CPI Index means the weighted average of the Consumer Price Index as published by Statistics South Africa, which is referred to as “Headline CPI - All Urban Areas (Primary and Secondary)” “in statistical release P0141 or such substituted index as may be determined by the Calculation Agent

Reference CPI means the CPI Index for the fourth calendar month preceding the calendar month in which the applicable Payment Date occurs, where the applicable Payment Date is the first day of any calendar month. If the applicable Payment Date occurs on a day other than the first day of a calendar month then the Reference CPI shall be determined in accordance with the following formula:

$$\text{Ref.CPI} = \text{Ref. CPI}_j + [(t - 1) / D] \times (\text{Ref. CPI}_{j+1} - \text{Ref. CPI}_j)$$

Where:

(a) **Ref.CPI_j** is the Reference CPI for the first day of the calendar month which shall be the CPI

Index for the fourth calendar month preceding the calendar month in which the applicable Interest Payment Date occurs;

(b) **Ref.CPI_{j+1}** is the Reference CPI for the third calendar month preceding the calendar month in which the applicable Interest Payment Date occurs;

(c) **t** is the calendar day corresponding to the applicable Interest Payment Date; and

(d) **D** is the number of days in the calendar month in which the applicable Interest Payment Date occurs.

Base CPI means the Reference CPI on Issue Date being 107.19000

CPI Adjustment in relation to an amount to be valued or paid on a date, that amount divided by the Base CPI and multiplied by the Reference CPI for that date, as determined by the Calculation Agent

Adjustment to CPI Index: If the CPI Index is reset, then a new Reference CPI that is applicable for the Issue Date will (if the Calculation Agent deems it necessary) be calculated in such a way that the Final Redemption Amount is the same immediately before and after the reset.

Index Calculator: Statistics South Africa
The Index ground rules document is available at the Index Calculator's website
