

## Market Notice

**Number:** A1425  
**Date:** 23 May 2011

---

### Nutron Front End patches available

Since the mandatory upgrade of the Nutron front-end on Monday 16 May 2011, a limited number of commodity market participants have confirmed experiencing problems with:

1. Slow responses when trading on the Nutron front end
2. Disconnects from the Nutron front end

In order to resolve these issues, all market participants are hereby kindly requested to upgrade their Nutron front-ends (Version 1.0.0.26694) with the two patches to be found at:

[http://www.jse.co.za/DownloadFiles.aspx?RequestedNode=DownloadableDocuments/Safex/NUTRON\\_May2011\\_Patch](http://www.jse.co.za/DownloadFiles.aspx?RequestedNode=DownloadableDocuments/Safex/NUTRON_May2011_Patch)

The patches to be downloaded are:

- **sxhndglob.dll**
- **sxhandler.dll**

Although this is not a mandatory upgrade, the JSE would like to encourage all users to download these patches to avoid experiencing the above issues as and when the number of market messages (orders) increase.

If you have any further queries, please feel free to contact [commodities@jse.co.za](mailto:commodities@jse.co.za)
