

Below is some guidance to issuers on how to set up the users for their company

Please see the example below:

When you populate the template as an Issuer, you will need to add users for every Issuer Role that your company has on the JSE. In the above example, that would be Equity Issuer, Warrant Issuer, Hybrid Issuer and Interest Rate Issuer. For each role, you will need at least one person with a User Access Administrator role and one person with a “Issuer who can approve Sponsor relationships” role. The same person can have both roles, and multiple users can have the same role.

If, for example, your company is listed on both the JSE and the NSX as an Equity Issuer, you need to specify a user for both the JSE and the NSX roles. In the above example, the Equity Issuer may be listed on both exchanges, but the other Issuer roles could only have JSE instruments listed. Below is an example of how the users should be set up.

Exchange	Company Name <i>(please capture legal entity name)</i>	Company Role Type	User Name and Surname	User email address <i>(only individual company email addresses allowed)</i>	SENS System Role required
JSE	ZZZ Bank Ltd	Equity Issuer	User A	usera@zzz.co.za	User Access Administrator
JSE	ZZZ Bank Ltd	Equity Issuer	User A	usera@zzz.co.za	Issuer who can approve Sponsor Relationships
NSX	ZZZ Bank Ltd	Equity Issuer	User A	usera@zzz.co.za	User Access Administrator
NSX	ZZZ Bank Ltd	Equity Issuer	User A	usera@zzz.co.za	Issuer who can approve Sponsor Relationships
JSE	ZZZ Bank Ltd	Warrant Issuer	User A	usera@zzz.co.za	User Access Administrator
JSE	ZZZ Bank Ltd	Warrant Issuer	User A	usera@zzz.co.za	Issuer who can approve Sponsor Relationships
JSE	ZZZ Bank Ltd	Hybrid Issuer	User A	usera@zzz.co.za	User Access Administrator
JSE	ZZZ Bank Ltd	Hybrid Issuer	User A	usera@zzz.co.za	Issuer who can approve Sponsor Relationships
JSE	ZZZ Bank Ltd	Interest Rate Issuer	User B	userb@zzz.co.za	User Access Administrator
JSE	ZZZ Bank Ltd	Interest Rate Issuer	User B	userb@zzz.co.za	Issuer who can approve Sponsor Relationships
JSE	ZZZ Bank Ltd	Interest Rate Issuer	User C	userc@zzz.co.za	Issuer who can approve Sponsor Relationships

- You can assign multiple users to each type of role, for each Company Role type.
- All users don't need to be User Access Administrators. The requirement is only to have at least one User Access Administrator for each Company Role Type.
