Dear JSE Stakeholder,

The JSE has received an application from Suidwes Landbou (Edms) Bpk (Registration Number 1990/006879/07) to **deregister** the following Maize delivery points effective from **01 May 2015**.

Storage Point	Distance to Randfontein (Km)	Total Capacity (Tons)	Location Differential (R/Ton)
Amalia	324	45846	277
Hallatshope	300	72615	269
Strydpoort	237	67923	232
Vryburg	490	55076	286
Wolmaranstad	219	82923	224

In addition to the above, SWL has applied for the **registration** of the following additional wheat delivery point:

Storage Point	Nearest Location	Rail Siding #	Closest Main Road	Total Capacity (Tons)	Proposed Location Differential (R/Ton)
Hoopstad	Bloemhof	N/A	R34/R700	63538	297

Proposed Location Differential for Hoopstad is based on wheat information provided by market participants earlier this year and is based on 100% road usage. Should there be no objections received to this request, Hoopstad would be added as a delivery point for the current wheat marketing season.

Please could market participants carefully consider the above request and should there be any concerns regarding either the registration or deregistration of delivery points please email these to commodities@jse.co.za **no later than Friday 19 December 2014**. We will then publish a final market notice confirming the application.
