SCHEDULE 1

SCREEN RATE DETERMINATION FOR FLOATING RATE NOTES REFERENCING COMPOUNDED DAILY ZARONIA

1. The Interest Rate payable from time to time in respect of the Notes for each Interest Period will, subject as provided below, be Compounded Daily ZARONIA (as defined below) for the relevant Interest Period plus the Margin (as specified in this Applicable Pricing Supplement), all as determined by the Calculation Agent in accordance with the provisions below, where:

Compounded Daily ZARONIA means, with respect to an Interest Period, the rate of return of a daily compound interest investment in ZAR (with daily ZAR overnight reference rate as reference rate for the calculation of interest) as calculated by the Calculation Agent on the relevant Interest Determination Date, in accordance with the following formula, and the resulting percentage will be rounded, if necessary, to the fourth decimal place, with 0.00005% being rounded upwards:

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{ZARONIA_{i-5 JBD} \times n_i}{D} \right) - 1 \right] \times \frac{365}{d}$$

where:

d is the number of calendar days in the relevant Interest Period;

***d*₀** is the number of Johannesburg Business Days in the relevant Interest Period;

D is the day count;

i is, in relation to any Interest Period, a series of whole numbers from 1 to ***d*₀**, each representing the relevant Johannesburg Business Day in chronological order from (and including) the first Johannesburg Business Day in the relevant Interest Period to (and including) the last Johannesburg Business Day in such Interest Period;

Johannesburg Business Day or **JBD** means a day (other than a Saturday, a Sunday or an official public holiday) on which commercial banks are open for general business in Johannesburg, South Africa;

n*_{*i*}**, for any Johannesburg Business Day "i***" in the relevant Interest Period, means the number of calendar days from and including such Johannesburg Business Day "***i***" up to but excluding the following Johannesburg Business Day;

For the avoidance of doubt, the formula for the calculation of Compounded Daily ZARONIA only compounds the ZARONIA Reference Rate in respect of any Johannesburg Business Day. The ZARONIA Reference Rate applied to a day that is not a Johannesburg Business Day will be taken by applying the ZARONIA Reference Rate for the previous Johannesburg Business Day;

Publication Time means at or about 10:00 a.m. (Johannesburg time) or any amended publication time for the final intraday refix of ZARONIA specified by the SARB, as the administrator of ZARONIA (or any successor administrator of ZARONIA);

ZARONIA_{i-5JBD} means, in respect of any Johannesburg Business Day “i” falling in the relevant Interest Period, the ZARONIA Reference Rate for the Johannesburg Business Day (being a Johannesburg Business Day falling in the relevant ZARONIA Observation Period) falling 5 (five) Johannesburg Business Days prior to the relevant Johannesburg Business Day “i”;

SARB means the South African Reserve Bank;

SARB’s Website means the website of the SARB currently at <http://www.resbank.co.za>, any successor website of the SARB (or a successor administrator of ZARONIA) or any successor source;

ZARONIA means the South African Overnight Index Average administered by the SARB (known as ZARONIA);

ZARONIA Observation Period means, in respect of the relevant Interest Period, the period from (and including) the date falling 5 (five) Johannesburg Business Days prior to the first day of such Interest Period (and the first Interest Period shall begin on (and include) the Interest Commencement Date) and ending on (but excluding) (a) the date falling 5 (five) Johannesburg Business Days prior to the Interest Payment Date for such Interest Period (and the last Interest Period shall end on (but exclude) the Redemption/Maturity Date), or (b) the date falling 5 (five) Johannesburg Business Days prior to such earlier date, if any, on which the Notes become due and payable; and

ZARONIA Reference Rate means, in respect of any Johannesburg Business Day, a reference rate equal to the daily ZARONIA rate for such Johannesburg Business Day as published by the SARB, as the administrator of ZARONIA (or any successor administrator of ZARONIA), on the SARB’s Website, in each case at the Publication Time on the Johannesburg Business Day immediately following such Johannesburg Business Day.

2. If, in respect of any Johannesburg Business Day in the relevant ZARONIA Observation Period, the ZARONIA Reference Rate is not available on the SARB’s Website, such ZARONIA Reference Rate shall be:
 - a. the daily ZARONIA rate last published on the SARB’s Website for the first preceding Johannesburg Business Day on which the ZARONIA rate was published on the SARB’s Website (the **Previous Day’s ZARONIA**); or
 - b. if Previous Day’s ZARONIA is not available, the sum of (i) the SARB Policy Rate prevailing at close of business on such Johannesburg Business Day, and (ii) the mean of the spread of the ZARONIA Reference Rate to the SARB Policy Rate over the previous 5 (five) Johannesburg Banking Days on which a ZARONIA Reference Rate has been published (after eliminating the highest such spread (or, in the event of equality, one of the highest) and the lowest such spread (or in the event of equality, one of the lowest)).

For the purposes of this paragraph **SARB Policy Rate** means, in respect of any relevant day (including any day “t”), the repo rate (or any successor rate) which is the main policy rate of the SARB as determined and set by the monetary policy committee of the SARB and published by the SARB from time to time, in effect on that day.

3. In the event that the Interest Rate cannot be determined in accordance with the foregoing provisions of this Schedule 1, the Interest Rate shall be:
 - a. that determined as at the last preceding Interest Determination Date (though substituting, where a different Margin or Maximum Interest Rate or Minimum Interest Rate is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin or Maximum Interest Rate or Minimum Interest Rate relating to the relevant Interest Period, in place of the Margin or Maximum Interest Rate or Minimum Interest Rate relating to that last preceding Interest Period); or
 - b. if there is no such preceding Interest Determination Date, the initial Interest Rate which would have been applicable to such Series of Notes for the first Interest Period had the Notes been in issue for a period equal in duration to the scheduled first Interest Period but ending on (and excluding) the Interest Commencement Date (but applying the Margin and any Maximum Interest Rate or Minimum Interest Rate applicable to the first Interest Period).
4. If the relevant Series of Notes become due and payable in accordance with Condition 11 (*Redemption and Purchase*) or Condition 17 (*Events of Default*), the final Interest Determination Date shall, notwithstanding any Interest Determination Date specified in the Applicable Pricing Supplement, be deemed to be the date on which such Notes became due and payable and the Interest Rate on such Notes shall, for so long as any such Note remains outstanding, be that determined on such date.
