|-----|--------------------------|--|
94. The following Relevant Annex(es) and further provisions shall apply to the Notes
- “FX Disruption” means the occurrence of any event after the Issue Date that prevents the Issuer or any affiliate of the Issuer (the “Hedging Party”), after applying commercially reasonable efforts, to:
- (i) transfer, on or in respect of a valuation date, a payment date, an early termination date or the Maturity Date, through customary legal channels the proceeds of its Hedge Positions denominated in the settlement currency from accounts within the jurisdictions to which the Hedge Positions relate (each such jurisdiction, an affected jurisdiction) to (a) accounts outside such affected jurisdiction, (b) other accounts within such affected jurisdiction or (c) the accounts of a non- resident of such affected jurisdiction;
  - (ii) transfer, on or in respect of a valuation date, a payment date, early termination date or the Maturity Date, through customary legal channels the proceeds of its Hedge Positions denominated in the local currency of the affected jurisdiction from accounts within the affected jurisdiction to (a) other accounts within such affected jurisdiction, (b) accounts outside such affected jurisdiction or (c) the accounts of a non-resident of such affected jurisdiction;
  - (iii) convert the proceeds of its Hedge Positions denominated in the local currency into the settlement currency on or in respect of a valuation date, a payment date, early termination date or the Maturity Date through customary legal channels;
  - (iv) convert the proceeds of its Hedge Positions denominated in the local currency into the settlement currency on or in respect of a valuation date, a payment date, an early termination date or the Maturity Date at a rate at least as favourable as the rate for domestic institutions located in the affected jurisdiction; or
  - (v) obtain a rate or a commercially reasonable rate (as determined by the Calculation Agent), in each case, at which the proceeds of its Hedge Positions

denominated in the local currency can be exchanged for the settlement currency on or in respect of a valuation date, a payment date, an early termination date or the Maturity Date.

Upon the occurrence of an FX Disruption, the Issuer may give notice to the Note Holder that an FX Disruption has occurred whereupon the Issuer will determine to either:

- (i) postpone its payment obligations until the first currency business day that is at least one settlement cycle following the date on which the FX Disruption ceases to exist or, if that would not be commercially reasonable, as soon as commercially reasonable thereafter; or
- (ii) postpone the conversion of proceeds of its Hedge Positions denominated in the local currency into the settlement currency until the first currency business day on which such FX Disruption ceases to exist or, if that would not be commercially reasonable, as soon as commercially reasonable thereafter, or
- (iii) redeem the Notes in accordance with Condition 10.4 of the Terms and Conditions of the Notes as if the FX Disruption was a Hedging Disruption, if the FX Disruption is continuing or after the date falling one year after the occurrence of the FX Disruption,

provided that in each case as set out in (i) and (ii) above the Issuer may adjust the payment obligations in respect of the Notes to account for any loss or costs incurred (or gains or benefits derived) by the Issuer in connection with the postponement.

The Issuer will determine the relevant exchange rate as soon as reasonably practicable after taking into consideration all available information that it determines relevant, including any published official or industry-consensus rate of exchange; provided, however, that in anticipation of the cessation of the FX Disruption, the Issuer may postpone the determination of the exchange rate to such time as is reasonable and it will adjust the payment obligations in respect of the Notes to account for any loss or costs incurred (or gains or benefits derived) by the Issuer in connection with the postponement of the determination of the exchange rate and any relevant payment obligations (including, any income or interest received and (internal or external) funding costs or other charges actually incurred.

96. Material Change Statement:

Since the date of the Issuer's latest interim financial report for the six months ended 31 December 2019, FirstRand Limited (the group), of which FirstRand Bank Limited is a wholly-owned subsidiary (representing approximately 75% of the group's balance sheet and earnings base), withdrew the financial guidance it had provided in its interim results announcement on 10 March 2020 on the group's expected earnings and ROE for the full year to 30 June 2020. This financial guidance was based on the group's macroeconomic view in early March 2020. The escalation of the COVID-19 pandemic (the pandemic) and the

lockdown scenarios in most of the markets in which the group operates, required significant revisions to the group's macroeconomic forecasts. FirstRand Bank noteholders were advised on 24 April 2020 that FirstRand's 30 June 2020 financial performance guidance had been withdrawn and that expected earnings and ROE performance for the full year to 30 June 2020 were under review. FirstRand Bank noteholders are further referred to the trading statement released by FirstRand Limited on 12 August 2020, in which it advised shareholders that it has a reasonable degree of certainty in respect of the group's financial results for the year ended 30 June 2020 (the current period). The group's attributable earnings per share, headline earnings per share, and normalised earnings per share for the current period are all expected to be between 35% and 45% lower than reported for the prior financial year ended 30 June 2019 (the comparative period). As indicated in FirstRand's trading statement of 4 June 2020, the main driver of this decline in earnings is the materially higher than expected credit losses and credit impairment charge, driven by the forward-looking economic assumptions required under IFRS 9. Although the group produced solid growth in earnings for the first half, and the second half includes only three months of the impact of COVID-19, given the IFRS 9 requirement to consider forward-looking information in the calculation of expected credit losses, the group will report a significant increase in credit provisioning levels for the year ended 30 June 2020. FirstRand has revised its macroeconomic outlook for 2020/21, with material downward revisions to key economic variables impacting the group's activities, including a sharp contraction in GDP of -8%, a significant increase in unemployment and weakness in property markets. The revisions have been incorporated into the group's credit provisions under IFRS 9, with all segments and portfolios experiencing notable incremental impacts from forward-looking adjustments. The total impact of these adjustments will result in credit loss ratios exceeding those experienced during the global financial crisis, in part reflecting the faster pace of impairment recognition under IFRS 9. Whilst credit impairments represent the most significant driver of the decline in earnings, further pressures include the negative endowment impact as a result of interest rate cuts and margin pressure, subdued non-interest revenue growth due to lower absolute volumes during the lockdown period, and depressed new business origination. The bank exceeds all prudential minimum regulatory requirements and maintains a strong balance sheet with buffers in excess of minimum regulatory requirements. Apart from the impacts relating to the COVID-19 pandemic outlined above, the Issuer hereby confirms that as at the date of this applicable pricing supplement, there have been no other material changes in the financial or trading position of the Issuer and its subsidiaries since the date of the Issuer's latest interim financial report for the six months ended 31 December 2019. This statement has not been confirmed nor verified by the auditors of the Issuer. The Issuer continues to operate in a higher risk environment due to the impact of the pandemic. Investors are urged to continue to monitor the Issuer's announcements on SENS and all information pertaining to the risk factors inherent in investing in the Notes, including the risk factors specific to the Issuer and the sensitivity of the issue of Notes to such risk factors and all information pertaining to the

description of the Issuer which are available at
