Delayed Block Trades

DESCRIPTION	MEMBER IMPACT:	API SPECS UPDATED
<ul style="list-style-type: none"> This enhancement introduces new non-mandatory functionality that allows clients the option to delay Equity market data publication for off book block trades by 2 hours. The TCR will have a new field ('Publish Indicator') allowing clients to select an option for Delay Publication on trade type Block Trade (BT). 	<ul style="list-style-type: none"> API New Post Close Session (18:15 – 18:20) 	<ul style="list-style-type: none"> Volume 10 – Reject Codes and Reasons Volume 03 – Post Trade Gateway (FIX 50 SP2) Volume 09 – JSE Reference Data Management JSE Trading Release 724 Document

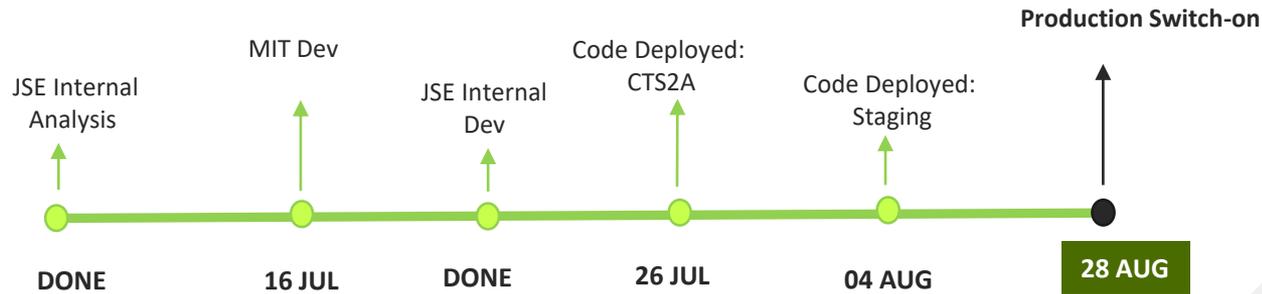

JSE Monthlies at EOD

DESCRIPTION	MEMBER IMPACT:	API SPECS UPDATED
<ul style="list-style-type: none"> ❑ JSE Monthly Futures Close Out (FCO) is an event that occurs every third Thursday of each month at 12h00. ❑ Due to the low liquidity during the 12h00 auction, the JSE will move the monthly auction from mid-day to End of Day (EOD) Closing Auction. ❑ This will be used to determine close out values for the instruments expiring on that day. 	<ul style="list-style-type: none"> ❑ API ❑ Price publication (Exercise/Abandon window) ❑ IDP report ❑ SLA's to be communicated in due course 	<ul style="list-style-type: none"> ❑ Volume 03 – Post Trade Gateway (FIX 50 SP2) ❑ Volume 09 – JSE Reference Data Management

Indicative Commission Fee

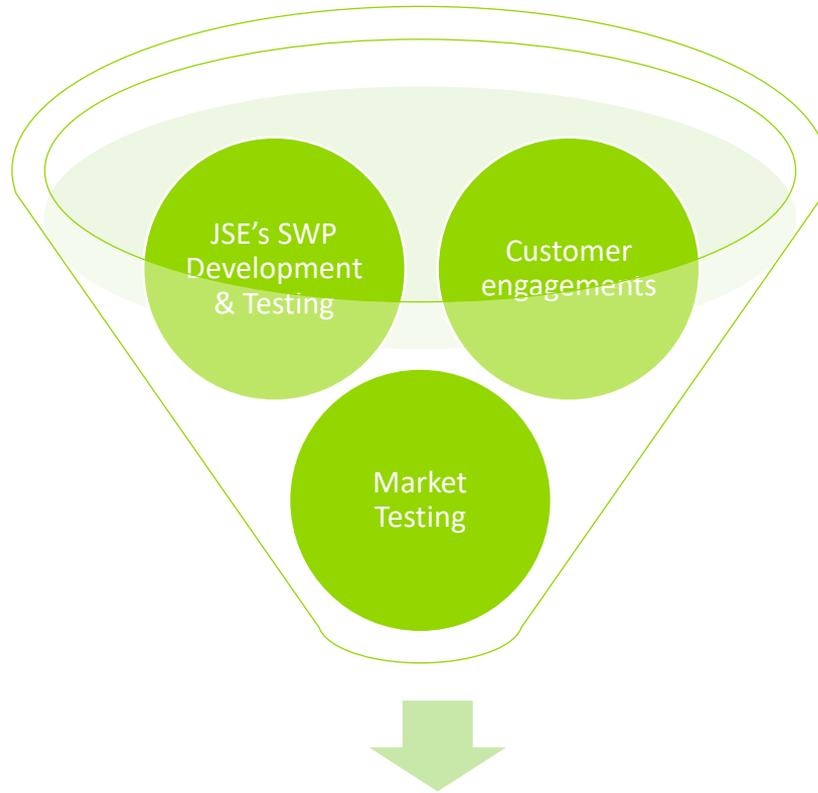

DESCRIPTION	MEMBER IMPACT:	API SPECS UPDATED
<ul style="list-style-type: none"> ❑ This is a new non-mandatory indicative commission field that will be used to capture the commission fee agreed between Traders. ❑ This field will allow for a counterparty to see the commission that is charged against a trade, before accepting the trade. ❑ Two optional fields introduced to the Post Trade Gateway: Commission (12) and Commission Type (13) ❑ Commission Fee currency: ZAR 	<ul style="list-style-type: none"> ❑ API 	<ul style="list-style-type: none"> ❑ Volume 10 – Reject Codes and Reasons ❑ Volume 03 – Post Trade Gateway (FIX 50 SP2)

Diesel

JSE has been conducting internal testing on the new diesel code – no issues have been picked up thus far
API Spec has been communicated to all market participants. JSE has also engaged with some of the SWP's – no concerns at this point

Market testing scheduled to begin 10 August 2021

Compulsory market DR is scheduled for 31 October 2021 – a contingency DR also scheduled for 06 November 2021

The plan go live day is 20 November 2021

RTC 1.34 software upgrade

We thank you for your support during the project and for meeting the timelines for a successful go-live.

RTC hardware upgrade

- The current RTC production and test environments are running on hardware which is approaching its end of life
- The objective of this initiative is purely to replace the hardware
- There are no API changes
- There will be a version change to 1.35
- Regression testing will however be required by all market participants
