Information has been provided requires the agreement of at least a majority of the voting members participating in a binding vote held in accordance with the Rules and is not eligible for external review. Each of these determinations may affect whether the Calculation Agent is entitled to deliver a Credit Event Notice and therefore whether an Event Determination Date will occur under the Securities. To the extent that the Credit Derivatives Determinations Committee Resolves that a Credit Event has occurred with respect to one of the Reference Entity(ies) on or after the Credit Event Backstop Date, the Calculation Agent shall deliver a Credit Event Notice in respect of the Securities. Notwithstanding the scope of the Credit Derivatives Determinations Committees, the Calculation Agent may still declare a Credit Event and deliver a Credit Event Notice even if a Credit Derivatives Determinations Committee has not Resolved that a Credit Event has occurred, provided that a Credit Derivatives Determinations Committee has not Resolved that a Credit Event has not occurred.

Successors

The Credit Derivatives Determinations Committees will be able to determine whether there are any Successor or Successors to a Reference Entity and the relevant Succession Date. In addition, the Credit Derivatives Determinations Committees will also determine the identity of the Successor(s) in accordance with the Rules. For a Reference Entity that is not a Sovereign, the Credit Derivatives Determinations Committees will determine the Relevant Obligation(s) of the Reference Entity (including any adjustments required to made if there is a Steps Plan), the proportion of the Relevant Obligation(s) to which each purported Successor succeeds and the Succession Date. For a Reference Entity that is a Sovereign, the Credit Derivatives Determinations Committees will determine the Relevant Obligation(s) of the Reference Entity (including any adjustments to be

made if there is a Steps Plan), whether a Sovereign Succession Event has occurred, if so the proportion of the Relevant Obligation(s) to which each purported Successor succeeds, and the Succession Date. Each of these determinations requires the agreement of at least 80% of the voting members participating in a binding vote held in accordance with the Rules in order to avoid the referral of the question to the external review process, as described further below, except for the actual identification of the Successor(s) for a Reference Entity (which only requires a majority and is not eligible for external review). The Calculation Agent may use the relevant DC Resolutions of the Credit Derivatives Determinations Committees in order to determine Successor(s) to the Reference Entity(ies).

Other Questions

The Credit Derivatives Determinations Committees will be able to determine whether circumstances have occurred that require a Substitute Reference Obligation to be identified and, if so, the appropriate Substitute Reference Obligation. In addition, the Credit Derivatives Determinations Committees will be able to determine whether an entity that acts as seller of protection under one or more transactions (such entity, the "**Relevant Seller**") or a Reference Entity has consolidated or amalgamated with, or merged into, or transferred all or substantially all its assets to, the Reference Entity or the Relevant Seller, as applicable, or that the Relevant Seller and the Affected Reference Entity have become Affiliates. Each of these determinations requires the agreement of at least 80% of the voting members participating in a binding vote held in accordance with the Rules in order to avoid the referral of the question to the external review process, as described further below. The Calculation Agent may follow such DC Resolutions in making the equivalent determinations with respect to the Securities.

The Credit Derivatives Determinations Committees will be able to determine other referred questions that are relevant to the credit derivatives market as a whole and are not merely a matter of bilateral dispute. Such questions require the agreement of at least 80% of the voting members participating in a binding vote held in accordance with the Rules for each Credit Derivatives Determinations Committee implicated by the relevant question, as determined in accordance with the Rules, in order to avoid the possible referral of the question to the external review process, as described further below. Furthermore, the question relating to such DC Resolution may also be referred to the external review process if at least a majority of the voting members participating in a binding vote held in accordance with the Rules agree. Any guidance given by the Credit Derivatives Determinations Committees with respect to questions of interpretation of the 2014 Definitions or, as the case may be, the Updated 2003 Definitions are likely to influence the Calculation Agent in interpreting equivalent provisions under the Notes.

Any such question can be submitted to the Credit Derivatives Determinations Committees by an unidentified eligible market participant for deliberation. The relevant Credit Derivatives Determinations Committee(s) will deliberate such question upon the agreement of at least two of the voting members of the relevant Credit Derivatives Determinations Committee to deliberate the question. Once the deliberations on such question have commenced, the relevant Credit Derivatives Determinations Committee will proceed in accordance with the procedures described above with respect to the relevant question category, except that the identity of the eligible market participant who submitted the question will not be revealed to the members of the Credit Derivatives Determinations Committees or the general public.

External Review

As described immediately above, certain questions deliberated by the Credit Derivatives Determinations Committees are subject to an external review process if the required threshold is not met during the binding vote held with respect to such question. For such questions, if at least 80% of the voting members participating in a binding vote held in accordance with the Rules fail to agree, the question will be automatically referred to the external review process. Questions that are not eligible for external review often require only a simple majority of participating voting members to agree in order to reach a DC Resolution.

Questions referred to external review will be considered by a panel of three independent individuals who will be selected by either the relevant Credit Derivatives Determinations Committee or by ISDA at random. The default duration of the external review process (which can be modified by the relevant Credit Derivatives Determinations Committee in accordance with the Rules) is twelve business days from the referral of the question and contemplates the receipt of both written submissions and oral argument. Any member of ISDA may provide written submissions to the external reviewers, which will be made available to the public on the ISDA website, and the conclusion reached in accordance with the external review process will be binding on the Holders. In instances where the vote of the relevant Credit Derivatives Determinations Committee was less than

or equal to 60%, the decision of a majority of the external reviewers will be determinative. However, in instances where the vote of the relevant Credit Derivatives Determinations Committee was between 60% and 80%, all three external reviewers must agree in order to overturn the vote of the Credit Derivatives Determinations Committee.

Holders should be aware that the external reviewers may not consider new information that was not available to the relevant Credit Derivatives Determinations Committee at the time of the binding vote and questions may be returned to the Credit Derivatives Determinations Committee for another vote if new information becomes available. In addition, if the external reviewers fail to arrive at a decision for any reason, the entire process will be repeated. As a result, the external review process may be elongated in certain situations, leaving questions that may materially affect the Holders unresolved for a period of time.

The Composition of the Credit Derivatives Determinations Committees

Each Credit Derivatives Determinations Committee is composed of fifteen voting members and three non-voting consultative members. Ten of the voting members are dealer institutions, with eight serving across all regions and two potentially varying by region. The other five voting members are non-dealer institutions that serve across all regions. The three non-voting consultative members consist of one dealer institution and one non-dealer institution that serve across all regions and one dealer institution that could potentially vary by region. For the first composition of the Credit Derivatives Determinations Committees only, an additional non-voting dealer institution has been selected to serve across all regions.

Holders will have no role in the composition of the Credit Derivatives Determinations Committees. Separate criteria applies with respect to the selection of dealer and non-dealer institutions to serve on the Credit Derivatives Determinations Committees and the Holders will have no role in establishing such criteria. In addition, the composition of the Credit Derivatives Determinations Committees will change from time to time in accordance with the Rules, as the term of an institution may expire or an institution may be required to be replaced. The Holders will have no control over the process for selecting institutions to participate on the Credit Derivatives Determinations Committees and, to the extent provided for in the Securities, will be subject to the determinations made by such selected institutions in accordance with the Rules.

Ability of the Calculation Agent or its Affiliates to influence the Credit Derivatives Determinations Committees

As of the Issue Date, the Calculation Agent (or one of its Affiliates) is a voting member on each of the Credit Derivatives Determinations Committees. In such capacity, it may take certain actions that may influence the process and outcome of decisions of the Credit Derivatives Determinations Committees, including (without limitation): (a) agreeing to deliberate a question referred to ISDA, (b) voting on the resolution of any question being deliberated by a Credit Derivatives Determinations Committee and (c) advocating a certain position during the external review process. In addition, as a party to transactions which incorporate, or are deemed to incorporate, the 2014 Definitions or the Updated 2003 Definitions, the Calculation Agent may refer a question to ISDA for a Credit Derivatives Determinations Committee to deliberate. In deciding whether to take any such action, the Calculation Agent (or its Affiliate) shall be under no obligation to consider the interests of any Holder. See "Potential conflicts of interest of the Calculation Agent" below for additional information.

Potential Conflicts of interest of the Calculation Agent

Since, as of the Issue Date, the Calculation Agent (or one of its Affiliates) is a voting member on each of the Credit Derivatives Determinations Committees and is a party to transactions which incorporate, or are deemed to incorporate, the 2014 Definitions or the Updated 2003 Definitions, it may take certain actions which may influence the process and outcome of decisions of the Credit Derivatives Determinations Committees. See "Ability of the Calculation Agent or its Affiliates to influence the Credit Derivatives Determinations Committees" above for additional information. Such action may be adverse to the interests of the Holders and may result in an economic benefit accruing to the Calculation Agent. In taking any action relating to the Credit Derivatives Determinations Committees or performing any duty under the Rules, the Calculation Agent shall have no obligation to consider the interests of the Holders and may ignore any conflict of interest arising due to its responsibilities under the Securities.

Holders will have no recourse against either the institutions serving on the Credit Derivatives Determinations Committees or the external reviewers. Institutions serving on the Credit Derivatives Determinations Committees and the external reviewers, among others, disclaim any duty of care or liability arising in connection with the

performance of duties or the provision of advice under the Rules, except in the case of gross negligence, fraud or wilful misconduct. Furthermore, the institutions on the Credit Derivatives Determinations Committees do not owe any duty to the Holders and the Holders will be prevented from pursuing claims with respect to actions taken by such institutions under the Rules.

Holders should also be aware that institutions serving on the Credit Derivatives Determinations Committees have no duty to research or verify the veracity of information on which a specific determination is based. In addition, the Credit Derivatives Determinations Committees are not obligated to follow previous determinations and, therefore, could reach a conflicting determination for a similar set of facts.

Holders shall be responsible for obtaining information relating to deliberations of the Credit Derivatives Determinations Committees. Notices of questions referred to the Credit Derivatives Determinations Committees, meetings held to deliberate such questions and the results of binding votes will be published on the ISDA website and neither the Issuer, the Calculation Agent nor any of their respective Affiliates shall be obliged to inform the Holders of such information (other than as expressly provided in this Pricing Supplement). Failure by the Holders to be aware of information relating to deliberations of a Credit Derivatives Determinations Committee will have no effect under this Pricing Supplement and Holders are solely responsible for obtaining any such information.

Amendments to the Rules

The Rules may be amended from time to time without the consent or input of the Holders and the powers of the Credit Derivatives Determinations Committees may be expanded or modified as a result.
