APD Front End Upgrade

Procedure for the APD September 2006 Front End Upgrade

September 2006 – Front End Upgrade

To upgrade please follow the following steps:

This document serves to outline the procedure that needs to be followed to upgrade your current ATS front end to the latest version and to facilitate a rollback in case of an unsuccessful upgrade.

1. Log into your ATS terminal as normal and start the APD Trading Front End
2. From the menus within the ATS select the *Create Files* option as shown:

3. Now select the *ATS Upgrade* option
4. Next select the *File Upgrade* option. A message will pop up on your screen informing you of the file that is available for upgrade. For this upgrade this will be the file `sxfirun.exe`

Click *OK* to these prompts.

5. A status bar will appear indicating that a download is in progress. Please do not interrupt the download.

File Download [X]

337

6. Once the file download has completed successfully close the ATS program and restart it.

7. On the restart a prompt will appear asking you to continue with the file upgrade:

Click *Yes*

8. The ATS will continue to start. Once fully loaded select the *Comms, Status* option on the menu to check the version of software installed. You should see the following:

Your ATS is now upgraded to Version 9.7.0 Build 0

Should you require to roll back your upgrade please follow the following steps:

Only follow the steps below if asked to do so by the Exchange in case of an unsuccessful upgrade !

1. Log into your ATS terminal as normal and start the FDD Trading Front End
2. From the menus within the ATS select the *Create Files* option as shown:

3. Now select the *ATS Upgrade* option
4. Next select the *Undo File Upgrade* option. A message will pop up on your screen asking you to confirm that you would like to undo your file upgrade. Select *Yes*.

5. Now please close your ATS front end and then reopen it. You will be prompted to confirm to continue with the undo of the file upgrade:

6. Select *Yes*.
7. Your ATS front end will reopen on the previous version.
