Custom Index Description

The Cadiz Dynamic Global Opportunities ER Index (the “**Custom Index**”) is a multi-asset basket index dynamic which is sponsored by BNP Paribas. The Custom Index aims to reflect a value (assuming reinvestment of all dividends and distributions) that is based on the performance of a monthly rebalanced diversified portfolio. The Custom Index uses a method whereby weights are recalculated every month so as to target the highest possible return that matches the volatility objective, based on the behaviour of the individual assets classes over a preceding reference period. The Index Calculation Agent calculates and may make such adjustments to the Custom Index as may be required in accordance with the Custom Index methodology and the rules governing the Custom Index.

The reference indices and reference rates (the “**Reference Assets**”) comprised in the Custom Index as of the Launch Date (as defined below), together with their minimum and maximum weightings in the Custom Index, are as follows:

	Reference Assets	Ccy	Min weight	Max weight	Max weight change

The Custom Index is calculated and published on a daily basis by the Index Calculation Agent. The Custom Index is not unitised and is expressed in ‘*basis points*’ with an initial value being set at 100 based on historical backtesting as of 4 January 1995 (the “**Launch Date**”). The Custom Index currency is expressed in EUR with the conversion of Reference Assets not denominated in EUR being converted on the basis of the foreign exchange fixing rate as published on Reuters page WMRSPOT as determined by the Index Calculation Agent or as ascertained from any other source as the Index Calculation Agent may deem appropriate.

The Index Sponsor will ensure the publication of the levels of the Custom Index, which shall be published by the Index Calculation Agent on Bloomberg page BNPICGOE or on any other data provider as the Index Sponsor deems appropriate.
