

Market Notice

Number: A1642
Date 4 June 2012

Confirmation of physical stock held by GWK LTD on Safex silo receipts

Further to notice A1639, an independent audit undertaken on Friday 1 June 2012 by Enslins Bethlehem Incorporated confirmed that there was a total of 24219.698 tons of physical wheat in Modderivier silo whilst 24050 tons remains on Safex silo receipts thereby confirming that there is sufficient physical wheat of the required quality in Modderivier silo complex to meet the Safex silo receipt obligations.

Please note 1400 tons on Safex silo receipts was out loaded last week hence the updated tonnages of 24050 tons remaining on Safex silo receipts.

GWK continues to co-operate fully with the JSE to ensure the remaining Safex silo receipts still in issue are honoured.

GWK may still not issue any new Safex silo receipts pending the finalisation of the JSE's investigation and its decision in respect of GWK's continued registration as an approved silo owner.

Should there be any further questions regards this, contact myself or Louis Cockeran - JSE Legal Counsel, on 011 520 7012.
