

Portfolio Upload template - Percentage.

Please take note of the following points:

- You are able to allocate a trade to multiple clients (portfolio) in predetermined ratios by using Nutron's Div Bulk functionality.
- Before you can use Nutron's Div Bulk functionality, you will first need to upload your portfolio/s.
- This document explains the steps involved to set up portfolios as well as using Nutron's Div Bulk functionality.
- This document explains the steps used to set up portfolios in terms of percentages i.e. you can decide what percentage each client will receive from the trade.
- In terms of setting up portfolios by contracts i.e. you can decide how many contracts each client will
 receive from the trade, please refer to the document called Portfolio Upload template Number of
 contracts.

The following procedure should be followed to use the Div Bulk functionality.

1. Under Fin Views in Nutron, select EDM View Trades.
