## SCHEDULE 1

### ADDITIONAL TERMS AND CONDITIONS OF THE NOTES

The following are additional Terms and Conditions (the **Additional Terms and Conditions**) in respect of the RES87 Notes (the **Notes**) which will be incorporated by reference into each Note of this Series.

#### 1. SCREEN RATE DETERMINATION FOR FLOATING RATE NOTES REFERENCING COMPOUNDED DAILY ZARONIA (LOOKBACK WITHOUT OBSERVATION SHIFT)

- 1.1 The Interest Rate payable from time to time in respect of the Notes for each Interest Period will, subject as provided below, be Compounded Daily ZARONIA (as defined below) for the relevant Interest Period plus the Margin (as specified in this Applicable Pricing Supplement), all as determined by the Calculation Agent in accordance with the provisions below, where:

**Compounded Daily ZARONIA** means, with respect to an Interest Period, the rate of return of a daily compound interest investment in ZAR (with ZARONIA as the Reference Rate for the calculation of interest) as calculated by the Calculation Agent (or such other party responsible for the calculation of the Interest Rate, as specified in this Applicable Pricing Supplement) on the relevant Interest Rate Determination Date, in accordance with the following formula, and the resulting percentage will be rounded, if necessary, to the Relevant Decimal Place:

$$\left[ \prod_{i=1}^{d_0} \left( 1 + \frac{\text{Relevant ZARONIA}_{i-5\text{JBD}} \times n_i}{365} \right) - 1 \right] \times \frac{365}{d}$$

where:

**d** is, in relation to any Interest Period, the number of calendar days in such Interest Period;

**d<sub>0</sub>** is, in relation to any Interest Period, the number of Johannesburg Business Days in such Interest Period;

**i** is, in relation to any Interest Period, a series of whole numbers from one to d<sub>0</sub>, each representing the relevant Johannesburg Business Day in chronological order from, and including, the first Johannesburg Business Day in such Interest Period;

**Johannesburg Business Day or JBD** means a day (other than a Saturday, a Sunday or an official public holiday) on which commercial banks are open for general business in Johannesburg, South Africa;

**n<sub>i</sub>**, for any Johannesburg Business Day "i" in the relevant Interest Period, means the number of calendar days from and including such Johannesburg Business Day "i" up to but excluding the following Johannesburg Business Day;

**Observation Lookback Period** means the period specified as such in this Applicable Pricing Supplement;

**Publication Time** means at or about 10.00 a.m. (Johannesburg time) or any amended publication time for the final intraday refix of ZARONIA specified by the SARB, as the administrator of ZARONIA (or any successor administrator of ZARONIA);

**Relevant Decimal Place** shall be the number of decimal places specified in this Applicable Pricing Supplement and will be rounded up or down, if necessary (with half of the highest decimal place being rounded upwards) (or, if no such number is specified, it shall be 5 (five));

**Relevant ZARONIA<sub>i-5JBD</sub>** means, in respect of any Johannesburg Business Day i falling in the relevant Interest Period, the ZARONIA Reference Rate for the Johannesburg Business Day (being a Johannesburg Business Day falling in the relevant ZARONIA Observation Period) falling 5 (five) Johannesburg Business Days prior to the relevant Johannesburg Business Day i;

**SARB** means the South African Reserve Bank;

**SARB's Website** means the website of the SARB currently at <http://www.resbank.co.za>, or any successor page or website of the SARB (or a successor administrator of ZARONIA) or any successor source;

**ZARONIA** means the South African Rand Overnight Index Average administered by the SARB (known as ZARONIA);

**ZARONIA Observation Period** means, in respect of the relevant Interest Period, the period from (and including) the date falling 5 (five) Johannesburg Business Days prior to the first day of such Interest Period (and the first Interest Period shall begin on (and include) the Interest

Commencement Date) and ending on (but excluding) (a) the date falling 5 (five) Johannesburg Business Days prior to the Interest Payment Date for such Interest Period (and the last Interest Period shall end on (but exclude) the Maturity Date), or (b) the date falling 5 (five) Johannesburg Business Days prior to such earlier date, if any, on which the Notes become due and payable; and

**ZARONIA Reference Rate** means, in respect of any Johannesburg Business Day, a reference rate equal to the daily ZARONIA rate for such Johannesburg Business Day as provided by the SARB, as the administrator of ZARONIA (or any successor administrator of ZARONIA) to authorised distributors and as then published on the Relevant Screen Page or, if the Relevant Screen Page is not specified or is unavailable at the Publication Time, as otherwise published by such authorised distributors or, if such daily ZARONIA rate cannot be obtained from such authorised distributors, as published on the SARB's Website, on the Johannesburg Business Day immediately following such Johannesburg Business Day.

For the avoidance of doubt, the formula for the calculation of Compounded Daily ZARONIA only compounds the ZARONIA Reference Rate in respect of any Johannesburg Business Day. The ZARONIA Reference Rate applied to a day that is not a Johannesburg Business Day will be taken by applying the ZARONIA Reference Rate for the previous Johannesburg Business Day.

- 1.2 If, in respect of any Johannesburg Business Day in the relevant ZARONIA Observation Period, the ZARONIA Reference Rate is not available on the Relevant Screen Page, has not otherwise been published by the relevant authorised distributors or is not published on the SARB's Website, such ZARONIA Reference Rate shall be:
  - 1.2.1 the daily ZARONIA rate last published on the SARB's Website the ZARONIA Reference Rate published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors) for the first preceding Johannesburg Business Day on which the ZARONIA Reference Rate was published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors) (the **Historic ZARONIA Reference Rate**); or
  - 1.2.2 if the Historic ZARONIA Reference Rate is not available, the sum of (i) the SARB Policy Rate prevailing at close of business on the relevant Johannesburg Business Day, and ii) the mean of the spread of the ZARONIA Reference Rate to the SARB Policy Rate over the previous 5 (five) Johannesburg Business Days on which a ZARONIA Reference Rate has been published (after eliminating the highest such spread (or, in the event of equality, one of the highest) and the lowest such spread (or in the event of equality, one of the lowest)).
- 1.3 For the purposes of paragraph 1.2, **SARB Policy Rate** means, in respect of any relevant day (including any day "i"), the repo rate (or any successor rate) which is the main policy rate of the SARB as determined and set by the monetary policy committee of the SARB and published by the SARB from time to time, in effect on that day.
- 1.4 In the event that the Interest Rate cannot be determined in accordance with the foregoing provisions of this Schedule 1 (*Screen Rate Determination for Floating Rate Notes Referencing Compounded Daily ZARONIA (Lookback Without Observation Shift)*), the Interest Rate shall be:
  - 1.4.1 that determined as at the last preceding Interest Rate Determination Date (though substituting, where a different Margin or Maximum Rate of Interest or Minimum Rate of Interest is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin or Maximum Rate of Interest or Minimum Rate of Interest relating to the relevant Interest Period, in place of the Margin or Maximum Rate of Interest or Minimum Rate of Interest relating to that last preceding Interest Period); or
  - 1.4.2 if there is no such preceding Interest Rate Determination Date, the initial Interest Rate which would have been applicable to such Series of Notes for the first Interest Period had the Notes been in issue for a period equal in duration to the scheduled first Interest Period but ending on (and excluding) the Interest Commencement Date (but applying the Margin and any Maximum Rate of Interest or Minimum Rate of Interest applicable to the first Interest Period).
- 1.5 If the relevant Series of Notes become due and payable in accordance with Condition 10 (*Redemption and Purchase*) or Condition 17 (*Events of Default*), the final Interest Rate Determination Date shall, notwithstanding any Interest Rate Determination Date specified in this Applicable Pricing Supplement, be deemed to be the date on which such Notes became due and payable and the Interest Rate on such Notes shall, for so long as any such Note remains outstanding, be that determined on such date.

**SCHEDULE 2**  
**ADDITIONAL RISK FACTORS RELATING TO ZARONIA**

**The market continues to develop in relation to ZARONIA as a reference rate for Floating Rate Notes**

Investors should be aware that the market continues to develop in relation to ZARONIA as a reference rate in the capital markets and its adoption as alternatives to ZAR-JIBAR-SAFEX. In addition, market participants and relevant working groups are exploring alternative reference rates based on ZARONIA, including a term ZARONIA reference rate (which seeks to measure the market's forward expectation of an average ZARONIA rate over a designated term). The development of ZARONIA rates as interest reference rates for the South African bond market, as well as continued development of ZARONIA based rates for such market and the market infrastructure for adopting such rates, could result in reduced liquidity or increased volatility or could otherwise affect the market price of the Notes.

The use of ZARONIA as a reference rate for bonds in the South African capital markets continues to develop both in terms of the substance of the calculation and in the development and adoption of market infrastructure for the issuance and trading of bonds referencing ZARONIA.

The market or a significant part thereof may adopt an application of ZARONIA that differs significantly from that set out in the Terms and Conditions as applicable to the Notes. Furthermore, the Issuer may in future issue Notes referencing ZARONIA that differ materially in terms of interest determination when compared with the Notes. In addition, the manner of adoption or application of ZARONIA reference rates in the South African bond market may differ materially compared with the application and adoption of ZARONIA in other markets, such as the derivatives and loan markets. Noteholders should carefully consider how any mismatch between the adoption of ZARONIA reference rates across these markets may impact any hedging or other financial arrangements which they may put in place in connection with any acquisition, holding or disposal of Notes referencing ZARONIA.

***ZARONIA differs from ZAR-JIBAR-SAFEX in a number of material respects and has a limited history***

ZARONIA differs from ZAR-JIBAR-SAFEX in a number of material respects, including that ZARONIA is a backwards-looking, risk-free overnight rate, whereas ZAR-JIBAR-SAFEX is expressed on the basis of a forward-looking term and includes a risk-element based on inter-bank lending. As such, investors should be aware that ZARONIA may behave materially differently as interest reference rates for the Notes, compared to ZAR-JIBAR-SAFEX.

The future performance of ZARONIA may be difficult to predict based on the limited historical performance. The level of ZARONIA during the term of the Notes may bear little or no relation to the historical level of ZARONIA. Prior observed patterns, if any, in the behaviour of market variables and their relation to ZARONIA such as correlations, may change in the future.

Furthermore, the Interest Rate is only capable of being determined immediately prior to the relevant Interest Payment Date. It may be difficult for Noteholders to estimate reliably the amount of interest which will be payable on the Notes, and some investors may be unable or unwilling to trade such Notes without changes to their IT systems, both of which factors could adversely impact the liquidity of the Notes.

***The administrator of ZARONIA may make changes that could change the value of ZARONIA or discontinue ZARONIA***

The SARB (or its successor), as administrator of ZARONIA, may make methodological or other changes that could change the value of ZARONIA, including changes related to the method by which ZARONIA is calculated, eligibility criteria applicable to the transactions used to calculate ZARONIA, or timing related to the publication of ZARONIA. In addition, the administrator may alter, discontinue or suspend calculation or dissemination of ZARONIA (in which case a fallback method of determining the interest rate on the Notes will apply). The relevant administrator has no obligation to consider the interests of Noteholders when calculating, adjusting, converting, revising or discontinuing ZARONIA.
