JSE AGRICULTURAL PRODUCTS MARKET NOTICE

Number **A703**

Date **21 August 2006**

Changes to the physical deliveries report

With regard to notice A591 distributed on the 6 July 2005, further enhancements have been made to the physical delivery daily report as requested at the last Agricultural Advisory Committee meeting. An additional column will be added to indicate the total tonnages delivered on the day that has already being tendered during that specific delivery month. This will provide further transparency around the delivery process with regards to retenders and new stock delivered.

Columns indicating if the deliveries for the day were in electronic or paper format have also been added.

The report can be found in the same place as before on the Safex web page, namely;
