SCHEDULE 1

SCREEN RATE DETERMINATION FOR FLOATING RATE NOTES REFERENCING COMPOUNDED DAILY ZARONIA (LOOKBACK WITHOUT OBSERVATION SHIFT)

1. The Interest Rate payable from time to time in respect of the Notes for each Interest Period will, subject as provided below, be Compounded Daily ZARONIA (as defined below) for the relevant Interest Period plus the Margin (as specified in the Applicable Pricing Supplement), all as determined by the Calculation Agent in accordance with the provisions below, where:

“**Compounded Daily ZARONIA**” means, with respect to an Interest Period, the rate of return of a daily compound interest investment in ZAR (with daily ZAR overnight reference rate as reference rate for the calculation of interest) as calculated by the Calculation Agent on the relevant Interest Determination Date, in accordance with the following formula, and the resulting percentage will be rounded, if necessary, to the fourth decimal place, with 0.00005% being rounded upwards:

$$\prod_{i=1}^{d_0} \left[1 + \frac{\text{Relevant ZARONIA}_{i-5\text{JBD}} \times n_i}{365} \right] \times \frac{365}{d}$$

where:

“**d**” is the number of calendar days in the relevant Interest Period;

“**d₀**” is the number of Johannesburg Business Days in the relevant Interest Period;

“**i**” is, in relation to any Interest Period, a series of whole numbers from one to **d₀**, each representing the relevant Johannesburg Business Day in chronological order from (and including) the first Johannesburg Business Day in such Interest Period;

“**Johannesburg Business Day**” or “**JBD**” means a day (other than a Saturday, a Sunday or an official public holiday) on which commercial banks are open for general business in Johannesburg, South Africa;

“**n_i**”, for any Johannesburg Business Day “**i**” in the relevant Interest Period, means the number of calendar days from and including such Johannesburg Business Day “**i**” up to but excluding the following Johannesburg Business Day;

“**Publication Time**” means at or about 10.00 a.m. (Johannesburg time) or any amended publication time for the final intraday refix of ZARONIA specified by the SARB, as the administrator of ZARONIA (or any successor administrator of ZARONIA);

“**Relevant ZARONIA_{i-5JBD}**” means, in respect of any Johannesburg Business Day “**i**” falling in the relevant Interest Period, the ZARONIA Reference Rate for the Johannesburg Business Day (being a Johannesburg Business Day falling in the relevant ZARONIA Observation Period) falling 5 (five) Johannesburg Business Days prior to the relevant Johannesburg Business Day “**i**”;

“**SARB**” means the South African Reserve Bank;

“**SARB’s Website**” means the website of the SARB currently at <http://www.resbank.co.za>, any successor website of the SARB (or a successor administrator of ZARONIA) or any successor source;

“**ZARONIA**” means the South African Overnight Index Average administered by the SARB (known as ZARONIA);

“**ZARONIA Observation Period**” means, in respect of the relevant Interest Period, the period

from (and including) the date falling 5 (five) Johannesburg Business Days prior to the first day of such Interest Period (and the first Interest Period shall begin on (and include) the Interest Commencement Date) and ending on (but excluding) (a) the date falling 5 (five) Johannesburg Business Days prior to the Interest Payment Date for such Interest Period (and the last Interest Period shall end on (but exclude) the Maturity Date), or (b) the date falling 5 (five) Johannesburg Business Days prior to such earlier date, if any, on which the Notes become due and payable; and

“**ZARONIA Reference Rate**” means, in respect of any Johannesburg Business Day, a reference rate equal to the daily ZARONIA rate for such Johannesburg Business Day as published by the SARB, as the administrator of ZARONIA (or any successor administrator of ZARONIA), on the SARB’s Website, in each case at the Publication Time on the Johannesburg Business Day immediately following such Johannesburg Business Day.

For the avoidance of doubt, the formula for the calculation of Compounded Daily ZARONIA only compounds the ZARONIA Reference Rate in respect of any Johannesburg Business Day. The ZARONIA Reference Rate applied to a day that is not a Johannesburg Business Day will be taken by applying the ZARONIA Reference Rate for the previous Johannesburg Business Day.

2. If, in respect of any Johannesburg Business Day in the relevant ZARONIA Observation Period, the ZARONIA Reference Rate is not available on the SARB’s Website, such ZARONIA Reference Rate shall be:
 - (a) subject to Condition 9.8 (*Benchmark Discontinuation*), the daily ZARONIA rate last published on the SARB’s Website for the first preceding Johannesburg Business Day on which the ZARONIA rate was published on the SARB’s Website (the “**Previous Day’s ZARONIA**”); or
 - (b) if Previous Day’s ZARONIA is not available, the sum of (i) the SARB Policy Rate prevailing at close of business on such Johannesburg Business Day, and (ii) the mean of the spread of the ZARONIA Reference Rate to the SARB Policy Rate over the previous 5 (five) Johannesburg Banking Days on which a ZARONIA Reference Rate has been published (after eliminating the highest such spread (or, in the event of equality, one of the highest) and the lowest such spread (or in the event of equality, one of the lowest)).

For the purposes of this paragraph “**SARB Policy Rate**” means, in respect of any relevant day (including any day “**I**”), the repo rate (or any successor rate) which is the main policy rate of the SARB as determined and set by the monetary policy committee of the SARB and published by the SARB from time to time, in effect on that day.

3. In the event that the Interest Rate cannot be determined in accordance with the foregoing provisions of this Schedule 1, but without prejudice to Condition 9.8 (*Benchmark Discontinuation*), the Interest Rate shall be:
 - (a) that determined as at the last preceding Interest Determination Date (though substituting, where a different Margin or Maximum Interest Rate or Minimum Interest Rate is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin or Maximum Interest Rate or Minimum Interest Rate relating to the relevant Interest Period, in place of the Margin or Maximum Interest Rate or Minimum Interest Rate relating to that last preceding Interest Period); or
 - (b) if there is no such preceding Interest Determination Date, the initial Interest Rate which would have been applicable to such Series of Notes for the first Interest Period had the Notes been in issue for a period equal in duration to the

scheduled first Interest Period but ending on (and excluding) the Interest Commencement Date (but applying the Margin and any Maximum Interest Rate or Minimum Interest Rate applicable to the first Interest Period).

4. If the relevant Series of Notes become due and payable in accordance with Condition 10 (*Redemption and Purchase*) or Condition 14 (*Events of Default*), the final Interest Determination Date shall, notwithstanding any Interest Determination Date specified in the Applicable Pricing Supplement, be deemed to be the date on which such Notes became due and payable and the Interest Rate on such Notes shall, for so long as any such Note remains outstanding, be that determined on such date.

SCHEDULE 2 BENCHMARK DISCONTINUATION

9.8 Benchmark Discontinuation

(a) *Application of Benchmark Discontinuation Provisions*

If Screen Rate Determination is specified as applicable in the Applicable Pricing Supplement, then notwithstanding the provisions of Condition 9.2 (*Interest on Floating Rate Notes and Indexed Notes*) or the provisions of the Applicable Pricing Supplement, if the Issuer determines (acting in good faith and in a commercially reasonable manner) that a Benchmark Event and its related Benchmark Event Date has occurred in relation to an Original Reference Rate for any Series of Notes when any Interest Rate (or any component part thereof) remains to be determined by reference to that Original Reference Rate, then, the Issuer shall determine a Replacement Reference Rate in respect of such Series in accordance with the provisions of this Condition 9.8 and with effect from the Benchmark Replacement Date, the Adjusted Replacement Reference Rate will replace the Original Reference Rate to determine the relevant Interest Rate (or the relevant component part thereof) and the Interest Amounts in respect of all Interest Periods commencing on or after the Benchmark Replacement Date (subject to any subsequent application of this Condition 9.8 with respect to the Replacement Reference Rate).

(b) *Determination of Replacement Reference Rate*

(i) The Issuer shall, with effect from the Benchmark Event Date and by not later than the Replacement Reference Rate Determination Cut-off Date determine (acting in good faith and in a commercially reasonable manner) the Reference Rate that will replace the Original Reference Rate (the “**Replacement Reference Rate**”) which shall be the first of the following Reference Rates determined by the Issuer in the following order of application and precedence:

- (A) first, the Supervisor Recommended Reference Rate;
- (B) second, if the Issuer determines that there is no Supervisor Recommended Reference Rate, the Administrator Recommended Reference Rate; and
- (C) third, if the Issuer determines that there is no Administrator Recommended Reference Rate, the Alternative Reference Rate.

(ii) If:

- (A) no Replacement Reference Rate and (if any) the applicable Adjustment Spread is determined and notified to the Calculation Agent pursuant to this Condition 9.8 prior to the relevant Interest Determination Date occurring immediately after the Replacement Reference Rate Determination Cut-off Date; and
- (B) there are no fallback provisions provided for in Condition 9.2 (*Interest on Floating Rate Notes and Indexed Notes*) and/or the Applicable Pricing Supplement for the purposes of determining the Interest Rate on such Interest Determination Date in relation to the Original Reference Rate,

the Interest Rate applicable to the next succeeding Interest Period shall be equal to the Interest Rate last determined in relation to the Notes in respect of the immediately preceding Interest Period (or alternatively, if there has not been a first Interest Payment Date, the Interest Rate for the next succeeding Interest Period shall be the initial Interest Rate) (the “**Final Fallback Rate**”); *provided that*:

- (I) where a different Margin or Maximum Interest Rate or Minimum Interest Rate is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin or Maximum Interest Rate or Minimum Interest Rate relating to the relevant Interest Period shall be substituted in place of the Margin or Maximum Interest Rate or Minimum Interest Rate relating to that last preceding Interest Period; and
- (II) this Condition 9.8(b)(ii) and the Final Fallback Rate shall apply to the relevant Interest Period only and any subsequent Interest Periods are subject to the subsequent operation of, and to adjustment as provided in, this Condition 9.8.

(c) *Adjustment Spread*

- (i) If any Replacement Reference Rate is determined in accordance with Condition 9.8(b) (*Determination of Replacement Reference Rate*), the Issuer shall, with effect from the Benchmark Event Date and by not later than the Replacement Reference Rate Determination Cut-off Date determine (acting in good faith and in a manner which is commercially reasonable and (if any) substantially consistent with market practice in domestic debt capital markets transactions which reference the Original Reference Rate and taking into account the requirements of the definition of “*Adjustment Spread*”) whether an Adjustment Spread should be applied to such Replacement Reference Rate and, if the Issuer so determines (which may include consultation with an Independent Adviser (if appointed)) that an Adjustment Spread should be so applied, determine the Adjustment Spread (which may be expressed as a specified quantum or a formula or methodology for determining the applicable Adjustment Spread) in accordance with the requirements of the definition of “*Adjustment Spread*”, which Adjustment Spread shall be applied to such Replacement Reference Rate for each subsequent determination of an Interest Rate (or a relevant component part thereof) by reference to such Replacement Reference Rate. If the Issuer is unable to determine the quantum of, or a formula or methodology for determining the Adjustment Spread, then the Replacement Reference Rate will apply without an Adjustment Spread.
- (ii) No Adjustment Spread shall be applied to the Final Fallback Rate.

(d) *Benchmark Amendments*

- (i) If any Replacement Reference Rate and (if applicable) any Adjustment Spread is determined in accordance with this Condition 9.8 and the Issuer determines (acting reasonably and in good faith):
 - (A) that technical, operational and/or operational amendments, variations and/or modifications to these Terms and Conditions and/or the Applicable Pricing Supplement are necessary to ensure the proper operation of the applicable Replacement Reference Rate and/or the

applicable Adjustment Spread, including, without limitation, changes to:

- (I) the definition or determination of Interest Periods and/or Interest Determination Dates;
- (II) the timing and frequency of determining rates and making payments of interest;
- (III) rounding of amounts or tenors; and
- (IV) any other administrative provisions related to the calculation or application of interest,

to reflect the adoption of the applicable Replacement Reference Rate and/or the applicable Adjustment Spread in a manner substantially consistent with market practice (or, if the Issuer decides that adoption of any portion of such market practice is not administratively feasible or if the Issuer determines that no market practice for use of the applicable Replacement Reference Rate and/or the applicable Adjustment Spread exists, in such other manner as the Issuer determines is reasonably necessary) (such amendments, variations and/or modifications, the “**Benchmark Amendments**”); and

- (B) the terms of the Benchmark Amendments,

then the Issuer shall, subject to the Issuer having to give notice thereof to the Noteholders, the Calculation Agent and the Paying Agent in accordance with Condition 9.8(e) (*Notice and Implementation of Benchmark Replacement*), without any requirement for the consent or approval of Noteholders, the Calculation Agent or the Paying Agent amend, vary or modify these Terms and Conditions and/or the Applicable Pricing Supplement to give effect to such Benchmark Amendments with effect from the Benchmark Replacement Date.

- (ii) Any Benchmark Amendments shall constitute technical and/or administrative amendments for the purposes of Condition 21 (*Modification*) and the Issuer shall comply with:
 - (A) the requirements of Condition 21 (Modifications) in giving effect to such Benchmark Amendments; and
 - (B) if the Notes are for the time being listed or admitted to trading on any Financial Exchange, the listings requirements of such Financial Exchange applicable to such Benchmark Amendments.

(e) *Notice and Implementation of Benchmark Replacement*

- (i) The applicable Replacement Reference Rate, Adjustment Spread (if any) and Benchmark Amendments (if any) shall take effect on the Benchmark Replacement Date and after delivery of a Benchmark Replacement Notice in accordance with Condition 9.8(e)(ii).
- (ii) The Issuer shall deliver a written notice (the “**Benchmark Replacement Notice**”) to the Noteholders in accordance with Condition 19 (*Notices*), the Calculation Agent and the Paying Agent which Benchmark Replacement Notice shall:
 - (A) specify:

- (I) the Benchmark Event and its related Benchmark Event Date;

 - (II) the Replacement Reference Rate;
 - (III) the applicable Adjustment Spread (if any);
 - (IV) the terms of any Benchmark Amendments (if any); and
 - (V) the Benchmark Replacement Date,

in each case determined in accordance with this Condition 9.8 and certifying that such Benchmark Amendments are necessary to give effect to any application of this Condition 9.8.

- (iii) A Benchmark Replacement Notice shall be irrevocable.

(f) *Binding Determinations*

SCHEDULE 3

ADDITIONAL RISK FACTORS RELATING TO ZARONIA

The market continues to develop in relation to ZARONIA as a reference rate for Floating Rate Notes

Investors should be aware that the market continues to develop in relation to ZARONIA as a reference rate in the capital markets and its adoption as alternatives to JIBAR. In addition, market participants and relevant working groups are exploring alternative reference rates based on ZARONIA, including a term ZARONIA reference rate (which seeks to measure the market's forward expectation of an average ZARONIA rate over a designated term). The development of ZARONIA rates as interest reference rates for the South African bond market, as well as continued development of ZARONIA based rates for such market and the market infrastructure for adopting such rates, could result in reduced liquidity or increased volatility or could otherwise affect the market price of the Notes.

The use of ZARONIA as a reference rate for bonds in the South African capital markets continues to develop both in terms of the substance of the calculation and in the development and adoption of market infrastructure for the issuance and trading of bonds referencing ZARONIA.

The market or a significant part thereof may adopt an application of ZARONIA that differs significantly from that set out in the Terms and Conditions as applicable to the Notes. Furthermore, the Issuer may in future issue Notes referencing ZARONIA that differ materially in terms of interest determination when compared with the Notes. In addition, the manner of adoption or application of ZARONIA reference rates in the South African bond market may differ materially compared with the application and adoption of ZARONIA in other markets, such as the derivatives and loan markets. Noteholders should carefully consider how any mismatch between the adoption of ZARONIA reference rates across these markets may impact any hedging or other financial arrangements which they may put in place in connection with any acquisition, holding or disposal of Notes referencing ZARONIA.

ZARONIA differs from JIBAR in a number of material respects and has a limited history

ZARONIA differs from JIBAR in a number of material respects, including that ZARONIA is a backwards-looking, risk-free overnight rate, whereas JIBAR is expressed on the basis of a forward-looking term and includes a risk-element based on inter-bank lending. As such, investors should be aware that ZARONIA may behave materially differently as interest reference rates for the Notes, compared to JIBAR.

The future performance of ZARONIA may be difficult to predict based on the limited historical performance. The level of ZARONIA during the term of the Notes may bear little or no relation to the historical level of ZARONIA. Prior observed patterns, if any, in the behaviour of market variables and their relation to ZARONIA such as correlations, may change in the future.

Furthermore, the Interest Rate is only capable of being determined immediately prior to the relevant Interest Payment Date. It may be difficult for Noteholders to estimate reliably the amount of interest which will be payable on the Notes, and some investors may be unable or unwilling to trade such Notes without changes to their IT systems, both of which factors could adversely impact the liquidity of the Notes.

The administrator of ZARONIA may make changes that could change the value of ZARONIA or discontinue ZARONIA

The South African Reserve Bank (or its successor), as administrator of ZARONIA, may make methodological or other changes that could change the value of ZARONIA, including changes related to the method by which ZARONIA is calculated, eligibility criteria applicable to the transactions used to calculate ZARONIA, or timing related to the publication of ZARONIA. In addition, the administrator may alter, discontinue or suspend calculation or dissemination of ZARONIA (in which case a fallback method of determining the interest rate on the Notes will apply). The relevant administrator has no obligation to consider the interests of Noteholders when calculating, adjusting, converting, revising or discontinuing ZARONIA.
