

## 1 | Contract Specifications – JSE KCBT Hard Red Winter Wheat Futures

FUTURES CONTRACT	JSE KCBT HARD RED WINTER WHEAT
<b>Trading system code</b>	KANS
<b>Trading Hours</b>	09h00 – 12h00 South African time (Monday to Friday except national holidays).
<b>Underlying Instrument</b>	A Kansas City Board of Trade (KCBT) Hard Red Winter Wheat futures contract meeting all quality specifications as listed and traded on KCBT. The JSE reserves the right to amend the contract specifications including settlement methodology should these be amended by the reference exchange.
<b>Contract Months</b>	March, May, July, September and December.
<b>Listing Programme</b>	Ensure a minimum of three expiries are always available for trade.
<b>Expiry Dates &amp; Times</b>	Last trading date of the contract will be the second last business day preceding the first business day of the contract month at 12h00 South African time. The clearance date of the contract will be the first business day of the contract month. The final cash settlement value will only be finalised and released the following business day after trading has ceased. The final variation margin will therefore be settled one day after last trading day and initial margin returned on the clearance day. The clearance day can further be defined as the day on which all remaining open positions are closed off automatically by the clearing application.
<b>Determination of the final Cash Settlement Value</b>	The final settlement price for cash settlement of the contract will require two components, a KCBT settlement value and a Rand Dollar exchange rate. The KCBT settlement value will refer to an average of 30 iterations referencing trades in the underlying derivative contract, taken every 1 minute for a period of 30 minutes ending 10h30 Kansas City time (SA Summer: 18h01-18h30 and SA Winter: 17h01-17h30) on the business day prior to first notice day, as per the KCBT product calendar. The average price will then be converted from bushels to tonnes using the conversion factor of 36,7437. <i>Last trading day can be defined as second business day preceding the first business day of the traded expiry month. Eg 29 Nov2012 for the Dec2012 expiry.</i> The Rand Dollar exchange rate required to determine the settlement price in South African Rands per ton will be finalised by referencing 30 iterations, arithmetic average of the underlying spot taken every 1 minute for a period of 30 minutes, ending at 10h00 New York time (SA Summer: 16h31-17h00 and SA Winter: 15h31-16h00). On the morning after the last trading day of the contract, the JSE will publish via the trading system (NUTRON) the final cash settlement value.
<b>Contract Size</b>	1 contract = 50 metric tons.
<b>Quotations</b>	In South African currency per metric ton.

FUTURES CONTRACT	JSE KCBT HARD RED WINTER WHEAT
<b>Minimum Price Movement</b>	20 RSA cents per ton.
<b>Settlement Method</b>	Cash settled in South African Rands (ZAR).
<b>Initial Margin Requirements</b>	<p>As per the published market notices. The exchange also provides for calendar spread margin (offset between different expiry months) as well as series spread margin (considering the local wheat (WEAT) , CBOT wheat (REDW) as well as KCBT (KANS) contract. It is important to include the difference in the initial margin requirements when determining the total spread position (difference between the two wheat contracts initial margin must be added to the series spread to determine total initial margin requirement).</p> <p><i>On commencement of the contract, Initial Margin Requirement will be R7400 per contract applicable to all expiries introduced, calendar spread margin will be R2250 per contract and series spread margin for across the wheat margin group will remain at R4500 per contract.</i></p>
<b>Daily Mark-to-market</b>	<p>As per the existing Commodity Derivatives mtm process whereby bids, offers and trades on the local South African contract will be considered.</p> <p><i>JSE reserves the right to consider the KCBT trading activity from time to time to align expiries that are not liquid.</i></p>
<b>Exchange Fees</b>	R10.00 per contract (incl VAT).
<b>Daily price limits</b>	No price limits will be applicable.
<b>Position Limits</b>	No speculative position limits apply however the JSE may at its discretion implement limits as per Rule 10.4 and defined in the Derivative Directives.
<b>Volatility Scanning Range</b>	3.5
<b>Qualifying Audience allowed to participate</b>	<ul style="list-style-type: none"> <li>- Individuals and Foreigners have no limits.</li> <li>- Corporate entities have no limits.</li> <li>- Pension funds and long term insurance companies subject to their 25% foreign allocation limits</li> <li>- Asset managers and registered collective investment schemes subject to their 35% foreign allocation limits.</li> </ul>
<b>Trade types accommodated</b>	<p>All trading activity (bids and offers) must be entered onto the central order book during trading hours however the JSE will accommodate the following report only trade types provided they meet the existing criteria:</p> <ul style="list-style-type: none"> <li>- Exchange for Physicals (EFP's)</li> <li>- Exchange for Risk (EFR's)</li> </ul>

FUTURES CONTRACT	JSE KCBT HARD RED WINTER WHEAT
	<ul style="list-style-type: none"><li>- Ring Fenced trades (RF's)</li><li>- Net-off of positions applicable to the same legal entity</li></ul> <p>One other exception will be considered, due to the market only trading between 09h00 and 12h00, the JSE will accept reported transactions specific to the contract outside of the standard trading hours as agreed between registered counterparties. A minimum contract volume of 50 contracts will be applicable. These transactions should be reported to the JSE before 07h30 the following morning and must be market related – the transactions will then be captured as a report only and will reflect under volumes matched before the market opens.</p>

## 2 | Contract Specifications — JSE KCBT Hard Red Winter Wheat Options

OPTIONS CONTRACT	JSE KCBT HARD RED WINTER WHEAT
<b>Underlying Instrument</b>	One JSE KCBT Hard Red Winter Wheat futures contract.
<b>Option Type</b>	American style options.
<b>Contract Size</b>	One contract = 50 metric tons.
