Exchange control approval has been granted to the Issuer for the listing of the debt securities.</p>
85.	Other provisions			
85.1	Optional Trigger	Early Redemption		<p>If the Calculation Agent determines –</p> <ul style="list-style-type: none"> (i) at any time on any day prior to the redemption of these Notes, that the Unwind Value of the Notes would be less than 46.5% (the “Trigger Level”) of the Nominal Amount thereof, or (ii) at any time on any day from and including, 23 September 2023, that the Reference Entity has given notice under the terms and conditions of the Reference Obligation to redeem the Reference Obligation in whole or in part for any reason at any time prior to the scheduled redemption date thereof, <p>the Issuer may elect, in its sole and absolute discretion, (and in the case of (i) above, regardless of whether or not such Unwind Value is still below the Trigger Level at the relevant time or on the date on which the Notes are to be redeemed), to redeem the Notes early in accordance with the provisions of Condition 7.3 (read with paragraph 57 above) by delivering the Optional Redemption Notice.</p>
85.2	Additional Risk Factors			<p>Any Unwind Value, Early Redemption Amount or Cash Settlement Amount may be calculated by reference to Obligations of the Reference Entity or instruments referencing Obligations of the Reference</p>

Entity with a principal or notional amount equal to the Reference Currency Notional (as defined in 85.3.6 below). For the purposes of determining any Unwind Value, Cash Settlement Amount or Early Redemption Amount, any amount denominated in the Reference Currency will be converted into the Settlement Currency at the then prevailing exchange rate between such currencies, as determined by the Calculation Agent.

As such, Noteholders may be exposed not only to credit risk of the Reference Entity and the Issuer, but also to the performance of the Reference Currency relative to the Settlement Currency, which cannot be predicted. Noteholders should be aware that foreign exchange rates are, and have been, highly volatile and determined by supply and demand for currencies in the international foreign exchange markets, which are subject to economic factors, including inflation rates in the countries concerned, interest rate differences between the respective countries, economic forecasts, international political factors, currency convertibility and safety of making financial investments in the currency concerned, speculation and measures taken by governments and central banks (e.g., imposition of regulatory controls or taxes, issuance of a new currency to replace an existing currency, alteration of the exchange rate or exchange characteristics by devaluation or revaluation of a currency or imposition of exchange controls with respect to the exchange or transfer of a specified currency that would affect exchange rates and the availability of a specified currency).

The Optional Early Redemption Trigger references the Unwind Value, which may, in certain market conditions, be volatile. It may therefore occur that at the time that the Optional Early Redemption Trigger is exercised market conditions have changed, or market conditions change shortly thereafter, such that the Unwind Value would no longer have been below the Trigger Level.

The Trigger Level of these Notes has been inserted for the benefit of the Issuer and accordingly is not intended to be an implied guarantee or assurance of a minimum return on the Notes, nor is the Issuer under any obligation to exercise its right to redeem the Notes early in the event that the Trigger Level is breached. Accordingly, any Optional Redemption Amount, Early Redemption Amount or Cash Settlement Amount payable in respect of the Notes may be less than 46.5% of the Nominal Amount. The determination of whether

or not the Trigger Level has been breached is based on the Calculation Agent's estimates of the Unwind Value, and accordingly the Optional Redemption Amount payable to Noteholders following delivery of the Optional Redemption Notice or any Cash Settlement Amount payable following the occurrence of a Credit Event Determination Date may differ from such estimates. In addition, due to the volatility of the Underlying Components, the Unwind Value may fluctuate between the time at which the Trigger Level is first breached and the date on which the Notes are to be redeemed in terms of Condition 7.3, if applicable, which may result in an Optional Redemption Amount lower than 46.5% of the Nominal Amount of the Notes.

85.3 Additional Definitions:

85.3.1 Unwind Value

Means on any day, in respect of each Note, an amount calculated by the Calculation Agent in its sole discretion equal to:

- (A) the sum of the Settlement Currency Equivalents of the value of each of the Underlying Components of the Notes (as defined below) on such day, determined by the Calculation Agent in its sole discretion, acting in a commercially reasonable manner, which may be either positive or negative minus any Trigger Unwind Costs (as defined below),

multiplied by

- (B) a fraction equal to the Specified Denomination of such Note divided by the Calculation Amount.

In making any determination of the Unwind Value, the Calculation Agent may take into consideration any firm bids provided by the Noteholders for the Underlying Bonds (as defined in paragraph 85.3.3)

85.3.2 Underlying Components

Means each of the components determined by the Issuer in its sole discretion which make up these Notes, including but not limited to:

- (i) a hypothetical ZAR term floating rate deposit made with the Issuer on or about the Trade Date with inter alia the following terms: (i) the effective date of the deposit is the same as the Issue Date of these Notes; (ii) the amount of the deposit is equal to the Aggregate Nominal Amount of these Notes and (iii) the repayment date of the deposit is the same as the Scheduled Maturity Date of these Notes;

- (ii) a hypothetical total return swap transaction concluded between the Issuer and the Noteholder, in terms of which the Issuer would be paying to the Noteholder amounts equal to any amount received by the Issuer during the relevant interest period in respect of the Reference Obligation with a nominal amount equal to the Reference Currency Notional, including amounts of interest and any capital gains, and the Noteholder would be paying to the Issuer interest amounts on a quarterly basis determined with reference to the Issuer's cost of funding a holding of the Reference Obligation with a nominal amount equal to the Reference Currency Notional; and/or
- (iii) a series of hypothetical forward exchange transactions, deemed to have been concluded on the Issue Date, in terms of each of which the Issuer will be purchasing an amount of USD against the sale by it of an equivalent amount of ZAR determined with reference to the applicable hypothetical forward exchange rate, with the date of settlement of each such forward exchange transaction corresponding with an Interest Payment Date of these Notes;
- (iv) a hypothetical interest rate swap transaction, in terms of which the Noteholder would be paying to the Issuer amounts denominated in USD on a semi annual basis, calculated at a fixed rate on the Reference Currency Notional and the Issuer would be paying to the Noteholder amounts denominated in USD on a quarterly basis calculated at a floating rate on the Reference Currency Notional;
- (v) any other instruments held or transactions entered into by the Issuer in its sole discretion in order to hedge its obligations to the Noteholder under these Notes.

Where applicable, the underlying transactions set out above will be subject to the terms of the 2002 ISDA Master Agreement as published by the International Swaps and Derivatives Association, Inc. (including a Schedule thereto) concluded on the Issuer's standard terms. Unless otherwise indicated, capitalised terms used and not otherwise defined in this paragraph 85 will have the meaning assigned thereto in the 2006 ISDA Definitions, the 1998 FX and Currency Option Definitions and the 2014 ISDA Credit Derivative Definitions, each as published by the International

	Swaps and Derivatives Association, Inc, as the case may be.
85.3.3 Underlying Bonds	Means Reference Obligations with a nominal amount of USD13,550,000.
85.3.4 Trigger Unwind Costs	Means an amount determined by the Calculation Agent equal to the sum of (without duplication) all costs, expenses (including loss of funding), tax and duties which are or would be incurred by the Issuer or gains, including funding benefits, actually realised by the Issuer, in which case expressed as a negative number, in connection with the redemption of the Notes and the related unwind, termination, settlement, amendment or reestablishment of any hedge or related trading position (which for the avoidance of doubt may include, but shall not be limited to, instruments of the type referred to in paragraph 85.3.2 above), provided that on any day on which the Unwind Value is required to be determined where the Notes are not being redeemed on such day or in relation to any hypothetical swaps or instruments, the Trigger Unwind Costs will be determined based on the Calculation Agent's estimate of what such costs, expenses, losses, taxes, duties or gains would be if the Notes were to be redeemed on such day and assuming that the relevant hedges or related trading positions would be unwound, terminated, settled, amended or re-established, as the case may be.
85.3.5 Reference Currency:	USD
85.3.6 Reference Currency Notional:	USD13,550,000
85.3.7 Settlement Currency Equivalent:	Means, in respect of any amount denominated in the Settlement Currency, such Settlement Currency amount and in respect of any amount denominated in a currency other than the Settlement Currency (the " Other Currency "), the amount of the Other Currency converted into the Settlement Currency at the spot rate of exchange (as determined by the Calculation Agent in its sole discretion) as at the date on which the Settlement Currency Equivalent is required to be determined, or in such other commercially reasonable manner as the Calculation Agent shall determine.

This Pricing Supplement may be signed in counterparts and each signed copy will together constitute one document.

Application is hereby made to list this issue of Notes on the JSE as from 27 September 2021.
