

Market Notice

Number: A1294
Date: 5 October 2010

Mandatory Commodity Derivatives Upgrade – Rescheduled for 20 November 2010

As per JSE Commodity Derivatives Market Notice A1287 please be aware of the following update:

- Due to numerous requests from various parties, the JSE has decided to postpone the upgrade to the next scheduled JSE software release weekend to allow all parties more time to test the software updates.
- This mandatory upgrade will see changes to the Equity and Commodity Derivatives trading front-end (Nutron) and API and associated 3rd party software vendors (e.g. Clearing Members).
- The click once version of this upgrade will be available on NUTRON from Friday evening 19h00 on 19 November 2010.
- The manual download for this front end will be available from 16 November 2010 at the following location:
http://www.jse.co.za/DownloadFiles.aspx?RequestedNode=DownloadableDocuments/Safex/NUTRON_November2010_Upgrade
- The NUTRON version number of this upgrade will be announced closer to the upgrade weekend.
- All users are advised that the 20th November 2010 **will not require any front-end testing** and will exclusively be utilized for upgrading of the Nutron front-end and testing connectivity of such. Users are advised to upgrade their software before the 22nd November 2010 in order to make use of the improved functionality; however it is important to note that the existing version of Nutron will be backward compatible allowing users to continue as is.
- A detailed list of the new functionality and issues addressed will be distributed once internal testing is complete.
- For connectivity to the test environment kindly contact derivative_info@jse.co.za

Please direct any further queries in this regard to derivative_info@jse.co.za
