FURTHER RISK DISCLOSURE

On 22 October 2009, Anglo American plc ("**Anglo American**") announced a number of changes across its business to create a more streamlined management structure and further focus the Group on its core mining portfolio.

Seven commodity business units ("**Bus**") were created, with management located in the area of the core geographic focus for the BU. These are:

- Platinum (*South Africa*): CEO Neville Nicolau
- Copper (*Chile*): CEO John MacKenzie
- Nickel (*Brazil*): CEO Walter De Simoni
- Metallurgical Coal (*Australia*): CEO Seamus French
- Thermal Coal (*South Africa*): CEO Norman Mbazima
- Kumba Iron Ore (*South Africa*): CEO Chris Griffith
- Iron Ore Brazil (*Brazil*): CEO Stephan Weber

Five Group Directors, based in London, will be responsible for corporate functions, as well as providing strategic support to the Bus. They are:

- René Médori, Group Finance Director (who continues as a member of the Board)
- Brian Beamish, Group Director Mining & Technology
- David Weston, Group Director Business Performance & Projects
- Mervyn Walker, Group Director HR & Communications
- Peter Whitcutt, Group Director Strategy & Business Development

Anglo American has determined that the following assets will be divested: Scaw Metals, Copebrás, Catalão, Peace River Coal, Carbones Del Guasare and the Group's portfolio of zinc assets. Together with Tarmac, which has previously been identified as non-core, these assets accounted for approximately 13% of 2009 Group EBITDA.

Anglo American's forecast attributable share of the post acquisition capital expenditure, for the first phase of the Minas Rio project, has increased from \$2.7billion to \$3.8 billion owing to scoping changes at the mine, pipeline and port, as well as foreign exchange movements.

In February 2010, the Group announced its commitment to take up its full allocation of shares under the rights offer announced by Anglo Platinum. Anglo Platinum raised R12,4 billion through the rights offer, of which the Group's share of 79.7% was R9.8 billion. The Group agreed to underwrite the minority portion of the rights offer which was successfully completed at the end of March 2010 with the minority shareholders oversubscribing by almost 3 times.

Subsequent to 31 December 2009 De Beers announced a \$1 billion rights issue. The Anglo American Group subscribed for additional equity in proportion to its

current shareholding and contributed \$450 million. The De Beers SA contribution amounted to R17.8 million.

On 26 February 2010, Kumba Iron Ore Limited issued an announcement indicating that its subsidiary, the Sishen Iron Ore Company (Pty) Ltd ("**SIOC**"), had notified ArcelorMittal South Africa Limited ("**Mittal**") on 5 February 2010, that, as Mittal had failed to convert its 21.4% undivided share in the old order mining rights which it held in relation to the Sishen mine in terms of the Mineral and Petroleum Resources Development Act ("**MPRDA**"), Mittal was no longer entitled to receive iron ore from the Sishen mine on a cost plus 3% basis. SIOC, however, tendered to supply iron ore to Mittal on commercial terms.

On 26 February 2010 Mittal advised SIOC that it had declared a dispute in response to SIOC's notification. On Monday 19 April, SIOC served its statement of claim on Mittal in order to progress the arbitration process.

While SIOC has applied for the residual 21.4% mining right previously held by Mittal, it should be noted that a prospecting right over the 21.4% interest has been granted by the Department of Mineral Resources to a third party. SIOC has lodged an appeal against the grant of the prospecting right and Kumba is currently engaged in discussions with the Department of Mineral Resources in relation to the 21.4% residual right in respect of the Sishen mine.

The effect of these developments cannot be quantified with certainty at present, but may have a material impact on Kumba's share price.

In April 2010 Chilean legislators introduced a proposal to the national Congress to revise the country's copper reserve law to finance reconstruction following February's earthquake. Legislators have proposed an increase in royalties paid by copper mining companies in exchange for other tax incentives. Separately, the Australian government made an announcement on Sunday 2 May 2010 in respect of Australia's tax system, which includes a recommendation on mining taxation.

Subsequent to the release of the 2009 Annual results, on 22 April, the Group released an Interim Management Statement and Production report of the first quarter ended 31 March 2010. This information is available for review at: <http://www.investegate.co.uk/Article.aspx?id=201004220700085898K>
