warrants and confirms that it has obtained any necessary approvals from the SARB to hold these Notes and acknowledges and agrees that it is solely responsible for maintaining any such approvals, satisfying any conditions imposed in terms of such approvals and for fulfilling any relevant reporting requirements. Exchange control approval has been granted to the Issuer for the inward listing of these Notes.

85. Other provisions

Applicable

85.1 Optional Early Redemption Trigger

If at any time on any day prior to the redemption of these Notes, the Calculation Agent determines that the Unwind Value of a Note would be less than 48% (the “**Trigger Level**”) of the Nominal Amount thereof, the Issuer may elect, in its sole and absolute discretion, regardless of whether or not such Unwind Value is still below the Trigger Level at the relevant time on the date on which the Notes are to be redeemed, to redeem the Notes early in accordance with the provisions of Condition 7.3 (read with paragraph 57 above) by delivering the Optional Redemption Notice.

85.2 Additional Risk Factors

Any Unwind Value, Early Redemption Amount, Cash Settlement Amount, Entitlement or Partial Cash Settlement Amount may be calculated by reference to Obligations of the Reference Entity or instruments referencing Obligations of the Reference Entity with a principal or notional amount equal to the Reference Currency Notional (as defined in 85.3.2 below). For the purposes of determining any Unwind Value, Cash Settlement Amount, Early Redemption Amount or the Partial Cash Settlement Amount, any amount denominated in the Reference Currency will be converted into the Settlement Currency at the then prevailing exchange rate between such currencies, as determined by the Calculation Agent.

As such, Noteholders may be exposed not only to credit risk of the Reference Entity and the Issuer, but also to the performance of the Reference Currency relative to the Settlement Currency, which cannot be predicted. Noteholders should be aware that foreign exchange rates are, and have been, highly volatile and determined by supply and demand for currencies in the international foreign exchange markets, which are subject to economic factors, including inflation rates in the countries concerned, interest rate

differences between the respective countries, economic forecasts, international political factors, currency convertibility and safety of making financial investments in the currency concerned, speculation and measures taken by governments and central banks (e.g., imposition of regulatory controls or taxes, issuance of a new currency to replace an existing currency, alteration of the exchange rate or exchange characteristics by devaluation or revaluation of a currency or imposition of exchange controls with respect to the exchange or transfer of a specified currency that would affect exchange rates and the availability of a specified currency).

The Optional Early Redemption Trigger references the Unwind Value, which may, in certain market conditions, be volatile. It may therefore occur that at the time that the Optional Early Redemption Trigger is exercised market conditions have changed, or market conditions change shortly thereafter, such that the Unwind Value would no longer have been below the Trigger Level.

The Trigger Level of these Notes has been inserted for the benefit of the Issuer and accordingly is not intended to be an implied guarantee or assurance of a minimum return on the Notes, nor is the Issuer under any obligation to exercise its right to redeem the Notes early in the event that the Trigger Level is breached. Accordingly, any Optional Redemption Amount, Early Redemption Amount or Partial Cash Settlement Amount payable or Entitlement that may be received in respect of the Notes may be less than 48% of the Nominal Amount. The determination of whether or not the Trigger Level has been breached is based on the Calculation Agent's estimates of the Unwind Value, and accordingly the Optional Redemption Amount payable to Noteholders following delivery of the Optional Redemption Notice or any Cash Settlement Amount or Partial Cash Settlement Amount payable or any Entitlement that may be received following the occurrence of a Credit Event Determination Date may differ from such estimates. In addition, due to the volatility of the Underlying Components, the Unwind Value may fluctuate between the time at which the Trigger Level is first breached and the date on which the Notes are to be redeemed in terms of Condition 7.3, if applicable, which may result in an Optional

Redemption Amount lower than 48% of the Nominal Amount of the Notes.

85.3 Additional Definitions:

85.3.1	Reference Currency	USD
85.3.2	Reference Currency Notional	USD7,560,000
85.3.3	Settlement Currency	ZAR
85.3.4	Settlement Currency Equivalent	Means, in respect of any amount denominated in the Settlement Currency, such Settlement Currency amount and in respect of any amount denominated in a currency other than the Settlement Currency (the “ Other Currency ”), the amount of the Other Currency converted into the Settlement Currency at the spot rate of exchange (as determined by the Calculation Agent in its sole discretion) as at the date on which the Settlement Currency Equivalent is required to be determined, or in such other commercially reasonable manner as the Calculation Agent shall determine.
85.3.5	Unwind Value	Means on any day, in respect of each Note, an amount calculated in ZAR as determined by the Calculation Agent in its sole discretion equal to: (A) the sum of the Settlement Currency Equivalent value of each of the Underlying Components (as defined below) of the Notes on such day, determined by the Calculation Agent in its sole discretion, acting in a commercially reasonable manner, which may be either positive or negative minus any Trigger Unwind Costs, where applicable (as defined below), multiplied by (B) a fraction equal to the Specified Denomination of such Note divided by the Calculation Amount.
85.3.6	Underlying Components	Means any instrument(s) held or transactions entered into by the Issuer in its sole discretion in order to hedge its obligations to the Noteholder under these Notes. Where applicable, the underlying transactions set out above will be subject to the terms of the 2002 ISDA Master Agreement as

published by the International Swaps and Derivatives Association, Inc. (including a Schedule thereto) concluded on the Issuer's standard terms. Unless otherwise indicated, capitalised terms used and not otherwise defined in this paragraph 85.3.6 will have the meaning assigned thereto in the 2014 ISDA Credit Derivative Definitions, as published by the International Swaps and Derivatives Association, Inc.

85.3.7 Trigger Unwind Costs

Means an amount determined by the Calculation Agent equal to the sum of (without duplication) all costs, expenses (including loss of funding), tax and duties which are or would be incurred by the Issuer or gains, including funding benefits, actually realised by the Issuer, in which case expressed as a negative number, in connection with the redemption of the Notes and the related unwind, termination, settlement, amendment or reestablishment of any hedge or related trading position (which for the avoidance of doubt may include, but shall not be limited to, instruments of the type referred to in paragraph 85.3.6 above), provided that on any day on which the Unwind Value is required to be determined where the Notes are not being redeemed on such day or in relation to any hypothetical swaps or instruments, the Trigger Unwind Costs will be determined based on the Calculation Agent's estimate of what such costs, expenses, losses, taxes, duties or gains would be if the Notes were to be redeemed on such day and assuming that the relevant hedges or related trading positions would be unwound, terminated, settled, amended or re-established, as the case may be.

85.3.8 Cash Settlement Amount

For the purposes of Auction Settlement, "Cash Settlement Amount" means an amount calculated by the Calculation Agent equal to:

$$(N - (A \times B) - C) \times D$$

where:

N is the Aggregate Nominal Amount;

A is the Settlement Currency Equivalent of an amount equal to the Reference Currency Notional as at the date on which the Auction Final Price is published;

B is one minus the Auction Final Price;

C is Unwind Costs; and

D is a fraction equal to the Specified Denomination of each Note divided by the Calculation Amount.

85.3.9 Entitlement

Means in respect of each nominal amount of Notes equal to the Nominal Amount, Deliverable Obligations, as selected by the Issuer, with:

(a) in the case of Deliverable Obligations that are Borrowed Money, an Outstanding Principal Balance; or

(b) in the case of Deliverable Obligations that are not Borrowed Money, a Due and Payable Amount,

in an aggregate amount as of the relevant Delivery Date with a face value equal to the Reference Currency Notional or if the relevant Deliverable Obligations are not denominated in the Reference Currency, the Reference Currency Equivalent of the Reference Currency Notional, less, (i) if Unwind Costs are specified as applying in the Applicable Pricing Supplement and are positive, Deliverable Obligations with a market value determined by the Calculation Agent on the Business Day selected by the Calculation Agent falling during the period from and including the Credit Event Determination Date to and including the Delivery Date equal to a pro rata share of Unwind Costs and (ii) less, if the Noteholder has instructed that Delivery Expenses be deducted in the calculation of the Entitlement in the Asset Transfer Notice or if the Noteholder has not paid the Delivery Expenses on or prior to the Delivery Expenses Cut-off Date as provided in Credit Linked Condition 4 (Physical Settlement) above, Deliverable Obligations with a market value determined by the Calculation Agent on the Business Day selected by the Calculation Agent falling during the period from 18 and including the Credit Event Determination Date to and including the Delivery Date equal to Delivery Expenses.

85.3.10 Reference Currency Equivalent

Means, in respect of Deliverable Obligations denominated in a currency other than the Reference Currency (the “**Second Currency**”), an amount of the Second Currency converted to the Reference Currency at the spot rate of exchange (as determined by the Calculation Agent in its sole discretion) as at the relevant date on which any such calculation is required to be made in accordance with the provisions of any hedge or related trading position relating to these Notes, or in such other commercially reasonable manner as the Calculation Agent shall determine.

- 85.4 Index Adjustment, Modification or Cancellation
- If (i) on or prior to the End Date the JSE or any successor announces that it will make a material change in the formula for or the method of calculating the Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that index in the event of changes in constituent stock and capitalisation and other routine events) or (ii) on or prior to the End Date the JSE or any successor announces that it will permanently cancel the Index or (iii) on the End Date (as defined in paragraph 26 above) the JSE fails to calculate and announce the Index ((i), (ii) and (iii) each referred to as an “**Index Adjustment Event**”), then the Calculation Agent shall be entitled to, as it may determine in its sole discretion, either (a) unwind the Notes at the Unwind Value or (b) calculate the Index final using, in lieu of a published level for that Index, the level for that Index as at the End Date as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to the change, failure or cancellation, but using only those securities that comprised the Index immediately prior to that Index Adjustment Event.

Application is hereby made to list this issue of Notes on the JSE as from 11 August 2026.
