| 83. | Use of Proceeds | As specified in the Programme Memorandum |
| 84. | South African Exchange Control | Any holder of these Notes which is subject to the exchange control regulations of the South African Reserve Bank (“ SARB ”) hereby warrants and confirms that it has obtained any necessary approvals from the SARB to hold these Notes and acknowledges and agrees that it is solely responsible for maintaining any such approvals, satisfying any conditions imposed in terms of such approvals and for fulfilling any relevant reporting requirements. Exchange control approval has been granted to the Issuer for the inward listing of these Notes. |
| 85. | Other provisions | |
| 85.1 | Optional Early Redemption Trigger | If the Calculation Agent determines at any time on any day prior to the redemption of these Notes, that the Unwind Value of the Notes would be less than 70% (the “ Trigger Level ”) of the Nominal Amount thereof, the Issuer may elect, in its sole and absolute discretion, regardless of whether or not such Unwind Value is still below the Trigger Level at the relevant time or on the date on which the Notes are to be redeemed, to redeem the Notes early in accordance with the provisions of Condition 7.3 (read with paragraph 57 above) by delivering the Optional Redemption Notice. |
| 85.2 | Additional Risk Factors | Any Unwind Value, Early Redemption Amount, Entitlement or Partial Cash Settlement Amount may be calculated by reference to Obligations of the Reference Entity or instruments referencing Obligations of the Reference Entity with a principal or notional amount equal to the Reference Currency Notional (as defined in 85.3.3 below). For the purposes of determining any Unwind Value, Early Redemption Amount or the Partial Cash Settlement Amount, any amount denominated in the Reference Currency will be converted into the Settlement Currency at the then prevailing exchange rate between such currencies, as determined by the Calculation Agent. |

These Notes are linked to a nominal amount of the Underlying Bonds which exceeds the Aggregate Nominal Amount. Accordingly, although Noteholders cannot be required to contribute additional funding, they are exposed to additional adverse impact on the occurrence of a Credit Event.

As such, Noteholders may be exposed not only to credit risk of the Reference Entity and the Issuer, but also to the performance of the Reference Currency relative to the Settlement Currency, which cannot be predicted. Noteholders should be aware that foreign exchange rates are, and have been, highly volatile and determined by supply and demand for currencies in the international foreign exchange markets, which are subject to economic factors, including inflation rates in the countries concerned, interest rate differences between the respective countries, economic forecasts, international political factors, currency convertibility and safety of making financial investments in the currency concerned, speculation and measures taken by governments and central banks (e.g., imposition of regulatory controls or taxes, issuance of a new currency to replace an existing currency, alteration of the exchange rate or exchange characteristics by devaluation or revaluation of a currency or imposition of exchange controls with respect to the exchange or transfer of a specified currency that would affect exchange rates and the availability of a specified currency).

The Optional Early Redemption Trigger references the Unwind Value, which may, in certain market conditions, be volatile. It may therefore occur that at the time that the Optional Early Redemption Trigger is exercised market conditions have changed, or market conditions change shortly thereafter, such that the Unwind Value would no longer have been below the Trigger Level.

The Trigger Level of these Notes has been inserted for the benefit of the Issuer and accordingly is not intended to be an implied guarantee or assurance of a minimum return on the Notes, nor is the Issuer under any obligation to exercise its right to redeem the Notes early in the event that the Trigger Level is breached. Accordingly, any Optional Redemption Amount, Early Redemption Amount or Partial Cash Settlement Amount payable or Entitlement that may be received in respect of the Notes may be less than 70% of the Nominal Amount. The determination of whether or not the Trigger Level has been breached is based on the

Calculation Agent's estimates of the Unwind Value, and accordingly the Optional Redemption Amount payable to Noteholders following delivery of the Optional Redemption Notice or any Partial Cash Settlement Amount payable or any Entitlement that may be received following the occurrence of a Credit Event Determination Date may differ from such estimates. In addition, due to the volatility of the Underlying Components, the Unwind Value may fluctuate between the time at which the Trigger Level is first breached and the date on which the Notes are to be redeemed in terms of Condition 7.3, if applicable, which may result in an Optional Redemption Amount lower than 70% of the Nominal Amount of the Notes.

85.3 Additional Definitions:

85.3.1 Trigger Unwind Costs

Means an amount determined by the Calculation Agent equal to the sum of (without duplication) all costs, expenses (including loss of funding), tax and duties which are or would be incurred by the Issuer or gains, including funding benefits, actually realised by the Issuer, in which case expressed as a negative number, in connection with the redemption of the Notes and the related unwind, termination, settlement, amendment or reestablishment of any hedge or related trading position (which for the avoidance of doubt may include, but shall not be limited to, instruments of the type referred to in paragraph 85.3.6 below), provided that on any day on which the Unwind Value is required to be determined where the Notes are not being redeemed on such day or in relation to any hypothetical swaps or instruments, the Trigger Unwind Costs will be determined based on the Calculation Agent's estimate of what such costs, expenses, losses, taxes, duties or gains would be if the Notes were to be redeemed on such day and assuming that the relevant hedges or related trading positions would be unwound, terminated, settled, amended or re-established, as the case may be.

85.3.2 Reference Currency:

USD

85.3.3 Reference Currency Notional:

USD 10 000 000

85.3.4 Settlement Currency:

its sole discretion) as at the date on which the Settlement Currency Equivalent is required to be determined, or in such other commercially reasonable manner as the Calculation Agent shall determine.

85.3.6 Underlying Components

Means any instrument (including but not limited to the Underlying Bonds) held or transactions entered into by the Issuer in its sole discretion in order to hedge its obligations to the Noteholder under these Notes.

Where applicable, the underlying transactions set out above will be subject to the terms of the 2002 ISDA Master Agreement as published by the International Swaps and Derivatives Association, Inc. (including a Schedule thereto) concluded on the Issuer's standard terms.

85.3.7 Entitlement

- Determination Date to and including the Delivery Date equal to Delivery Expenses.
- 85.3.8 Underlying Bonds Means Reference Obligations with a nominal amount of USD10 000 000.
- 85.3.9 Unwind Value Means on any day, in respect of each Note, an amount calculated in ZAR as determined by the Calculation Agent in its sole discretion equal to:
- (A) the sum of the Settlement Currency Equivalent of the value of each of the Underlying Components of the Notes (as defined above) on such day, determined by the Calculation Agent in its sole discretion, acting in a commercially reasonable manner, which may be either positive or negative minus any Trigger Unwind Costs (as defined above),
- multiplied by
- (B) a fraction equal to the Specified Denomination of such Note divided by the Calculation Amount.
- 85.3.10 Reference Currency Equivalent Means, in respect of Deliverable Obligations denominated in a currency other than the Reference Currency (the “**Second Currency**”), an amount of the Second Currency converted to the Reference Currency at the spot rate of exchange (as determined by the Calculation Agent in its sole discretion) as at the relevant date on which any such calculation is required to be made in accordance with the provisions of any hedge or related trading position relating to these Notes, or in such other commercially reasonable manner as the Calculation Agent shall determine.
