Dear JSE Stakeholder

E-mail address:

Changes to the initial margin requirements for physically settled grain contracts

chriss@jse.co.za

As the JSE revisits its initial margining methodology to consider the points below so this requires adjustments to the various margin requirements, the new methodology focuses on:

- Liquidation period of at least 2-days P&L's will be applied to all asset classes.
- A 1000-day (4 year) look-back period will be used.
- Look-back will consist of a rolling 750-day rolling look-back and a 250-day stressed look-back.
- Returns will be scaled according to current volatility.

The complete changes will be implemented in due course however as an interim phase please take note of the changes as per the table below. The maximum increase was limited to R50/ton whilst IMR's have decreased for some of the products. Please also take note the Calendar Spread Margin Requirements for most products have changed reflecting a higher requirement during the spot month expiry and then tapering as we move across the expiry month strip. Please note the follow changes will be introduced on **Thursday 3 July 2014 for Friday 4 July 2014**:

Contract			Calendar Spread Margin
Code	Initial Margin Requirements	IMR Change	Requirement/Expiry
WMAZ +		Increase of R5/ton or	Jul14 – R6000/contract
WNCI	R13 000/contract up to first position day.	R500/contract	Aug14- R5500/contract
WNCI		Decrease of R29/ton or	Sep14 – R5000/contract
=1/10 th	R22 100/ contract from first positions day or at	R2900/contract	All other expiries –
of req.	extended limits.		R5100/contract
	R30 000/contract from last trading day up and until	Unchanged	
	last delivery day.

All series spread margin requirements will remain unchanged for this month.

Price limits for sorghum contracts (both SORG and SGBT) will increase from R50/ton to <u>R80/ton with extended limits</u> <u>at R120/ton</u>. The changes to the price limits will be implemented at the same time as the margin changes namely effective for trading on **Friday 4 July 2014**.
