JSE AGRICULTURAL PRODUCTS MARKET NOTICE

Number **A701**

Date **21 August 2006**

Delivery at Roedtan silo

Spoornet has confirmed that the rail line to Roedtan silo owned by NTK is currently not operational; the decision by the rail provider to close this line indefinitely has not been made as yet. The exchange will continue to accept deliveries in the interim however will adjust the location differentials to reflect road only access. The differentials will change as follows:

Wheat until 30 Sep 06	-R115/ton
Sunflower until 31 Jan 07	-R157/ton
Maize until 30 Apr 07	-R120/ton

Should the rail line be repaired the differentials will be adjusted; alternatively if not, the silo will be removed as a registered delivery point from the start of the new marketing seasons.

The exchange is in the process of revisiting the individual silo owner requirements; members and clients are welcome to provide input to these requirements. The requirements through Appendix C and D of the contract specifications is available on the safex web page through the link:

http://www.safex.co.za/divs/rule/docs_06/agri_prod_spec_06.pdf

Please forward all input to Chris Sturgess on email chriss@jse.co.za no later than 18 September 2006.
